Country: null

State or Province: null

ZIP/Postal Code: null

Email Address: null

Organization Name: null

Comment: I am concerned that the Copyright Royalty Board Library of Congress (CRB) lacks the authority to adopt this regulation. Further, I think this would require the application of the Federal Acquisition Regulations to certain royalty arrangements. Will noncommercial educational webcasters have to competitively bid certain licenses?

Overall, I think this rulemaking is much more than a "technical" change.
