### Space D — Copyright Royalty Fee

**GENERAL:** In this area, report the number of subscribers receiving each analog and digital superstation and network station retransmitted outside the station's "local market." **NOTE:** Do not report those subscribers who reside in a community where the station is "significantly viewed" for the definition of a station's "local market," and note regarding "significantly viewed," see page (iii) of the General Instructions.

The subscriber information must be reported for each month of the accounting period. The stations should be grouped together according to whether they are "superstations" or "network" stations as identified in Space C. Then compute the royalty fee in Part 3.

**NOTE:** In the case of multicasting of digital superstations and network stations, each digital stream that is retransmitted by a satellite carrier must be paid for at the prescribed rate but no royalty payment is due for any program-related material contained on the stream within the meaning of *WGN v. United Video, Inc.*, 693 F.2d 622, 626 (7th Cir.1982) and *Second Report and Order and First Order on Reconsideration* in CS Doc. No. 98-120, FCC 05-27 at ¶ 44 & ¶ 158 (Feb. 23, 2005).

#### SPACE D, PART 1 - Carriage for Private Home Viewing

- FIRST:** Under the headings SUPERSTATIONS and NETWORK STATIONS, enter those stations' call signs and the number of subscribers receiving those stations on the last day of each month of the accounting period. Then, for each station, total the number of subscribers for all six months of the accounting period and enter that figure under the column labeled TOTAL.

**NOTE:** Do not include 1) those subscribers receiving a superstation retransmitted within the station's "local market," 2) not those subscribers receiving a network station retransmitted within that station's "local market" to subscribers residing in "unserved households", 3) nor those subscribers who reside in a community where that signal is deemed "significantly viewed" by the FCC, provided that those subscribers receive local-to-local service. See pages (i-iii) of the General Instructions for a definition of these terms.

- NEXT:** Compute the grand total number of subscribers receiving "superstations" and "network" stations
