DIRECT TESTIMONY OF MARSHA E. KESSLER

I. BIOGRAPHICAL INFORMATION

My name is Marsha E. Kessler. Prior to my retirement in August 2010, I served as Vice-President, Retransmission Royalty Distribution, at Motion Picture Association of America ("MPAA"), a position I held, under various titles, for about 28 years. Prior to working for MPAA, I was a founding member of the Copyright Office's Licensing Division, the division responsible for collecting cable royalties under Section 111 of the Copyright Act. **Section 111**, also known as the "statutory" or "compulsory" license, governs cable system royalty fee obligations for the carriage of broadcast signals. At the Licensing Division, I initially was an "Examiner" of **Statements of Account ("SOAs")** – the documents cable operators file to substantiate their royalty payments. Later, I became a "Lead Examiner." As a Lead Examiner, I advised colleagues as they encountered difficulties with individual SOAs. I have a baccalaureate degree in Spanish from Catawba College in Salisbury, North Carolina and a master's degree in Spanish Language and Literature from the University of Maryland, College Park, Maryland.

In order to verify the accuracy of a royalty payment, examiners confirmed that the cable operator had filed the correct SOA form and had supplied all other required SOA information (*e.g.*, numbers of subscribers served, monthly rates, stations retransmitted, revenues, activated channels, *etc.*). In the case of larger systems, we confirmed that the royalty payment reflected correct application of the

provisions of the statutory license in conjunction with the former signal carriage rules of the Federal Communications Commission ("FCC"). If all those conditions were met, the filing was accepted.

If an SOA appeared deficient (for example, if the system omitted information or miscalculated the royalty), examiners wrote to the system and sought correction of the matter.

I left the Licensing Division in 1982 and began working for MPAA, where I oversaw the distribution of cable and satellite retransmission royalties (under Sections 111 and 119 of the Copyright Act) until my retirement in 2010. I worked closely with information technology contractors and with financial, legal and statistical professionals to provide fair and efficient distribution of royalties among our represented claimants. In addition to overseeing royalty distributions, I assisted MPAA-represented program owners in the annual filing of their royalty claims with the Copyright Royalty Board ("CRB"). I also supervised MPAA's statutory license enforcement efforts. This supervision included training, reviewing the work of, and advising staff who review SOAs for compliance with the statutory license. Moreover, I made recommendations regarding potential areas for enforcement investigation and on other matters that cropped up during the course of an investigation.

I previously testified before the Copyright Royalty Judges ("Judges") in Phase I of this proceeding, and a copy of my written direct testimony in that matter

is attached to my Phase II testimony here and incorporated as Appendix A.¹ I also provided testimony to the Judges in the recent 2004-2005 cable Phase I proceeding. In addition to testifying before the Judges, I have testified numerous times before the Copyright Royalty Tribunal, the Copyright Arbitration Royalty Panel, and the Canadian Copyright Board on matters related to statutory license royalties. I have also appeared before the Intellectual Property Subcommittee of the House Judiciary Committee in a matter connected with satellite royalty rates.

II. PURPOSE OF TESTIMONY

First, I will describe the nature and extent of the MPAA-represented Program Suppliers' claim in this proceeding, including the different types of programs that comprise our claim. Second, I will explain MPAA's process for identifying and certifying ownership of each of the program titles claimed by MPAA in this proceeding. Finally, I will describe my role in the Nielsen Studies which the MPAA-represented Program Suppliers are presenting as evidence in this proceeding.

¹ In my 2000-2003 Cable Phase I testimony, I explained in detail how Section 111 royalties are collected by the Copyright Office and provided information regarding cable systems' SOA filing requirements, including descriptions of key elements of the SOAs, types of cable systems, types of distant signals, and the methodology by which cable operators calculate royalties. See Appendix A.

III. INTRODUCTION

Beginning with the first royalty distribution proceeding addressing the allocation of 1978 cable royalties, MPAA has been the *de facto* Phase I representative of all Program Supplier claimants — the owners of nonnetwork series, movies and specials which air on commercial television broadcast stations retransmitted by cable systems. In Phase II proceedings, MPAA represents those program suppliers who have agreed to representation by MPAA (“MPAA-represented Program Suppliers”). A listing of MPAA-represented Program Suppliers is set forth in Appendix B.

MPAA-represented Program Suppliers include not only the major U.S. production studios, but also dozens and dozens of smaller producers and syndicators from both the U.S. and many parts of the world — all of whom have filed claims seeking a share of the pool. For the 2000-2003 royalty years, MPAA directly represents approximately 100 claimants each year. Because many of these MPAA-represented claimants filed joint claims, have multiple subsidiaries, and include royalty collection agents, MPAA directly and indirectly represents as many as 1,400 claimants per royalty year.

Merely describing our programs as series, movies and specials understates the width and breadth of MPAA-represented Program Suppliers’ claim. Our programs include game shows, sitcoms, news magazines, interview shows, sports

shows and sporting events, awards shows, health and fitness shows, and animal shows as well as similar works in Spanish. The following is a brief example:

- **Live-action and/or animated series and sitcoms**, such as: FRIENDS (Warner Bros. Domestic Television Distribution), 3RD ROCK FROM THE SUN (Carsey-Werner-Mandabach Productions, LLC), and THE SIMPSONS (Fox Entertainment Group, Inc.).
- **Movies**, such as: AFRICAN QUEEN (Carlton International), A FISH CALLED WANDA (Metro-Goldwyn Mayer Studios, Inc.), and YOUNG GUNS II (Morgan Creek International, Inc.).
- **Game shows**, such as: FAMILY FEUD (FremantleMedia NA) and JEOPARDY! (Jeopardy Productions, Inc.).
- **Sports shows and sports-related programs**, such as: BABE WINKELMAN'S GOOD FISHING (Babe Winkelman Productions, Inc.), GEORGE MICHAEL SPORTS MACHINE (King World Productions, Inc.), THIS WEEK IN BASEBALL (Major League Baseball Properties, Inc.). WOMEN OF WRESTLING (MG/Perin) and SUPER TUESDAY (World Wrestling Entertainment, Inc.).
- **Awards shows and pageants**, such as: FIFTH ANNUAL FAMILY FRIENDLY AWARDS (dick clark productions, inc.), MISS HAWAIIAN TROPIC INTERNATIONAL FINALS (Bennett Productions, Inc.) and GOLDEN GLOBE AWARDS (dick clark productions, inc.).

- **News shows**, such as: HEADLINE NEWS (Cable News Network LLP), MCLAUGHLIN GROUP (Oliver Productions, Inc.) and WALL STREET JOURNAL REPORT (NBC Universal, Inc.).
- **Health and fitness shows**, such as: WAI LANA YOGA (Zia Film Distribution LLC), plus an almost unlimited number of infomercials promoting exercise equipment and diet plans.
- **Animal shows**, such as: WILD ABOUT ANIMALS (Steve Rotfeld Productions, Inc.), ANIMAL RESCUE (Telco Productions, Inc.) and PET KEEPING WITH MARC MORRONE (Martha Stewart Living Omnimedia, Inc.).
- **Interview and talk shows**, such as: OPRAH WINFREY (King World Productions, Inc.) and MARTHA STEWART LIVING (Martha Stewart Living Omnimedia, Inc.).

All of these and many more types of programs fall under the MPAA-represented Program Suppliers' umbrella. Relative to Phase II claims, MPAA-represented Program Suppliers not only have the largest number of programs, they also have an extremely diverse array of programs. An alphabetical list I prepared of all of the program titles that MPAA-represented Program Suppliers are claiming in this proceeding for each royalty year is attached to my testimony as Appendix C. Taken together, this list includes approximately 11,600 MPAA-claimed titles for the four-year period.

Definitions

Before going on, it might be helpful to provide definitions of some terms commonly used in Section 111 discussions.

TV station: A broadcast facility licensed by the FCC to air on a specific channel in a certain geographic area. An example of a TV broadcast station is KMSP, channel 27, licensed to Minneapolis. Although there are exceptions, call signs of stations located in the western U.S. begin with the letter "K" (*e.g.*, KOMO in Seattle) and call signs of stations located in the eastern U.S. begin with the letter "W" (*e.g.*, WJLA in Washington, D.C.). TV stations are sometimes referred to as "over-the-air television stations" or "free TV." Stations are also referred to as "signals."

Cable network: A facility which does not broadcast itself, but which provides programming directly to cable systems. An example of a cable network is TNT. Programming on cable networks is *not* compensable under Section 111.

Network station, Independent station; Network and Nonnetwork programming: In the context of Section 111, **Network TV stations** are those commercial broadcast stations affiliated with the ABC, CBS and/or NBC networks only. All other commercial stations are considered **Independent stations**.

Network programming refers to programming disseminated by the ABC/CBS/NBC networks to their affiliated TV stations. ABC/CBS/NBC network programming is *not* compensable under Section 111. **Nonnetwork programming**

refers to programming on TV stations that the stations acquire themselves, *i.e.*, programming not disseminated to them by the ABC, CBS, or NBC networks. Nonnetwork programming is the only type of programming compensable under Section 111.

Transmission versus retransmission: TV stations broadcast (*i.e.*, **transmit**) works over the air to the public which receives the programming for free. Section 111 refers to this as the primary transmission. Cable systems simultaneously **re-transmit** stations' signals to their subscribers, who pay fees for the service. Section 111 refers to this as the secondary transmission.

Local Market (or Local Service Area): The geographic area within which a TV station is entitled to insist that its signal be retransmitted by a cable system in accordance with the FCC "must carry" rules. A cable system located within a particular television market must carry all stations that are licensed (*i.e.*, local) to the market.

Distant Station (Signal): When a cable system retransmits a broadcast station outside of the station's local market, the station is referred to as a distant station or signal. For example, when Verizon retransmits WGN-Chicago to the District of Columbia TV market, WGN is deemed a distant signal in the District of Columbia.

Local Station (Signal): When a cable system retransmits a station to subscribers located *within* that station's market, the station is called a "**local**"

signal. For example, WDCA, channel 20, licensed to the District of Columbia, is considered a local signal in Washington, D.C.

Retransmission royalties: Section 111 royalties cable operators pay in order to retransmit TV station programming to subscribers.

IV. MPAA'S CLAIM VERIFICATION AND TITLE CERTIFICATION PROCESS

In the years that I worked at MPAA, we developed and maintained internal standards to ensure that only those individuals or entities who were truly entitled to claim retransmission royalties would be able to assert a claim for those royalties through MPAA. To be a MPAA-represented claimant, a rights-holder must satisfy the following requirements: (1) file a timely claim for retransmission royalties each year with the Copyright Office; (2) provide MPAA with an "as-filed" copy of that claim, demonstrating that it was submitted to the Office in a timely manner; and (3) have a valid representation agreement with MPAA. All of the MPAA-represented claimants listed on Appendix B to my testimony satisfied these requirements.

Relative to 2000-2003 for those parties who satisfied the requirements, MPAA proceeded to identify the program titles for which those entities were entitled to claim Section 111 royalties. This process included analyzing the program title information submitted by MPAA-represented claimants and performing independent research to identify additional program titles potentially owned by our represented claimants.

Once MPAA identified the program titles we believed were attributable to a particular claimant, we prepared a certification report listing those titles and sent it to the claimant, along with a certification form for the claimant to sign verifying that party's right to claim the works listed on the certification report.

Additionally, each claimant was required to strike through any titles for which it was not authorized to claim retransmission royalties and to then certify its ownership of the remaining titles. After review, MPAA's represented claimants returned their executed certifications to my attention at MPAA. I reviewed the executed certifications and ensured that any corrections made to the report were accurately adjusted by MPAA. I performed the tasks just described on a royalty year-by-royalty year basis. The list of MPAA-represented claimants' titles in Appendix C of my testimony were all subject to this certification process.

V. MPAA-REPRESENTED PROGRAM SUPPLIERS' NIELSEN STUDIES IN THIS PROCEEDING

In this proceeding, MPAA-represented Program Suppliers will be presenting studies of viewing to distantly retransmitted, nonnetwork programs undertaken by Nielsen. In this part of my testimony, I will explain my role in the development of these studies.

Viewing, as measured by Nielsen, is the predominant standard by which all television programming is commercially evaluated. It is to Nielsen, therefore, that MPAA turns for assistance in quantifying the consumption of distant signal programming.

To begin the process, I (1) selected a sample of stations retransmitted by cable systems, (2) performed an analysis to determine the local market (county) for each station in the sample, and (3) sent both the sample stations and the related local county analysis to Nielsen for Nielsen to extract related viewing by distant subscribers. Below, I describe the first two steps in the process. Nielsen's Paul Lindstrom will describe the methodology employed by Nielsen to obtain the distant viewing information for 2000-2003 ("Nielsen Studies").

A. Selection Of Sample Stations

Prior to commissioning each of the Nielsen Studies I requested a report from Cable Data Corporation ("CDC")² showing all stations distantly retransmitted by cable systems for each of the years in question. The reports provided detailed information on each station, including number of distant subscribers, estimated royalties attributed to the station, station type, and whether the data were attributable to Form 1-2 systems (the so-called smaller systems whose revenues fall below a certain threshold) or to Form 3 systems (the so-called large systems whose revenues are above the threshold). Using the CDC Form 3 SOA data, I identified and prepared a list of sample stations for each year. We relied on Form 3 data related to commercial stations to select the samples because Form 3 royalties and subscribers account for the lion's share of all cable royalties

² CDC is a Mount Airy, Maryland company who specializes in collecting data reported by cable systems on their SOAs and producing regular and customized data reports utilizing SOA data.

and distant subscribers – roughly 91% - 93% (subscribers) and 96% - 97% (royalties) for each year.

The chart below provides data related to the percentage of distant subscribers and share of royalties represented by each year's sample. The data reflect the retransmission of commercial stations only, as the allocation of funds for works on Canadian, Mexican and public television stations is not at issue in this proceeding.

Royalty Year	Number of Stations	Percentage of Total Distant Subscribers Covered by Sample Stations	Percentage of Total Royalties Generated By Sample Stations
2000	81	75%	84%
2001	97	85%	90%
2002	122	85%	90%
2003	125	86%	86%

The lists in Appendix D are the stations in my 2000-2003 samples.

B. Local County Analysis For Commercial Stations

Standard Nielsen ratings – which are measured on a county-by-county basis – do not differentiate between distant and local viewing. The next step, therefore, was MPAA's identification for Nielsen of the counties in which cable household ("CHH") viewing to each sample station would be considered **local**. Thus, when performing its estimates, Nielsen could ignore data from **local** counties and focus its measurements on viewing from **distant** counties only.

MPAA based identification of the counties local to each 2000-2003 sample station on the FCC signal carriage rules,³ and we refer to this task as “county analysis.” We employed the following general steps: first, we identified the counties that constituted each station’s Designated Market Area (“DMA”). All such counties are considered local for that station. Second, we identified the counties in which each station was deemed “**significantly viewed**” (“SV”) per the FCC. All such counties are considered local for that station pursuant to the FCC’s signal carriage rules. Lastly, we looked at other factors that would qualify a county as local to the station in question. Appendix F to my testimony provides an illustration of how the local county analysis was performed for 2000-2003.

After completing the local county analysis, we then provided Nielsen with a listing of those counties that we identified as local for each sample station. As Mr. Lindstrom’s testimony should confirm, Nielsen excluded viewing from cable households located in each station’s local counties with the result that only *distant* cable viewing is shown in the studies.

C. Commissioning The 2000-2003 Nielsen Studies

After I selected the sample stations and worked with my staff at MPAA to complete the local county analysis for each year, I delivered these items to Nielsen and requested special studies for each of the 2000-2003 years estimating

³ The signal carriage rules, now rescinded, were found at Sections 76.57 through 76.63 of the regulations of the FCC. 47 C.F.R. §§ 76.57-76.63 (1976), attached as Appendix E.

distant viewing to the selected stations by cable households. This request concluded my participation in the Nielsen Studies.

Thank you for the opportunity to present the information in this testimony. I hope it will be helpful in the Judges' deliberations.

DECLARATION OF MARSHA E KESSLER

I declare under penalty of perjury that the foregoing testimony is true and correct, and of my personal knowledge.

DIRECT TESTIMONY OF MARSHA E. KESSLER

I. BIOGRAPHICAL INFORMATION

My name is Marsha E. Kessler. I am appearing as a witness in this proceeding on behalf of the Program Suppliers. I am Vice-President, Retransmission Royalty Distribution, at Motion Picture Association of America ("MPAA"). I have held this position, under various titles, for about 27 years. Prior to that, I was a founding member of the Copyright Office's Licensing Division, the division responsible for collecting cable royalties under Section 111 of the Copyright Act. **Section 111**, also known as the "statutory" or "compulsory" license, governs cable system royalty fee liability for the carriage of broadcast signals. At the Licensing Division, I initially was an "Examiner" of **Statements of Account ("SOAs")** -- the documents cable operators file to substantiate their royalty payments. Later, I became a "Lead Examiner." As a Lead Examiner, I advised colleagues as they encountered difficulties with individual SOAs.

In order to verify the accuracy of a royalty payment, examiners confirmed that the operator had filed the correct SOA form applicable to the amount of **gross receipts** reported (more about which I will say later) and that the operator had supplied all other information required in the statement (*e.g.*, numbers of subscribers served, stations carried, revenues, *etc.*). In the case of larger (or so-called "Form 3") systems, we confirmed that the royalty payment reflected correct application of the provisions of the statutory license in conjunction with the former

signal carriage rules of the Federal Communications Commission ("FCC").¹

The FCC's signal carriage rules are used to identify distant stations carried by Form 3 systems. I will say more about distant stations later, but for the time being, note that different types of distant stations are assigned different weights and those weights are reflected in the formula for calculating each cable system's royalty obligation. Examiners at the Licensing Division made sure each reporting cable system used the correct SOA form, accurately identified its distant stations, and calculated the royalty as required by statute. If all those conditions were met, the filing was deemed accepted.

If a SOA appeared deficient (for example, if the system omitted or misreported information), examiners wrote to the system and sought correction of the matter.

Since leaving the Licensing Division in 1982, I have worked for MPAA, where I oversee the distribution of cable and satellite retransmission royalties (under Sections 111 and 119 of the Copyright Act, respectively). I work closely with information technology contractors and with financial, legal and statistical professionals to provide fair and efficient distribution of royalties among our represented claimants. In addition to overseeing royalty distribution, I assist

¹ The signal carriage rules, now rescinded, were found at Sections 76.57 through 76.63 of the regulations of the FCC. 47 C.F.R. §§ 76.57-76.63 (1976), PS Exhibit ____ (MEK-1).

program owners in the annual filing of their royalty claims with the Copyright Royalty Board ("CRB").

Finally, I supervise MPAA's compulsory license enforcement efforts.² My responsibilities in that regard include training, reviewing the work of, and supervising the staff who review cable system SOAs for compliance with the statutory license. I also make recommendations regarding potential areas of concern for investigation and on other matters that crop up during the course of an investigation.

I have testified numerous times before the Copyright Royalty Tribunal, the Copyright Arbitration Royalty Panel, and the Canadian Copyright Board on matters related to statutory license royalties. I have also appeared before the Intellectual Property Subcommittee of the House Judiciary Committee in a matter connected with satellite royalty rates.

II. PURPOSE OF TESTIMONY

I will provide information regarding cable systems' SOA filing requirements, including descriptions of key elements of the SOAs, types of cable systems, types of distant signals, and the methodology by which cable operators

² Although the Copyright Office takes action to get licensees to correct errors on SOAs, it has no authority to pursue actions in the courts if the licensees do not fix the errors. That role falls to copyright owners, who must file infringement actions against systems that fail to satisfy their statutory filing obligations. MPAA's enforcement program monitors cable systems' filings and seeks to bring cable systems and satellite carriers into compliance when it believes their reporting or payments conflict with the requirements of the statutory licenses.

calculate royalties. I will also illustrate how royalties were actually reported on the SOAs filed by a specific cable system that carried Canadian distant signals. Finally, using specific examples, I will illustrate how a cable system's royalty payment may fluctuate due to a variety of factors.

III. INTRODUCTION

To be considered compensable under Section 111, programming must meet three qualifiers:

1. The programming must be initially transmitted by a broadcast television station that either the FCC or the Canadian or Mexican governments have licensed to a particular community on a specific channel. An example of a broadcast television station here in Washington, D.C. is WJLA, channel 7.
2. A cable system must simultaneously retransmit the broadcast station's programming outside the station's local market (a station *transmits* and the cable system *retransmits*).
3. The programming cannot be part of programming transmitted by the ABC, CBS or NBC networks via their affiliated stations ("**network programming**").³

The compensable programming represented by the Settling Parties in this proceeding includes series and movies, professional and collegiate sporting

³ Programming on cable networks, *e.g.*, HBO, ESPN, USA, *etc.* does not fall within the terms of Section 111 because program owners license programming directly to cable networks through private negotiations.

programming, station-produced news and other programming, religious programming, non-commercial programming, and music used during these programs.⁴

Now, a little more detail: As I indicated above, a **broadcast station** is a facility licensed by the FCC (or the Canadian or Mexican governments) to a particular community on a specific channel. Each station is identified by a **call sign** and **channel** along with its **city of license**, for example, WJLA, channel 7, in Washington, D.C. or KOMO, channel 4, in Seattle. With minor exceptions, call signs of stations located in the western part of the U.S. begin with the letter "K" (e.g., KOMO in Seattle) and call signs of stations located in the eastern part of the U.S. begin with the letter "W" (e.g., WJLA in Washington, D.C.). Broadcast stations are sometimes referred to as "free, over-the-air television stations" or "free TV" or "TV stations." Stations are also referred to as "signals."

Program owners can license their shows to television stations for broadcast within a television market (usually defined by geographic areas). Program owners receive compensation for such a license. For example, a program owner could license a program to Washington, D.C. station WJLA, channel 7 only for broadcast in the Washington, D.C. market. WJLA transmits (*i.e.*, broadcasts) its programming free of charge to the public, and anyone in the D.C. metro area who

⁴ The Settling Parties are comprised of Program Suppliers, Joint Sports Claimants, Commercial Television Claimants, Public Television Claimants, Music Claimants and Devotional Claimants.

has a television set capable of receiving the WJLA signal can watch the programs on WJLA free of charge.

As long as a cable operator complies with Section 111, it may retransmit WJLA to subscribers located *outside* of the Washington, D.C. local market. This means the programs on WJLA would be available to a new audience for which the program owner has not been compensated. It is the purpose of Section 111 to compensate program owners for this increased exposure of their works outside (*i.e.*, distant to) the area to which the program was originally licensed.

When a cable system located in Washington, D.C. retransmits WJLA to subscribers located *within* the Washington, D.C. market, WJLA is called a "**local**" signal. When a cable system located outside of the Washington, D.C. market retransmits WJLA and delivers its signal to subscribers outside the Washington, D.C. market, WJLA becomes, for that cable system, a "**distant**" station for Section 111 purposes. I will say more about distant stations, or distant signals, later.

IV. OPERATION OF THE SECTION 111 STATUTORY LICENSE

In order to retransmit broadcast station signals without infringing program owners' copyright in individual works, the cable operator must comply with the requirements of the statutory license. Compliance consists of, among other things, the operator filing a SOA and paying a royalty, the calculation of which is determined by Section 111. Cable operators make royalty payments and file the

accompanying SOAs twice a year with the Licensing Division of the Copyright Office. Royalties and SOAs for January 1 through June 30 are due by August 29; for August 1 through December 31, they are due by March 1 of the following year. We refer to these time frames as accounting periods "1" and "2," respectively, for example "2000-1" (for the first accounting period in 2000) and "2001-2" (for the second accounting period in 2001).

V. THE STATEMENT OF ACCOUNT

A. Contents of the Statement of Account

Section 111 requires that cable operators accompany each royalty payment with a SOA. In the SOA, the operator must provide information about the system's operations during the accounting period. Different-sized systems file different SOA forms. Copies of the two types of Statement of Account forms are attached to my testimony. PS Exhibit ____ (MEK-2) is the form for smaller systems called "Form 1-2" and PS Exhibit ____ (MEK-3) is the form for larger systems called "Form 3."

Information found on both SOAs includes:

- Owner of the system
- Communities served by the system
- The categories of service offered by the system (*e.g.*, basic, expanded basic and pay cable, more about which I will say later)
- The number of subscribers to those services

- The rates charged the subscribers
- Television broadcast stations retransmitted to the system's subscribers (by call sign, local channel, city of license, *etc.*)
- Gross receipts for any and all packages or tiers of service that contain broadcast signals
- The royalty fee calculation plus a section where interest can be calculated if the system files late
- The number of channels on which the system retransmitted broadcast stations and the total number of activated channels offered by the system
- Various schedules providing the basis for calculating certain royalties
- A certification of the information in the SOA
- An individual at the system to whom inquiries can be made if further information is required

Next, I will describe the key reported items found in an SOA.

B. Gross Receipts

Gross receipts are the fees collected by cable operators from subscribers who receive the categories of service containing broadcast stations. Cable operators offer various packages, or tiers, of programming. Typically, there is a "basic service tier" (or "basic tier"), which must include local broadcast stations

and may also include distant broadcast stations and access channels for local city and county governments and educational institutions as well as cable networks. In a hypothetical situation, a cable system might charge a monthly rate of \$14 for the basic tier.

One notch up from basic is what the cable system typically refers to as the "expanded basic" tier, which may include such things as distant signals and digital broadcast stations plus basic cable networks. In the hypothetical situation envisioned in the preceding paragraph, the same cable system might charge an expanded basic tier monthly fee of \$25. Of course, a cable customer must first subscribe to the basic tier (for \$14) before she can receive the expanded basic tier, so the subscriber's total cost would be \$39 for both tiers.

Cable operators also offer premium cable networks ("pay cable") such as HBO or Showtime. Cable systems market these premium channels either alone or in packages of multiple channels for an additional monthly fee, say \$20. The cable customer must first subscribe to the basic tier before electing additional premium channels. In the hypothetical posed above, if the customer subscribes to basic (for \$14), expanded basic (for \$25) and HBO/Showtime for (\$20), the customer's bill would be \$59 per month.

For purposes of calculating its Section 111 royalties, the cable operator must report as Gross Receipts the full amounts received from all tiers of service that contain broadcast stations. In the hypothetical given above, if the cable

operator offered its local broadcast and distant broadcast stations in the basic (\$14) tier and a distant station in the expanded basic (\$25) tier, the operator must calculate its gross receipts based on the \$39 (\$14 plus \$25) paid by all subscribers who received the basic and expanded basic tiers. Operators are not allowed to prorate fees for tiers of service that contain both broadcast and non-broadcast offerings when reporting their gross receipts.

Section 111 differentiates cable systems based on the amount of their semi-annual gross receipts. As stated, smaller systems file SOAs known as "Form 1-2." Larger systems use the SOA known as "Form 3."

Different-sized systems pay different statutory fees based on their Gross Receipts. In the first accounting period of 2000 (*i.e.*, 2000-1), the Gross Receipts thresholds for the three forms were:

Form 1: \$75,800 or less

Form 2: More than \$75,800 and less than \$292,000

Form 3: \$292,000 and more

For 2000-1, the royalty payments were as follows:

- Form 1 operators paid a *flat fee* of \$28 every 6 months.
- Form 2 operators paid flat *percentages* of their Gross Receipts (0.5% up to \$146,000 and 1.0% of their Gross Receipts in excess of \$146,000 but less than \$292,000).

- Form 3 operators paid a royalty based on a calculation whose components are the system's Gross Receipts and the number and type of distant stations they carried.

Commencing July 1, 2000, the rate increased. Thereafter, the Gross Receipts thresholds for the three forms increased:

Form 1: \$98,600 or less

Form 2: More than \$98,600 and less than \$379,600

Form 3: \$379,600 and more

Commencing with the 2000-2 accounting period, Form 1 operators paid a *flat fee* of \$37 every 6 months. The methodology for calculating Form 2 and Form 3 operators' royalties did not change.

VI. THE 2000, 2001, 2002, AND 2003 CABLE FUNDS AND SUBSCRIBERS

For the years, 2000, 2001, 2002, and 2003, the approximate total royalties paid by cable operators each year were as follows:

2000 \$120.4 million

2001 \$122.9 million

2002 \$130.9 million

2003 \$132.1 million

Appendix A is a copy of the Licensing Division's Report of Receipts dated January 23, 2009, showing cable royalty deposits from inception to date.

Appendix B breaks out the average number of systems, subscribers and total

royalties reported by cable operators in the SOA filings for 2000-2003. The data for Appendix B were provided by **Cable Data Corporation ("CDC")**, a Rockville, Maryland company, whose representative I understand will testify in this proceeding. CDC compiles SOA information, as reported on paper forms at the Copyright Office, and reproduces the data in electronic format. CDC is the only company that does this work and all parties in this proceeding rely on CDC for SOA data.

You will note small differences between Appendix A (the Licensing Division's deposits) and the royalty amounts as recorded by CDC and reported in Appendix B. While the Division's document reports the deposits related to unexamined SOAs, CDC's data are compiled after SOAs have been examined and may include adjustments for interest, additional payments, refunds, *etc.* Regardless of the differences in the absolute amounts between the two sources, they both show that the royalties paid for the years at issue in this proceeding total approximately \$500 million, and that the bulk of the subscribers (about 92%) and of the royalties (about 96%) are attributable to Form 3 cable systems.

VII. FORM 3 ROYALTIES

A. Distant Signals

The Form 3 royalty calculation involves the number and type of distant stations carried by the system. Remember, "**distant**" means a cable system carries the station outside the station's local market, which under Section 111(f) is

referred to as the station's "local service area." Form 3 cable operators are required to account for all distant signals when calculating the royalty obligation.

In 2000, 2001, 2002, and 2003, the process for identifying a system's distant stations was based on an amalgam of current and former FCC cable system signal carriage rules. These rules define which stations a cable system "must" carry (meaning the local stations) and which stations a cable system "may" carry (*i.e.*, distant stations). The FCC's former signal carriage rules applied different standards depending on size of the market in which the cable system was located. But the primary determinant, which comes from the current rules, is whether the station is being transmitted within its own Nielsen **Designated Market Area** ("**DMA**"). DMAs are non-overlapping geographic markets consisting of counties in which one market's stations are viewed predominately.

Under Section 111(c)(4), cable systems are allowed to retransmit Canadian broadcast stations as long as the cable system is located north of the forty-second parallel of latitude and within 150 miles of the U.S.-Canadian border. The rules for determining which Canadian stations are distant and which are local are the same as for U.S. broadcast stations.

Form 1 and Form 2 systems pay either the flat fee (Form 1) or specific percentages of Gross Receipts (Form 2) regardless of how many distant broadcast stations they retransmit. For Form 3 operators, if a station is local, the operator

does not have to account for the station in the calculation. If the station is distant, the operator must account for the station in the royalty calculation.

B. Royalty Fee Calculation for Form 3 Systems

A Form 3 operator pays a royalty based on the system's Gross Receipts and the number and type of distant stations carried. If you return to PS ____ (MEK-3) you will see Space E of a Form 3 SOA, which is the where the operator reports the types of services or tiers of services related to carriage of broadcast stations. The subscriber fees collected from all those services must be included in the system's Gross Receipts. For this purpose, those fees include not only fees from residential customers, but also fees from commercial users, as well as payments made for related services (for example, for additional sets or for converter boxes).

If you look at Space G, you will see the section where the operator identifies all stations carried during the accounting period plus an identification of those stations which were distant. Again, the determination of whether a station is distant or local to the system is determined by analyses associated with the signal carriage rules.

After identifying the distant signals retransmitted by the system, the cable operator assigns a weight to each one. The weight is called a **Distant Signal Equivalent ("DSE")**. DSE values are a statutorily-prescribed system of values, assigned by Section 111 as follows:

- **Independent** stations, which include Fox, UPN, WB, PAX and Canadian signals, are set at 1.00 DSE.
- Stations affiliated with the ABC, CBS and/or NBC networks are set at 0.25 DSE.
- **Public television** stations are set at 0.25 DSE.

Congress assigned the different DSE values based in part on assumptions about the amount of nonnetwork (*i.e.*, compensable) programming carried by each type of station.

The next step is for the cable operator to total the DSE values. Assume, for example, that a system carried a total of 6 distant stations -- 2 independent stations, 3 network stations and 1 PBS station. Those 6 distant stations translate to a total DSE value of 3.0, calculated as follows:

2.00	(2 distant independents at 1.00 DSE each)
0.75	(3 distant networks at 0.25 DSE each)
<u>0.25</u>	<u>(1 distant PBS station at 0.25 DSE each)</u>
3.00	Total DSEs

After determining Gross Receipts and DSE values, the cable operator calculates the first of three potential royalty payments, the **Base Rate Fee**. The Base Rate Fee is the primary or first royalty that all Form 3 cable operators must pay. The Base Rate Fee must be paid regardless of whether or how many distant

signals are carried. Page 16 of PS Exhibit ____ (MEK-3) shows the place on the SOA where cable operators tabulate their Base Rate Fee.

If the system retransmits more than one distant signal, the Base Rate Fee is calculated according to a sliding scale of percentages based on the number of DSEs. Starting in 2000-2, those percentages for the period covered by this case were:

Royalty Rates – Base Rate Fee

DSEs	Percentage of Gross Receipts
1 st DSE	0.956%
2 nd , 3 rd & 4 th DSEs, each	0.630%
All DSEs over 4	0.296%

The cable operator calculates the royalty by multiplying the system's Gross Receipts by the DSE percentages.

Example of Base Rate Fee Calculation

If we assume that the cable system had Gross Receipts of \$1,300,000 and 3.0 DSEs (based on the carriage of the 6 distant stations in the example above), here is how the Form 3 Base Rate Fee is calculated:

Gross Receipts	\$1,300,000
Total number DSEs	3.0
1 st DSE at 0.956% ($\$1,300,000 \times 0.956\% \times 1$)	\$12,428
2 nd and 3 rd DSEs at 0.630% ($\$1,300,000 \times 0.630\% \times 2$)	\$16,380
5 th DSE at 0.296% ($\$1,300,000 \times 0.296\% \times 0$)	\$0
Total Royalty, Base Rate Fee	<u>\$28,808</u>

Explanation: Royalties for the 1st DSE are calculated by multiplying Gross Receipts of \$1,300,000 by 0.956% (the rate for the 1st DSE), which equals \$12,428. The second and third DSEs are paid for at the same rate of 0.630%, so the royalty payment for those remaining 2 DSEs in the hypothetical is calculated by multiplying Gross Receipts of \$1,300,000 times the rate (0.630%) times 2, for a royalty of \$16,380. Had there been more than 4 DSEs, the royalty would have been calculated by multiplying Gross Receipts of \$1,300,000 times 0.296% times the number of DSEs over 4. Added together, the Base Rate Fee for this hypothetical Form 3 system is \$28,808.

If a cable system carries no distant stations, or if the number of distant stations it carries totals less than 1.0 DSE, the system pays a minimum fee. The minimum fee is the equivalent of 1.0 DSE and is paid at the rate of the 1st DSE, *i.e.*, 0.956% of Gross Receipts. The Base Rate Fee paid by each cable operator makes up the Basic Fund.

C. The 3.75% Fee and the Syndicated Exclusivity Surcharge

In addition to the Base Rate Fee, there are two additional categories of royalties for which an operator may be obligated to pay in certain circumstances: the "**3.75% Fee**" and the "**Syndicated Exclusivity Surcharge**" (also called "**Syndex Surcharge**"). These fees resulted from changes in the FCC rules and regulations that affected carriage of distant signals.

Prior to June 24, 1981, cable systems were limited as to the number and type of distant stations they were permitted to retransmit. Appendix C is a chart showing those limits.

The term "3.75% Fee" refers to the royalty obligation for the carriage of stations a cable system could not have carried prior to June 24, 1981, the date on which the FCC eliminated its rules restricting the number of distant signals cable systems were permitted to retransmit. The fee for qualifying stations is 3.75% of Gross Receipts per station in lieu of the Base Rate Fee or the Syndex Surcharge. Page 13 of PS Exhibit ___ (MEK-3) shows the page where the cable system calculates the 3.75% Fee royalty.

The calculation of 3.75% Fee liability is similar to that of the Base Rate Fee. The first step is identifying all stations for which there is 3.75% Fee liability. Next, the DSEs for those stations are totaled. Then Gross Receipts are multiplied by 3.75% and that result is multiplied by the total DSEs for 3.75% Fee stations. The result is the 3.75% Fee royalty obligation.

Here is an example of the 3.75% Fee calculation in a hypothetical situation where a system with Gross Receipts of \$700,000 must pay 3.75% for one independent (1.00) DSE plus one network affiliate (0.25 DSE) for a total of 1.25 DSEs.

$$\text{\$700,000 times 3.75\% times 1.25} = \text{\$32,813}$$

Note three observations regarding the 3.75% Fee:

- If the cable operator pays the 3.75% Fee for a particular distant station, there is no other royalty due for that station.
- If an operator is carrying two independent stations (say a U.S. independent plus a Canadian station) and is required to pay 3.75% Fee liability for one independent station, the option as to which station is paid at the Base Rate versus which is paid at the 3.75% rate is an arbitrary choice by the cable system.
- In situations where the cable system serves communities where the application of the 3.75% Fee rules differs (for example, if the system serves communities in the Top 50 markets and also serves communities outside all television markets), the operator is permitted to prorate the 3.75% Fee.

The 3.75% Fee royalties are paid into the 3.75% Fee Fund.

“Syndicated Exclusivity Surcharge” or “Syndex Surcharge” refers to the protection FCC rules formerly provided to television stations in the top 100 markets. At one time, the FCC required cable systems, if requested by the local station, to black out syndicated programs on distant stations if the same programs were available on a local TV station. The purpose was to protect the local station’s right to provide an exclusive audience to the businesses to whom the station had sold commercial time. Those rules have gone through several

evolutions, one of the effects of which was the imposition of the Syndex Surcharge for Form 3 systems located in the top 100 markets. A cable operator becomes liable for the Syndex Surcharge when the operator:

1. serves subscribers located in one of the top 100 markets as defined by the FCC (Section 76.51)
2. carries a very high frequency ("VHF") station
3. serves subscribers located within the station's Grade B contour⁵
4. whose syndicated programs the operators once were required to black out pursuant to FCC rules in effect on June 24, 1981, but which the operators are no longer required to black out because the FCC rule changed.

Fortunately, the circumstances that trigger this type of payment occur rather infrequently and result in a very small amount of royalties generated -- approximately \$272,000 for 2000, 2001, 2002 and 2003 combined. Page 15 of PS Exhibit ____ (MEK-3) shows the schedule by which the cable operator calculates any applicable Syndex Surcharge royalty, and Appendix D is a listing of the FCC's top 100 markets. The Syndex Surcharge fees are paid into the Syndex Surcharge Fund.

⁵ A Grade B contour is a prediction of the station's signal strength. The contour generally resembles a circle around the station's transmitter.

In the cases of all three fee schedules, the Base Rate Fee, 3.75% Fee and Syndex Surcharge, cable operators are permitted to prorate their payments in one limited circumstance, to wit, if they retransmit stations that are distant to some communities in the cable system, but local to other communities served by the system. Such stations are called "**partially-distant**" stations, or "P-D" and the operator pays royalties only on the Gross Receipts attributable to the so-called distant subscribers.

Appendix E reports the breakdown of Form 3 payments for 2000, 2001, 2002, and 2003 by royalty type.

VII. THE CONCEPT OF "FEES GENERATED"

The term "**fees gen**" is an abbreviation of the term "**fees generated**" and it refers to the attempt to assign a proportionate share of the total royalties paid by all systems to each individual broadcast station that is retransmitted as a distant signal. However, it is actually not possible to quantify the precise amount of total royalties that can be directly attributable to any individual station.

Recall the example I gave earlier wherein the system with \$1,300,000 in gross receipts carried 6 distant stations for a total of 3 DSEs:

2.00	(2 distant independents at 1.00 DSE each)
0.75	(3 distant networks at 0.25 DSE each)
<u>0.25</u>	<u>(1 distant PBS station at 0.25 DSE each)</u>
3.00	Total DSEs

Recall also that the DSE percentages are on a sliding scale that has lower rates as more distant signals are carried. Cable operators are not required to match DSEs to specific stations, so for the following illustration, let us assume that at least one of the distant independents in my example is a Canadian station.

The hypothetical system paid a royalty of \$12,428 for the first 1.0 DSE. But the calculation of that amount was related to the *DSE value* allocated to individual stations, not to a specific station. There are several possible ways to reach \$12,428. It could be a payment for a Canadian station (*i.e.*, for 1.0 DSE); it could be the payment for three network affiliates plus one public television station (*i.e.*, four stations at 0.25 DSE each); it could be a payment for a different independent; or it could be a payment for four network stations. The matter is further complicated if the 2nd, 3rd, 4th and 5th DSEs are taken into account. Just as the 1.0 DSE for the Canadian station could be considered to be part of the calculation for the first 1.0 DSE, that 1.0 DSE could instead be housed within the "last four" DSEs, and paid for at a lower rate. The point is -- there is no way to attach any particular distant signal with any particular royalty payment.

CDC devised the fees gen methodology for allocating fees generated to individual stations. The following is my understanding of how the CDC "fees gen" protocol operates:

Form 3 systems that carried no distant stations are required to pay a minimum fee equivalent to 1.0 DSE. For these systems, CDC allocates the entire royalty payment to what it calls the Minimum Fee Category. Thus if a system paid \$30,000 and retransmitted 6 (local) broadcast stations, the entire \$30,000 would be allocated to CDC's Minimum Fee Category.

For Form 3 systems whose total DSEs are less than 1.0 and whose distant stations carried no 3.75% Fee liability, the royalty is allocated among the distant station(s) as a proportion of their total DSEs and the balance is allocated to the Minimum Fee Category. For example, assume a cable system carried 3 distant network affiliates (*i.e.*, 3 stations times 0.25 DSE each for a total of 0.75 DSE). Such a system would pay the minimum fee. If the minimum fee were \$6,000, each distant station would be allocated \$1,500, and the remaining \$1,500 would be allocated to the Minimum Fee Category.

For Form 3 systems with total DSEs of 1.0 or more, CDC sums total DSEs and then allocates the royalty among the distant stations in the same proportion that each station's DSE value represents of total DSEs. In our hypothetical system above, the allocation of the \$28,808 royalty payment would go like this:

<u>DISTANT STATION</u>	<u>DSE</u>	<u>% OF TOTAL DSEs</u>	<u>SHARE OF \$28,808</u>
<u>1st independent</u>	<u>1.00</u>	<u>33.33%</u>	<u>\$ 9,603</u>
<u>2nd independent</u>	<u>1.00</u>	<u>33.33%</u>	<u>\$ 9,603</u>
<u>1st network affiliate</u>	<u>0.25</u>	<u>8.33%</u>	<u>\$ 2,401</u>
<u>2nd network affiliate</u>	<u>0.25</u>	<u>8.33%</u>	<u>\$ 2,401</u>
<u>3rd network affiliate</u>	<u>0.25</u>	<u>8.33%</u>	<u>\$ 2,401</u>
<u>1st PTV station</u>	<u>0.25</u>	<u>8.33%</u>	<u>\$ 2,401</u>
<u>TOTAL</u>	<u>3.00</u>	<u>100.0%</u>	<u>\$ 28,808</u>

Note the difference between the royalty paid for a single 1.0 DSE value in the hypothetical versus the fees gen assigned by prorating the independent stations in the foregoing illustration. For Form 3 systems with 3.75% Fee liability, CDC allocates the payment on a pro rata basis by dividing each station's DSE value by total DSE values for all 3.75% Fee stations and multiplying each station's resulting percentage times the royalty amount.

CDC's fees gen allocation reflects the relative weights of DSE values for independent (including Canadian) stations, network affiliates and public television stations.

It might be helpful to illustrate how the fees gen allocation plays out in practice by examining the following SOA filings by the cable system serving Dunkirk, New York. The individual filings covering periods 1998-1 through 2005-1 are included as PS Exhibit ____ (MEK-4). In the initial periods, the

system carried the same distant stations, shown below with the DSE value for each:

CBLT	5	TORONTO	1.00
CFTO	9	TORONTO	1.00
CHTV	11	TORONTO	1.00
WICU	12	ERIE, PA	0.25
WJET	24	ERIE, PA	0.25
WSEE	35	ERIE, PA	0.25
WPIX	11	NEW YORK	1.00
CIII	6	PARIS, ONT	<u>1.00</u>
Total DSEs			5.75

Appendix F summarizes the system's subscriber count, gross receipts, total DSEs and royalty for accounting periods 1998-1 through 2005-1. It is immediately obvious that, although the number of subscribers to the Dunkirk system and the number of distant stations retransmitted (between 6 and 8) remained relatively steady throughout the years in question, the system's gross receipts and corresponding royalty payments fluctuated significantly. The gross receipts started at \$299,058 in 1998-1. Starting in 2002-2, the system added a "satellite tier" and the subscriber fees associated with that tier increased the Gross Receipts to \$1.6 million in 2002-2. Two years later, when the system began providing the satellite tier at no cost, the gross receipts dropped to \$338,000 in 2005-1, and the system filed as a Form 2 system, thereby reducing its royalty payment.

Dunkirk's royalties similarly track the gross receipts, starting at \$21,105 for 1998-1, getting as high as \$252,000 in 2004-1, and then plummeting to around \$2,400 in 2005-1 -- substantially below where they were in 1998-1.

Another factor in the history of Dunkirk's royalty payments is the effect of a Section 111 rate change that took place in 2000-2. The change increased the Form 3 royalty rate, but it also increased the Gross Receipts threshold so that in 2000-2 the system was able to file as a Form 2 system, thereby reducing its royalty payment.

Appendix F shows the effect of these various influences on fees gen for the Base Rate and 3.75% Fee royalties for 1.00 DSE.

Another factor that can cause fluctuation in fees gen is the merger of formerly independent systems. Such a merger would result in an increase in gross receipts of the merged entity and automatically trigger a higher payment in the next period and a higher allocation to distant signals.

Similarly, a system might drop a previously-carried distant signal, resulting in the royalties being allocated among fewer stations/DSEs. Related to this factor would be a system that carries just a single distant independent (Canadian) station. That system must pay the same minimum fee, whether or not it carries that single station.

Thank you for the opportunity to present the information in this testimony. I hope it will be helpful in the Judges' deliberations.

APPENDIX A

§ 76.29

**Subpart B—Registration
Statements****§ 76.29 Special temporary authority.**

(a) In circumstances requiring the temporary use of community units for operations not authorized by the Commission's rules, a cable television system may request special temporary authority to operate. The Commission may grant special temporary authority, upon a finding that the public interest would be served thereby, for a period not to exceed ninety (90) days, and may extend such authority, upon a like finding, for one additional period, not to exceed ninety (90) days.

(b) Requests for special temporary authority may be submitted informally, by letter, and shall contain the following:

(1) Name and address of the applicant cable system.

(2) Community in which the community unit is located.

(3) Type of operation to be conducted.

(4) Date of commencement of proposed operations.

(5) Duration of time for which temporary authority is required.

(6) All pertinent facts and considerations relied on to demonstrate the need for special temporary authority and to support a determination that a grant of such authority would serve the public interest.

(7) A certificate of service on all interested parties.

(c) A request for special temporary authority shall be filed at least ten (10) days prior to the date of commencement of the proposed operations, or shall be accompanied by a statement of reasons for the delay in submitting such request.

(d) A grant of special temporary authority may be rescinded by the Commission at any time upon a finding of facts which warrant such action.

[39 FR 35166, Sept. 30, 1974; 42 FR 19346, Apr. 13, 1977, as amended at 43 FR 49008, Oct. 20, 1978]

**Subpart C—Federal-State/Local
Regulatory Relationships [Re-
served]**

47 CFR Ch. I (10-1-03 Edition)

**Subpart D—Carriage of Television
Broadcast Signals****§ 76.51 Major television markets.**

For purposes of the cable television rules, the following is a list of the major television markets and their designated communities:

(a) First 50 major television markets:

- (1) New York, New York-Linden-Paterson-Newark, New Jersey.
- (2) Los Angeles-San Bernardino-Corona-Riverside-Anaheim, Calif.
- (3) Chicago, Ill.
- (4) Philadelphia, Pa.-Burlington, N.J.
- (5) Detroit, Mich.
- (6) Boston-Cambridge-Worcester-Lawrence, Mass.
- (7) San Francisco-Oakland-San Jose, Calif.
- (8) Cleveland-Lorain-Akron, Ohio.
- (9) Washington, DC.
- (10) Pittsburgh, Pa.
- (11) St. Louis, Mo.
- (12) Dallas-Fort Worth, Tex.
- (13) Minneapolis-St. Paul, Minn.
- (14) Baltimore, Md.
- (15) Houston, Tex.
- (16) Indianapolis-Bloomington, Ind.
- (17) Cincinnati, Ohio-Newport, Ky.
- (18) Atlanta-Rome, Ga.
- (19) Hartford-New Haven-New Britain-Waterbury-New London, Ct.
- (20) Seattle-Tacoma, Wash.
- (21) Miami, Fla.
- (22) Kansas City, Mo.
- (23) Milwaukee, Wis.
- (24) Buffalo, N.Y.
- (25) Sacramento-Stockton-Modesto, Calif.
- (26) Memphis, Tenn.
- (27) Columbus-Chillicothe, Ohio.
- (28) Tampa-St. Petersburg-Clearwater, Florida.
- (29) Portland, Oreg.
- (30) Nashville, Tenn.
- (31) New Orleans, La.
- (32) Denver-Castle Rock, Colorado.
- (33) Providence, R.I.-New Bedford, Mass.
- (34) Albany-Schenectady-Troy, N.Y.
- (35) Syracuse, N.Y.
- (36) Charleston-Huntington, W. Va.
- (37) Kalamazoo-Grand Rapids-Battle Creek, Mich.
- (38) Louisville, Ky.
- (39) Oklahoma City, Okla.
- (40) Birmingham, Ala.
- (41) Dayton-Kettering, Ohio.

Federal Communications Commission

§ 76.53

- (42) Charlotte, N.C.
 (43) Phoenix-Mesa, Ariz.
 (44) Norfolk-Newport News-Portsmouth-Hampton, Va.
 (45) San Antonio, Tex.
 (46) Greenville-Spartanburg-Anderson, S.C.-Asheville, N.C.
 (47) Greensboro-High Point-Winston Salem, N.C.
 (48) Salt Lake City, Utah.
 (49) Wilkes Barre-Scranton, Pa.
 (50) Little Rock-Pine Bluff, Arkansas.
 (b) Second 50 major television markets:
 (51) San Diego, Calif.
 (52) Toledo, Ohio.
 (53) Omaha, Nebr.
 (54) Tulsa, Okla.
 (55) Orlando-Daytona Beach-Melbourne-Cocoa-Clermont, Florida.
 (56) Rochester, N.Y.
 (57) Harrisburg-Lancaster-York, Pa.
 (58) Texarkana, Tex.-Shreveport, La.
 (59) Mobile, Ala.-Pensacola, Fla.
 (60) Davenport, Iowa-Rock Island-Moline, Ill.
 (61) Flint-Bay City-Saginaw, Mich.
 (62) Green Bay, Wis.
 (63) Richmond-Petersburg, Va.
 (64) Springfield-Decatur-Champaign, Illinois.
 (65) Cedar Rapids-Waterloo, Iowa.
 (66) Des Moines-Ames, Iowa.
 (67) Wichita-Hutchinson, Kans.
 (68) Jacksonville, Fla.
 (69) Cape Girardeau, Mo.-Paducah, Ky.-Harrisburg, Ill.
 (70) Roanoke-Lynchburg, Va.
 (71) Knoxville, Tenn.
 (72) Fresno-Visalia-Hanford-Clovis, California.
 (73) Raleigh-Durham-Goldsboro-Fayetteville, North Carolina.
 (74) Johnstown-Altoona, Pa.
 (75) Portland-Poland Spring, Maine.
 (76) Spokane, Wash.
 (77) Jackson, Miss.
 (78) Chattanooga, Tenn.
 (79) Youngstown, Ohio.
 (80) South Bend-Elkhart, Ind.
 (81) Albuquerque, N. Mex.
 (82) Fort Wayne-Roanoke, Ind.
 (83) Peoria, Ill.
 (84) Greenville-Washington-New Bern, N.C.
 (85) Sioux Falls-Mitchell, S. Dak.
 (86) Evansville, Ind.
 (87) Baton Rouge, La.
 (88) Beaumont-Port Arthur, Tex.
 (89) Duluth, Minn.-Superior, Minn.
 (90) Wheeling, W. Va.-Steubenville, Ohio.
 (91) Lincoln-Hastings-Kearney, Nebr.
 (92) Lansing-Onondaga, Mich.
 (93) Madison, Wis.
 (94) Columbus, Ga.
 (95) Amarillo, Tex.
 (96) Huntsville-Decatur, Ala.
 (97) Rockford-Freepport, Ill.
 (98) Fargo-Valley City, N.D.
 (99) Monroe, La.-El Dorado, Ark.
 (100) Columbia, S.C.

NOTE: Requests for changes to this list shall be made in the form of a petition for rulemaking pursuant to § 1.401 of this chapter, except that such petitions shall not be subject to the public notice provisions of § 1.403 of this chapter.

[37 FR 3278, Feb. 12, 1972, as amended at 37 FR 13866, July 14, 1972; 39 FR 24373, July 2, 1974; 39 FR 27572, July 30, 1974; 39 FR 37988, Oct. 25, 1974; 58 FR 17359, Apr. 2, 1993; 58 FR 30995, May 28, 1993; 58 FR 64168, Dec. 6, 1993; 58 FR 67694, Dec. 22, 1993; 59 FR 25344, May 16, 1994; 59 FR 46358, Sept. 8, 1994; 60 FR 45376, Aug. 31, 1995; 60 FR 51928, Oct. 4, 1995; 61 FR 18292, Apr. 25, 1996; 65 FR 88101, Nov. 14, 2000]

§ 76.53 Reference points.

The following list of reference points shall be used to identify the boundaries of the major and smaller television markets (defined in § 76.5). Where a community's reference point is not given, the geographic coordinates of the main post office in the community shall be used.

State and community	Latitude	Longitude
Alabama:

§ 76.54 Significantly viewed signals; method to be followed for special showings.

(a) Signals that are significantly viewed in a county (and thus are deemed to be significantly viewed within all communities within the county) are those that are listed in Appendix B of the *Memorandum Opinion and Order on Reconsideration of the Cable Television Report and Order* (Docket 18397 et al.), FCC 72-530.

(b) Significant viewing in a cable television community for signals not shown as significantly viewed under paragraphs (a) or (d) of this section may be demonstrated by an independent professional audience survey of noncable television homes that covers at least two weekly periods separated by at least thirty (30) days but no more than one of which shall be a week between the months of April and September. If two surveys are taken, they shall include samples sufficient to assure that the combined surveys result in an average figure of at least one standard error above the required viewing level. If surveys are taken for more than 2 weekly periods in any 12 months, all such surveys must result in an average figure at least one standard error above the required viewing level. If a cable television system serves more than one community, a single survey may be taken, provided that the sample includes noncable television homes from each community that are proportional to the population.

(c) Notice of a survey to be made pursuant to paragraph (b) of this section shall be served on all licensees or permittees of television broadcast stations within whose predicted Grade B contour the cable community or communities are located, in whole or in part, and on all other system community units, franchisees, and franchise applicants in the cable community or communities at least thirty (30) days prior to the initial survey period. Such notice shall include the name of the survey organization and a description of the procedures to be used. Objections to survey organizations or procedures shall be served on the party sponsoring the survey within twenty (20) days after receipt of such notice.

NOTE: With respect to those counties designated by an asterisk in Appendix B of the *Memorandum Opinion and Order on Reconsideration of the Cable Television Report and Order* (Docket 18397 et al.), FCC 72-530, surveys of significant viewing made pursuant to § 76.54 (b) may be submitted prior to March 31, 1973.

(d) Signals of television broadcast stations not encompassed by the surveys (for the periods May 1970, November 1970 and February/March 1971) used in establishing Appendix B of the *Memorandum Opinion and Order on Reconsideration of Cable Television Report and Order*, FCC 72-530, 36 FCC 2d 326 (1972), may be demonstrated as significantly viewed on a county-wide basis by independent professional audience surveys which cover three separate, consecutive four-week periods and are otherwise comparable to the surveys used in compiling the

above-referenced Appendix B; *Provided, however*, That such demonstration shall be based upon audience survey data for the first three years of the subject station's broadcast operations.

§ 76.55 Manner of carriage.

(a) Where a television broadcast signal is required to be carried by a community unit, pursuant to the rules in this subpart:

(1) The signal shall be carried without material degradation in quality (within the limitations imposed by the technical state of the art), and, where applicable, in accordance with the technical standards of Subpart K of this part;

(2) The signal shall, on request of the station licensee or permittee, be carried on the community unit on the channel number on which the station is transmitting, except where technically infeasible;

(3) The signal shall, on request of the station licensee or permittee, be carried on the community unit on no more than one channel; *Provided, however*, That this provision shall not apply to a signal protected pursuant to §§ 76.92 and 76.94, during periods when network program nonduplication protection is provided.

(b) Where a television broadcast signal is carried by a community unit, pursuant to the rules in this subpart, the programs broadcast shall be carried in full, without deletion or alteration of any portion except as required by this part.

(c) A community unit need not carry the signal of any television translator station if (1) the community unit is carrying the signal of the originating station, or (2) the community of the unit is located, in whole or in part, within the Grade B contour of a station carried on the community unit whose programming is substantially duplicated by the translator station.

(d) If the community is located, in whole or in part, within the Grade B contour of both a satellite and its parent television station, and if the community unit would otherwise be required to carry both of them pursuant to the rules in this subpart, the community unit need carry only one of these signals, and may select between them.

§ 76.57 Provisions for systems operating in communities located outside of all major and smaller television markets.

Where a system serves a community that is located wholly outside all major and smaller television markets, as defined in § 76.5 that community unit shall carry television broadcast signals in accordance with the following provisions:

(a) Any such community unit may carry or, on request of the relevant licensee or permittee, shall carry the signals of:

(1) Television broadcast stations within whose Grade B contours the community of the unit is located, in whole or in part;

(2) Television translator stations with 100 watts or higher power serving the community of the unit and, as to community units that commence operations or expand channel capacity after March 30, 1972, noncommercial educational translator stations with 5 watts or higher power serving the community of the unit. In addition, any community unit may elect to carry the signal of any noncommercial educational translator station;

(3) Noncommercial educational television broadcast stations within whose specified zone the community of the unit is located, in whole or in part;

(4) Commercial television broadcast stations that are significantly viewed in the community of the unit. See § 76.54.

(b) In addition to the television broadcast signals carried pursuant to paragraph (a) of this section, any such community unit may carry any additional television signals.

(c) In addition to the television broadcast signals carried pursuant to paragraphs (a) and (b) of this section, any television station during the period from sign off of the last television broadcast station which the community unit must carry pursuant to § 76.57(a), or from 12:00 a.m. in the Central and Mountain Time Zones and 1:00 a.m. in the Eastern and Pacific Time Zones, whichever occurs first, to the sign-on of the first station which the community unit must carry pursuant to § 76.57(a); *Provided, however*: That a community unit may

carry a program to its completion; *And provided further:* That this subsection does not authorize carriage in the manner described above whenever a television broadcast station that the community unit must carry pursuant to § 76.57(a) broadcasts continuously and does not sign off during the hours from 12:00 a.m. to 6:00 a.m. Carriage of such additional television signals shall not require prior registration with the Commission and shall be consistent with the network nonduplication protection and syndicated exclusivity rules of Subpart F of this part. #

(d) In addition to the television broadcast signals carried pursuant to paragraphs (a), (b) and (c) of this section, any television station while it is broadcasting a foreign language, religious or automated program. Carriage of such selected programs shall be only for the duration of the programs and shall not require prior registration with the Commission.

§ 76.59 Provisions for smaller television markets.

Where a system serves a community that is located in whole or in part within a smaller television market, as defined in § 76.5, that community unit shall carry television broadcast signals only in accordance with the following provisions:

(a) Any such community unit may carry or, on request of the relevant station licensee or permittee, shall carry the signals of:

(1) Television broadcast stations within whose specified zone the community is located, in whole or in part;

(2) Noncommercial educational television broadcast stations within whose Grade B contours the community of the unit is located, in whole or in part;

(3) Commercial television broadcast stations licensed to communities in other smaller television markets, within whose Grade B contours the community of the unit is located, in whole or in part;

(4) Television broadcast stations licensed to other communities which are generally considered to be part of the same smaller television market (Example: Burlington, Vermont-Plattsburgh, New York television market);

(5) Television translator stations with 100 watts or higher power serving the community of the unit and, as to community units that commence operations or expand channel capacity after March 30, 1972, noncommercial educational translator stations with 5 watts or higher power serving the community of the unit. In addition, any community unit may elect to carry the signal of any noncommercial educational translator station;

(6) Commercial television broadcast stations that are significantly viewed in the community of the unit. See § 76.54.

(b) In addition to the television broadcast signals carried pursuant to paragraph (a) of this section, any such community unit constituting all or part of a system having fewer than 1000 subscribers may carry any additional television signals. Any such community unit constituting all or part of a system having 1000 or more subscribers may carry sufficient additional signals so that, including the signals required to be carried pursuant to paragraph (a) of this section, it can provide the signals of a full network station of each of the major national television networks, and of one independent television station: *Provided,*

however, That, in determining how many additional signals may be carried, any authorized but not operating television broadcast station that, if operational would be required to be carried pursuant to paragraph (a)(1) of this section, shall be considered to be operational for a period terminating 18 months after grant of its initial construction permit. #

(c) In addition to the noncommercial educational television broadcast signals carried pursuant to paragraph (a) of this section, any such community unit may carry the signals of any noncommercial educational stations that are operated by an agency of the state within which the community unit is located. Such community unit may also carry any other noncommercial educational signals, in the absence of objection filed pursuant to § 76.7 by any local noncommercial educational station or state or local educational television authority.

(d) In addition to the television broadcast signals carried pursuant to paragraphs (a) through (c) of this section, any such community unit may carry:

(1) Any specialty station and any station while it is broadcasting a foreign language, religious or automated program. Carriage of such selected programs shall be only for the duration of the programs and shall not require prior registration with the Commission.

(2) Any television station broadcasting a network program that will not be carried by a station normally carried on the community unit. Carriage of such additional stations shall be only for the duration of the network programs not otherwise available, and shall not require prior registration with the Commission.

(3) Any television broadcast station during the period from sign-off of the last television broadcast station which the community unit must carry pursuant to § 76.59(a), or from 12:00 a.m. in the Central and Mountain Time Zones and 1:00 a.m. in the Eastern and Pacific Time Zones, whichever occurs first, to the sign-on of the first station which the community unit must carry pursuant to § 76.59(a): *Provided, however:* That a community unit may carry a program to its completion; *And provided further:* That this subsection does not authorize carriage in the manner described above whenever a television broadcast station that the community unit must carry pursuant to § 76.59(a) broadcasts continuously and does not sign off during the hours from 12:00 a.m. to 6:00 a.m. Carriage of such additional television signals shall not require prior registration with the Commission and shall be consistent with the network nonduplication protection and syndicated exclusivity rules of Subpart F of this part.

(4) Any television station broadcasting a network news program at any time when no station regularly carried is broadcasting the same program and when no station licensed to the market in which the community unit is located is broadcasting a local news program. Carriage of such additional stations shall be for the duration of the news program only and shall not require prior Commission notification or registration with the Commission.

(5) Any commercial UHF television station within whose Grade B contours the community of the system is located, in whole or in part. #

(e) Where the community is wholly or partially within both one of the first fifty major television markets and a smaller television market, the carriage provisions for the first fifty major markets shall apply. Where the community is wholly or partially within both one of the second fifty major television markets and a smaller television market, the carriage provisions for the second fifty major markets shall apply.

§ 76.61 Provisions for first fifty major television markets.

Where a system serves a community that is located in whole or in part within one of the first fifty major television markets listed in § 76.51(a) the community unit shall carry television broadcast signals only in accordance with the following provisions:

(a) Any such community unit may carry, or on request of the relevant station licensee or permittee, shall carry the signals of:

(1) Television broadcast stations within whose specified zone the community is located, in whole or in part: *Provided, however:* That where a community unit is located in the designated community of a major television market, it shall not carry the signal of a television station licensed to a designated community in another major television market, unless the designated community in which the community unit is located is wholly within the specified zone (see § 76.5(f)) of the station, except as otherwise provided in this section;

(2) Noncommercial educational television broadcast stations within whose Grade B contours the community is located, in whole or in part;

(3) Television translator stations with 100 watts or higher power serving the community and, as to community units that commence operations or expand channel capacity after March 30, 1972, noncommercial educational translator stations with 5 watts or higher power serving the community. In addition, any community unit may elect to carry the signal of any noncommercial educational translator station;

(4) Television broadcast stations licensed to other designated communities of the same major television market (Example: Cincinnati, Ohio-Newport, Kentucky television market);

(5) Commercial television broadcast stations that are significantly viewed in the community. See § 76.54. # #

(b) In addition to the television broadcast signals carried pursuant to paragraph (a) of this section, any such community unit constituting all or part of a system having fewer than 1000 subscribers may carry any additional television signals. Any such community unit constituting all or part of a system having 1000 or more subscribers may carry sufficient additional signals

so that, including the signals required to be carried pursuant to paragraph (a) of this section, it can provide the signals of a full network station of each of the major national television networks, and of three independent television stations: *Provided, however,* That in determining how many additional signals may be carried, any authorized but not operating television broadcast station that, if operational, would be required to be carried pursuant to paragraph (a) (1) of this section, shall be considered to be operational for a period terminating 18 months after grant of its initial construction permit.

(1) Whenever, pursuant to this section a community unit is permitted to carry three additional independent signals, one of these signals must be that of a UHF television broadcast station.

(2) Whenever, pursuant to Subpart F of this part a community unit is required to delete a television program on an independent signal carried pursuant to this section, or a program on such a signal is primarily of local interest to the distant community (e.g., a local news or public affairs program), such community unit may, consistent with the program exclusivity rules of Subpart F of this part, substitute a program from any other television broadcast station. A program substituted may be carried to its completion, and the community unit need not return to its regularly carried signal until it can do so without interrupting a program already in progress. # #

(c) After the service standards specified in paragraph (b) of this section have been satisfied, a community unit may carry two additional independent television broadcast signals: *Provided, however,* That the number of additional signals permitted under this paragraph shall be reduced by the number of signals added to the community unit pursuant to paragraph (b) of this section.

(d) In addition to the noncommercial educational television broadcast signals carried pursuant to paragraph (a) of this section, any such community unit may carry the signals of any noncommercial educational stations that are operated by an agency of the State within which the community unit is located. Such community unit may also carry any other noncommercial educational signals, in the absence of objection filed pursuant to § 76.7 by any local noncommercial educational station or State or local educational television authority.

(e) In addition to the television broadcast signals carried pursuant to paragraphs (a) through (d) of this section, any such community unit may carry:

(1) Any specialty station and any station while it is broadcasting a foreign language, religious or automated program. Carriage of such selected programs shall be only for the duration of the programs and shall not require prior registration with the Commission.

(2) Any television station broadcasting a network program that will not be carried by a station normally carried on the community unit. Carriage of such additional stations shall be only for the duration of the network programs not otherwise available, and shall not require prior registration with the Commission.

(3) Any television broadcast station, during the period from sign-off of the last television broadcast station which the community unit must carry pursuant to § 76.61(a), or from 12:00 a.m. in the Central and Mountain Time Zones and 1:00 a.m. in the Eastern and Pacific Time Zones, whichever occurs first, to the sign-on of the first station which the community unit must carry pursuant to § 76.61(a); *Provided, however:* That a community unit may carry a program to its completion; *And provided further:* That this subsection does not authorize carriage in the manner described above whenever a television broadcast station that the community unit must carry pursuant to § 76.61(a) broadcasts continuously and does not sign off during the hours from 12:00 a.m. to 6:00 a.m. Carriage of such additional television signals shall not require prior registration with the Commission and shall be consistent with the network nonduplication protection and syndicated exclusivity rules of Subpart F of this part.

(4) Any television station broadcasting a network news program at any time when no station regularly carried is broadcasting the same program and when no station licensed to the

market in which the community unit is located is broadcasting a local news program. Carriage of such additional stations shall be for the duration of the news program only and shall not require prior Commission notification or registration with the Commission.

(5) Any commercial UHF television station within whose Grade B contours the community of the system is located, in whole or in part. #

(f) Where the community is wholly or partially within both one of the first fifty major television markets and another television market, the provisions of this section shall apply.

§ 76.63 Provisions for second fifty major television markets.

(a) Where a system serves a community that is located in whole or in part within one of the second fifty major television markets listed in § 76.51(b), that community unit shall carry television broadcast signals only in accordance with the provisions of § 76.61, except that in paragraph (b) of § 76.61, the number of additional independent television signals that may be carried by community units constituting all or part of a system having 500 or more subscribers is two (2).

(b) Where the community is wholly or partially within both one of the second fifty major television markets and one of the first fifty major television markets, the carriage provisions for the first fifty major markets shall apply. Where the community is wholly or partially within both one of the second fifty major television markets and a smaller television market, the provisions of this section shall apply. #

§ 76.64 Carriage of subscription television broadcast programs.

The provisions of § 76.57, 76.59, 76.61, and 76.63 shall not operate to require carriage of any subscription television broadcast program.

§ 76.65 Grandfathering provisions.

(a) The provisions of §§ 76.57, 76.59, 76.61, and 76.63 shall not require the deletion of any television broadcast or translator signals which a community unit was authorized to carry or was lawfully carrying prior to March 31, 1972: *Provided, however,* That if carriage of a signal has been limited by Commission order to discrete areas of a community, any expansion of service will be subject to the appropriate provisions of this subpart. If a community unit is authorized to carry signals, either by virtue of specific Commission authorization or otherwise, any other community unit already operating or subsequently commencing operations in the same community may carry the same signals. (Any such new community unit shall, before instituting service, register with the Commission if otherwise required by § 76.12.)

(b) The provisions of §§ 76.57, 76.59, 76.61 and 76.63 shall not require the deletion of any television broadcast or translator signals which a system community unit having fewer than 50 subscribers but constituting all or part of a system having 1000 or more subscribers was carrying prior to May 16, 1977, until the community unit has 50 subscribers.

(c) When, for purposes of ascertaining cable signal carriage rights or broadcast station rights to cable system carriage, reference is made to Grade B contours in Sections 76.57, 76.59, 76.61, or 76.63, such contours shall be the field intensity contours defined in § 73.683 (a) of this chapter, provided, however, that such rights as to signals carried or authorized for carriage on or before August 26, 1977, shall be determined by reference to the contour prediction rules adopted in the *Sixth Report and Order in Dockets 8736, 8975, 8976 and 9175, 41 FCC 148 (1952) as amended by Report and Order in Docket 17253 FCC 70-345, 22 FCC 2d 354 (1970).* #

§ 76.67 Sports broadcasts.

(a) No community unit located in whole or in part within the specified zone of a television broadcast station licensed to a community in which a sports event is taking place, shall, on request of the holder of the broadcast rights to that event, and Station Coverage Atlas

or its agent, carry the live television broadcast of that event if the event is not available live on a television broadcast signal carried by the community unit pursuant to the mandatory signal carriage rules of this Part. For the purposes of this Section, if there is no television station licensed to the community in which the sports event is taking place, the applicable specified zone shall be that of the television station licensed to the community with which the sports event or local team is identified, or, if the event or local team is not identified with any particular community, the nearest community to which a television station is licensed.

(b) Notification of the programming to be deleted pursuant to this section shall include the following information:

(1) As to programming to be deleted from television broadcast signals regularly carried by the community unit:

(i) The name and address of the party requesting the program deletion;

(ii) The date, time and expected duration of the sports event the television broadcast of which is to be deleted;

(iii) The call letters of the television broadcast station(s) from which the deletion is to be made.

(2) As to programming to be deleted from television broadcast signals not regularly carried by the community unit:

(i) The name and address of the party requesting the program deletion;

(ii) The date, time and expected duration of the sports event the television broadcast of which is to be deleted.

(c) Notifications given pursuant to this section must be received, as to regularly scheduled events, no later than the Monday preceding the calendar week (Sunday-Saturday) during which the program deletion is to be made. Notifications as to events not regularly scheduled and revisions of notices previously submitted, must be received within twenty-four (24) hours after the time of the telecast to be deleted is known, but in any event no later than twenty-four (24) hours from the time the subject telecast is to take place.

(d) Whenever, pursuant to this section, a community unit is required to delete a television program on a signal regularly carried by the community unit, such community unit may, consistent with the rules contained in Subpart F of this part, substitute a program from any other television broadcast station. A program substituted may be carried to its completion, and the community unit need not return to its regularly carried signal until it can do so without interrupting a program already in progress.

(e) The provisions of this section shall not require the deletion of any portion of a television signal which a community unit was lawfully carrying prior to March 31, 1972.

(f) The provisions of this section shall not apply to any cable television system having fewer than 1000 subscribers.

(a) Any community unit which operates in a community that is located in whole or in part within the 35-mile specified zone of any commercial television broadcast station or within the secondary zone which extends 20 miles beyond the specified zone of a smaller market television broadcast station (55 miles altogether), and carries the signal of such station, that community unit shall, except as provided in paragraphs (e) and (f) of this section, delete, upon request of the station licensee or permittee, the duplicating network programming of lower priority signals in the manner and to the extent specified in §§ 76.94 and 76.95.

(b) For purposes of this section, the order of nonduplication priority of television signals carried by a community unit is as follows:

(1) First, all television broadcast stations within whose specified zone the community is located, in whole or in part;

(2) Second, all smaller market television broadcast stations within whose secondary zone the community is located, in whole or in part.

(c) For purposes of this section, all noncommercial educational television broadcast stations licensed to a community located in whole or in part within a major television market as specified in § 76.51 shall be treated in the same manner as a major market commercial television broadcast station, and all noncommercial educational television broadcast stations not licensed to a community located in whole or in part within a major television market shall be treated in the same manner as a smaller market television broadcast station.

(d) Any community unit operating in a community to which a 100-watt or higher power translator station is licensed, and the translator is located within the predicted Grade B signal contour of the television broadcast station that the translator station retransmits, and the translator is carried by that community unit, the community unit shall, upon request of such translator station licensee or permittee, delete the duplicating network programming of any television broadcast station whose reference point (See § 76.53) is more than 55 miles from the community.

(e) Any community unit operating in a community that is located in whole or in part within the specified zone of any television broadcast station or within the secondary zone of a smaller market television broadcast station, that community unit is not required to delete the duplicating network programming of any 100-watt or higher power television translator station which is licensed to the community.

(f) Any community unit operating in a community that is located in whole or in part within the secondary zone of a smaller market television broadcast station, that community unit is not required to delete the duplicating network programming of any major market television broadcast station whose reference point (See § 76.53) is also within 55 miles of the community.

(g) A community unit is not required to delete the duplicating network programming of any television broadcast station which is significantly viewed in the cable television community pursuant to Section 76.54.

§ 76.93 [Reserved]

§ 76.94 Notification requirements and extent of protection.

(a) Where the network programming of a television station is entitled to nonduplication protection, a community unit

shall, upon request of the station licensee or permittee, refrain from simultaneously duplicating any network program broadcast by such station only if the community unit has received the information required in paragraph (a)(1) and (2) below:

(1) Notification of the date and time of the programming to be protected and date and time of the programming to be deleted must, at a minimum, be received on a monthly basis. If the station licensee or permittee elects to provide such notification on a monthly basis, it must be submitted no later than six (6) days preceding the calendar month during which nonduplication is requested. If the station licensee or permittee elects to provide such notification on a weekly basis, notice shall be given no later than the Monday preceding the calendar week (Sunday-Saturday) during which nonduplication protection is sought.

(2) Changes in the monthly notification request required by paragraph (a)(1) must be submitted six (6) days preceding the broadcast of the programming to be protected; *Provided, however*, That the licensee or permittee of the television station otherwise entitled to nonduplication protection must notify the affected community unit as soon as possible, and without regard to the time limits prescribed in paragraph (a)(1), of any programming change which would render unnecessary the deletion of a lower priority television broadcast signal.

(b) Where a community unit is required to provide same-day network program nonduplication protection, either pursuant to specific Commission order or pending Commission action on a broadcast station petition for special relief filed pursuant to the procedures described in paragraph 25 of the *Second Report and Order in Docket 19995*, FCC 75-820, 34 FCC 2d 229 (1975), the following provisions shall be applicable:

(1) A community unit need not delete reception of a network program if, in so doing, it would leave available for reception by subscribers, at any time, less than the programs of two networks (including those broadcast by any stations whose signals are being carried and whose programming is being protected pursuant to the requirements of this section);

(2) A community unit need not delete reception of a network program which is scheduled by the network between the hours of 6 and 11 p.m., Eastern time, but is broadcast by the station requesting deletion, in whole or in part, outside of the period which would normally be considered prime time for network programming in the time zone involved.

§ 76.95 Exceptions.

(a) Notwithstanding the requirements of §§ 76.92 and 76.94, a community unit need not delete reception of any program which would be carried on the community unit in color but will be broadcast in black and white by the station requesting deletion.

(b) The provisions of §§ 76.92 and 76.94 shall not apply to a cable television system having fewer than 1,000 subscribers. Within 60 days following the provision of service to 1,000 subscribers, the operator of each such system shall file a notice to that effect with the Commission and shall send a copy thereof to all television broadcast and translator stations carried by the system.

(c) Network nonduplication protection need not be extended to a higher priority station for one hour following the scheduled time of completion of the broadcast of a live sports event by that station or by a lower priority station against which a community unit would otherwise be required to provide nonduplication protection following the scheduled time of completion.

(d) The Commission will give full effect to private agreements between operators of community units and local television stations which provide for a type or degree of network program nonduplication protection which differs from the requirements of §§ 76.92 and 76.94. A copy of any such private agreement entered into after August 22, 1975, shall be filed with the Commission and a copy shall also be placed in the public inspection file (see § 76.305) and retained in such file for as long as the contract remains in force.

APPENDIX F

I. Local County Analysis Illustration For WKBD

A. DMA Analysis

Nielsen groups counties into Designated Market Areas (or “DMAs”).¹ Each DMA consists of a group of counties forming an exclusive geographic area in which Nielsen has determined that the home market television stations hold a dominance of viewing. Although a few counties are split between DMAs, as a rule each county is assigned to one and only one DMA.

Attachment 1 is a page with the Detroit market (among others) from Nielsen’s September 2001 “U.S. TV Household Estimates” (“the DMA book”), which shows all DMAs and the counties associated with each. This page provides a good example of how DMAs are used to identify local cable system carriage for station WKBD, channel 50, licensed to Detroit. WKBD is a sample station for all four special Nielsen studies. Again, the objective in determining the counties where a station is local is to enable Nielsen to exclude cable viewing from those counties, with the result that only distant viewing for WKBD will be captured.

The Detroit DMA market consists of nine Michigan counties:

Lapeer	Sanilac
Livingston	St. Clair
Macomb	Washtenaw
Monroe	Wayne
Oakland	

Because WKBD is licensed to Detroit, a cable system serving communities in any of these nine counties must carry WKBD to its subscribers as a local signal. MPAA advised Nielsen to exclude cable viewing from homes located in these nine counties when measuring WKBD’s distant viewing.

B. Significantly Viewed Analysis

Besides the DMA criterion, stations are considered local in counties and/or communities in which the FCC has deemed the station is “significantly viewed (“SV”), meaning the station reaches certain FCC-defined viewing thresholds within the county or

¹ The definition of “local service area” in Section 111(f) and 47 C.F.R. § 76.55(e)(2) defines a station’s market as its Nielsen DMA.

community. Because a cable system serving County X must carry stations that are significantly viewed in County X (or Community X), such carriage is considered local.

Attachment 2 lists selected counties in Michigan and Ohio and the TV stations significantly viewed in each as reported on the FCC's website:
<http://www.fcc.gov/mb/significantviewedstations022509.pdf>.

In the case of WKBD, four counties outside the DMA are considered SV:

Genesee, MI Lucas, OH

Lenawee, MI Wood, OH

If a cable system serves communities located in these SV counties, that system must carry WKBD as a local signal and consequently, those SV counties were excluded from the Nielsen analysis of WKBD's distant viewing.

II. Other Criteria For Determining Whether a Station Is Local

Besides the DMA and SV criteria, which identify the vast majority of local counties, MPAA also examines other criteria to see if there are any additional counties that would be considered local. These criteria include the station's 35-Mile Specified Zone and the Grade B Contour.

A. 35-Mile Specified Zone

For all television markets, Major and Smaller, a cable system's carriage of a TV station to subscribers located inside the station's 35 mile specified zone means the station is local to those subscribers.

A copy of the 35-Mile Specified Zone for Detroit is shown as Attachment 3. FCC rules require a cable system serving communities located within that specified zone to carry WKBD as a local signal. Review of the zone indicated that the counties within the specified zone had already been classified as local due to the SV/DMA criteria.

B. The Grade B Contour

Another criterion, in some situations, is the Grade B contour. The contour is an irregular and oddly-shaped circle surrounding the TV station's transmitter site. The Grade B is a measure of estimated signal strength based on the station's antenna size, power, and direction. The Grade B, in other words, is a measure of how clear a picture can be expected to be on a person's television set.

The Grade B contour can be used as a criterion in two circumstances relevant to the local county analysis MPAA performed for 2000-2003. The first circumstance has to do with stations licensed to Smaller Markets. If a cable system serves communities located in a Smaller Market, (*i.e.*, located within the 35-mile zone of such a market), the system can carry as local any station from another Smaller Market whose Grade B encompasses the communities served by the system. The second circumstance relates to systems serving communities located outside all television markets. In the case of a system serving such an area, the system may carry as local all stations whose Grade Bs encompass the communities served by the cable system. In both circumstances if the station is local per the Grade B criterion, the Form 3 cable operator does not have to account for the station in its royalty calculation.

Attachment 4 is the Grade B contour of WKBD taken from the FCC's website. Cable systems serving communities that fall "outside all (television) markets" must carry as a local signal any station whose Grade B encompasses the communities of the system. To identify any such counties, I looked to see if there were any *additional* counties within WKBD's Grade B contour that were outside all markets and not already classified local by a previous standard. That review indicated that the counties within the Grade B contour had either already been classified as local due to the SV/DMA criteria or were not outside all markets.

Once I identified all the local counties for WKBD, I provided those counties to Nielsen so that Nielsen could exclude viewing from them when measuring WKBD's distant viewing. WKBD's local counties were the nine counties in the Detroit DMA, plus the four SV counties, for a total of 13 counties in which WKBD was a local signal.

III. County Analysis For "Partially-Local" Stations

As previously stated, for the most part, Nielsen organizes its viewing data on a county-by-county basis, so for purposes of MPAA's special studies, it is necessary to declare an entire county either distant or local. In the course of our analyses, we may find that an entire county is neither wholly distant nor wholly local. An example would be a county that is neither SV nor DMA for a station, but which falls partially within the 35-mile zone of the station's market. Another example might be a county located outside all television markets and partially covered by a station's Grade B. In these few cases, MPAA relies on the location of a majority of the county's population to designate the county as local or distant. Because the entire county must be classified as either local or distant for purposes of the Nielsen Studies, it is reasonable to assume that viewing will track with population. For example, are more people (*i.e.*, viewers) located *inside* the 35-mile zone (or Grade B) or outside? If, in our example, most of the population is within the station's Grade B contour, we consider the county local. We rely on maps, census data and so forth and compare the location of individual communities in relation to the Grade B (or 35-mile zone).

Rebuttal Testimony of

Marsha E. Kessler

May 15, 2013

REBUTTAL TESTIMONY OF MARSHA E. KESSLER

My name is Marsha E. Kessler. Prior to my retirement in August 2010, I served as Vice-President, Retransmission Royalty Distribution, at Motion Picture Association of America ("MPAA"), a position I held, under various titles, for about 28 years. You may find details of my background and experience in my direct testimony in this proceeding, which was submitted to the Copyright Royalty Judges ("Judges") on May 30, 2012.

I. PURPOSE OF TESTIMONY

The purpose of my rebuttal testimony is two-fold. First, I describe the Phase I programming categories that the Phase I Parties have relied on since the early days of the Copyright Royalty Tribunal ("CRT"), and which I applied consistently throughout my tenure at MPAA in order to determine the correct categorization of programming for MPAA's special Nielsen Studies commissioned in connection with Phase I royalty proceedings since the early 1980s. These Phase I categories are mutually exclusive, and they have formed the basis for the distribution of hundreds of millions of dollars of Section 111 royalties over the course of the last thirty years.

Second, I explain the results of an investigation Jane Saunders of MPAA and I conducted from March to May, 2013, in which we contacted certain MPAA-represented entities whose names also appeared in Exhibit IPG-1 to the Written

Direct Testimony of Raul C. Galaz, which was filed on May 30, 2012 and later amended on August 20, 2012. As explained later in my testimony, the MPAA-represented claimants we contacted uniformly reported that they had either (1) terminated their representation agreements with IPG many years ago, or (2) understood that such agreements had long-since expired pursuant to their own terms. All of the MPAA-represented claimants we contacted confirmed that MPAA is their designated Phase II representative in this proceeding for some or all of the 2000 to 2003 cable royalty years.

II. THE PHASE I CATEGORIES

Since the first cable royalty distribution proceeding covering the 1978 royalty year, the CRT, and then later the Copyright Arbitration Royalty Panels ("CARP"), divided their royalty distribution cases into Phase I and Phase II proceedings. In Phase I, the CRT or the CARP allocated the entire royalty fund among broadly defined Phase I program categories. In Phase II, to the extent necessary, the CRT or the CARP resolved disputes among different claimants or groups of claimants within a single Phase I category as to the internal division of the category's Phase I allocation.

The Phase I categories themselves developed over the course of the first few years of CRT proceedings. In response to requests by various parties for rulings on close or disputed questions about which category should be treated as encompassing particular programs, the CRT refined the category definitions

through declaratory rulings and rulings published as a part of its final determinations. *See, e.g.*, 1984 Cable Royalty Distribution Proceeding, 52 Fed. Reg. 8408, 8416 (Mar. 17, 1987); Advisory Opinion, Docket No. CRT 85-4 84 CD (May 16, 1986).

Attached to my testimony as Addendum A is a copy of the May 16, 1986 CRT Advisory Opinion cited above. I am aware of this CRT Advisory Opinion not only because I was tasked with applying the Phase I categories as a routine part of my job while I was working at MPAA, but also because IPG introduced the document as a cross-examination exhibit during the 1997 Cable Phase II Proceeding as IPG Exhibit 12x. I testified during the 1997 Cable Phase II Proceeding as a witness for MPAA, and was cross-examined by IPG's counsel during the hearing concerning IPG Exhibit 12x. Based on this experience, I can say with confidence that IPG was well aware of the contents of the CRT Advisory Opinion long before the Judges commenced this current Phase II proceeding.

The eight Phase I categories that were established during the CRT period are attached to my testimony as Addendum B. These categories are mutually-exclusive and they are intended to cover all non-network television programming (plus the music that is performed during those programs) on stations retransmitted as distant signals by U.S. cable systems. During my tenure at MPAA, I advised both Nielsen and Tribune Media Services regarding the process of assigning individual television programs to one (and only one) of the designated categories.

MPAA's Nielsen Studies have long been an important piece of evidence underlying the CRT, CARP, and the Judges' Phase I distribution orders, having been introduced in every litigated Phase I distribution proceeding since the early 1980s. I am also aware that virtually every participant in a Phase I proceeding has relied on these program categories for (1) presentation of evidence, and (2) partial and final distribution of royalties.

III. MPAA-REPRESENTED CLAIMANTS APPEARING IN EXHIBIT IPG-1

At MPAA's request, I reviewed Mr. Galaz's written direct testimony in this proceeding. During my review, I discovered that certain entities listed on Exhibit IPG-1 as "IPG-represented Claimants" in the Program Suppliers category are actually MPAA-represented Program Suppliers for some or all of the 2000 through 2003 royalty years. Some of these "overlapping" claimants were dismissed from IPG's case by the Judges in their March 21, 2013 Memorandum Opinion and Order Following Preliminary Hearing On Validity Of Claims.¹

Starting in March 2013, Jane Saunders of MPAA and I began contacting the remaining overlapping claimants to ask them to clarify whether IPG or MPAA is their authorized Phase II representative for purposes of this proceeding. Between January and May 2013, we had telephone calls with authorized representatives of the following entities, all of whom appear on Exhibit IPG-1:

¹ The overlapping claimants that were dismissed pursuant to the March 21 Order are the twelve entities identified in that Order as represented by Fintage Publishing and Collection, B.V., as well as O. Atlas Enterprises, Sandra Carter Productions, Scholastic Entertainment, Inc., and Ward Productions.

BBC Worldwide

DreamWorks LLC

Litton Syndications, Inc.

Marty Stouffer Productions, Ltd.

Martha Stewart Living Omnimedia

Reel Funds International

Remodeling Today d/b/a Today's Homeowner

Television Syndication Company (TVS)

United States Olympic Committee

Urban Latino TV LLC (cka American Latino)

Venevision International

During my telephone conversations with authorized representatives of these entities, I learned that the majority of them had previously terminated their representation agreements with IPG. Following these telephone calls, authorized representatives for nine of the eleven entities listed above took it upon themselves to make filings with the Copyright Royalty Board notifying the Judges that they had previously terminated their relationships with IPG and confirming that MPAA, and not IPG, is their authorized Phase II representative for some or all of the 2000-2003 cable royalty years. Some of these filings were accompanied by copies of correspondence with IPG that I understand was never produced to

MPAA in discovery in this proceeding. Certified copies of these filings are attached to my testimony as Addendum C.

The two remaining entities listed above that are not covered by the filings in Addendum C are the United States Olympic Committee ("USOC") and Martha Stewart Living Omnimedia ("MSLO"). I discuss each of these overlapping claimants below.

USOC informed me that they terminated their representation agreement with IPG on January 22, 2003. Attached hereto as Addendum D is a copy of the USOC termination letter which I received directly from USOC. I understand that IPG never produced a copy of the USOC termination letter to MPAA in discovery in this proceeding.

MSLO reviewed its records and informed me that its representation agreement with IPG is limited to the 2000 royalty year and does not apply to any later royalty years. Starting with royalty year 2001, MSLO confirmed that MPAA is its authorized Phase II representative.

IV. ADDITIONAL TERMINATION CORRESPONDENCE

In the course of my conversations with the overlapping claimants discussed above, one other Exhibit IPG-1 entity who previously notified the Judges that it had terminated its relationship with IPG was brought to my attention. On June 7, 2007, Farm Journal Electronic Media notified the Judges that IPG was not authorized to assert claims on its behalf for the 2001, 2002, and

2003 royalty years. A certified copy of this correspondence is attached to my testimony as Addendum E.

Thank you for the opportunity to present the information in this testimony. I hope it will be helpful in the Judges' deliberations.

DECLARATION OF MARSHA E KESSLER

I declare under penalty of perjury that the foregoing rebuttal testimony is true and correct, and of my personal knowledge.

Executed on May 15, 2013

Docket No. CRT 85-4 84CD

ADVISORY OPINION

On April 18, 1986, the Program Suppliers moved for declaratory rulings regarding program categorization in their 1984 Nielsen Special Study of distant viewing. The Program Suppliers asked: (a) Whether programs produced or originated uniquely for a single group of commonly-owned stations and not licensed to or broadcast by any other station should be included in the "Local" category; (b) whether the "Other" category should continue to include all telethons, coverage of political events, and parades, as well as "filler," "rain delay," "to be announced," and foreign language programs on non-specialty stations; (c) should the Tribunal determine telethons, coverage of political events, and parades are not to be included in "Other," what criteria are to be used to classify these programs, as they are rarely, if ever, listed in the BIB Book, ROSP, or SPA; and (d) whether individual programs on foreign-language specialty stations are to be classified separately. The Program Suppliers also listed their definitional instructions to Nielsen in the appendix to their motion.

The Tribunal received comments from the Joint Sports Claimants, NAB, Multimedia, and reply comments from the Program Suppliers. In addition to commenting, NAB proposed that the Tribunal institute a general rulemaking to define all program types used by the Tribunal in Phase I proceedings.

The Tribunal considers that it is sufficient at this time to issue an advisory opinion in areas where it believes have been of most concern to all parties. It is the Tribunal's opinion that:

- a) "Local programs" are programs licensed to/produced by and broadcast by a single broadcast station during the calendar year in question, and not broadcast by any other station.
(To the extent a syndicator of a program is considered in the "local" category because he/she was able to syndicate to only one station in the calendar year, he/she would be entitled to a settlement or a Phase II proceeding in the local category.)

- b) "Syndicated series and specials" are programs licensed to/produced by and broadcast by two or more broadcast stations during the calendar year in question. (The extent to which stations are commonly-owned or controlled and whether that should diminish the amount of the award are factual questions to be argued in the proceeding.)
- c) Programs characterized by some parties in past proceedings as "minor sports" such as wrestling, high school athletics, coaches shows, etc., come under either the "Local" or "Syndicated Series and Specials" category.
- d) Programs which have been placed in the "Other" category and/or "Specialty Station" category are more properly defined as "Local," "Syndicated Series and Specials," or "Devotional." These include telethons, parades, political events, foreign-language programs, and devotional programs on specialty stations.

Additionally, the Tribunal notes that the description of Devotional Programs listed in the Program Suppliers definitional instruction are at some variance with Tribunal utilization of this category.

- e) "Devotional Programs" are programs of a primarily religious theme. They are not limited to those programs produced for/by religious institutions. The Tribunal notes that several programs produced by local stations and represented by NAB received a settlement from the Devotional Claimants in the 1983 proceeding.

Chairman

Dated: May 16, 1986

KESSLER REBUTTAL TESTIMONY
ADDENDUM B

Phase I Claimant Category Definitions

"Program Suppliers." Syndicated series, specials and movies, other than Devotional Claimants programs as defined below.

Syndicated series and specials are defined as including (1) programs licensed to and broadcast by at least one U.S. commercial television station during the calendar year in question, (2) programs produced by or for a broadcast station that are broadcast by two or more U.S. television stations during the calendar year in question, and (3) programs produced by or for a U.S. commercial television station that are comprised predominantly of syndicated elements, such as music video shows, cartoon shows, "PM Magazine," and locally hosted movie shows.

"Joint Sports Claimants." Live telecasts of professional and college team sports broadcast by U.S. and Canadian television stations, except for programs coming within the Canadian Claimants category as defined below.

"Commercial Television Claimants." Programs produced by or for a U.S. commercial television station and broadcast only by that one station during the calendar year in question and not coming within the exception described in subpart (3) of the "Program Suppliers" definition.

"Public Television Claimants." All programs broadcast on U.S. noncommercial educational television stations.

"Devotional Claimants." Syndicated programs of a primarily religious theme, not limited to those produced by or for religious institutions.

"Canadian Claimants." All programs broadcast on Canadian television stations, except (1) live telecasts of Major League Baseball, National Hockey League, and U.S. college team sports, and (2) other programs owned by U. S. copyright owners.

"National Public Radio." Public radio broadcast programming.

"Music Claimants." Musical works performed during the course of programs that are themselves separately represented as parts of the preceding categories.

**Docket No. 2008-2 CRB CD 2000-2003
(Phase II)**

JOINT NOTICE CONCERNING REPRESENTATION

Urban Latino TV, LLC ("Urban Latino"); Remodeling Today, Inc. d/b/a Today's Homeowner ("Today's Homeowner"); and The Television Syndication Company, Inc. ("TVS") (each a "Claimant," and collectively, the "Claimants"), hereby give notice through their counsel that Claimants terminated their respective agreements with Worldwide Subsidy Group and/or Independent Producers Group (together, "IPG") and are no longer represented by IPG. The Claimants further give notice that they have authorized undersigned counsel to represent their interests in cable and satellite statutory license proceedings before the Copyright Royalty Judges ("Judges"). For purposes of the instant 2000-2003 Cable Phase II Proceeding, Claimants have designated the Motion Picture Association of America, Inc. ("MPAA") as their Phase II representative. Contrary to IPG's representation to the Judges in the captioned proceeding, IPG is not authorized to represent Claimants.

I. Claimants Terminated Their Representation Agreements With IPG

On May 28, 2003, Urban Latino sent a letter to IPG via certified mail terminating its representation agreement with IPG, effective immediately. See Letter to Marian Oshita from Robert G. Rose, dated May 28, 2003 (attached hereto as Exhibit A). Urban Latino also

instructed IPG to cease from filing claims on its behalf and to “assign any claims under that [terminated] agreement that were made on behalf of Artist and Idea Management or Urban Latino TV to Hammerman, PLLC.” *See id.* Urban Latino further instructed IPG to notify all copyright collectives that IPG was no longer authorized to continue to, or to claim, to represent Urban Latino. *See id.*

On March 1, 2004, Today’s Homeowner sent a letter to IPG terminating its representation agreement with IPG, effective immediately. *See* Letter to Marian Oshita from Daniel C. Lipford, dated March 1, 2004 (attached hereto as Exhibit B). Today’s Homeowner instructed IPG to cease from filing claims on its behalf and to “assign any claims under that [terminated] agreement that were made on behalf our [sic] programming to Hammerman, PLLC.” *See id.* Today’s Homeowner further instructed IPG to notify all copyright collectives that IPG was no longer authorized to continue to, or to claim, to represent Today’s Homeowner. *See id.*

On April 29, 2004, TVS sent a letter to IPG terminating its representation agreement with IPG, effective immediately. *See* Letter to Marian Oshita from Cassie Yde, dated April 29, 2004 (attached hereto as Exhibit C). TVS instructed IPG to cease filing claims on its behalf and to “assign any claims under any agreements that were made on behalf our [sic] programming to Hammerman, PLLC.” *See id.* TVS further instructed IPG to notify all copyright collectives that IPG was no longer authorized to continue to, or to claim, to represent TVS. *See id.*

II. Claimants Have Not Authorized IPG To Represent Their Interests In This Proceeding.

Notwithstanding the attached termination correspondence, Claimants have learned that IPG listed them as “IPG-represented claimants” in Exhibit IPG-1 to its Written Direct Statement in the instant proceeding. Such listing was not authorized by Claimants, and should not be

considered by the Judges. Claimants hereby request that their names be stricken from Exhibit IPG-1, and that any Section 111 royalties due to Claimants be instead assigned to their authorized Phase II representative, MPAA.

ARTIST & IDEA MANAGEMENT

May 28th, 2003

Via Certified Mail
Marian Oshita
Worldwide Subsidy Group d/b/a Independent Producers Group
9903 Santa Monica Blvd., # 633
Beverly Hills, California 90212

Dear Ms. Oshita:

The purpose of this letter is to terminate any agreements by and between Artist and Idea Management, Ltd. and Urban Latino TV, LLC, owner of the television program, "Urban Latino TV," and Worldwide Subsidy Group and/or Independent Producers Group effective immediately.

Neither Worldwide Subsidy Group d/b/a Independent Producers Group, nor Independent Producers Group d/b/a Worldwide Subsidy Group, nor any other agents, affiliates, or assignees of your organization(s) are authorized to claim to represent, to represent, or to file any more documentation for pending or future claims for my company in any domestic or international matters.

You are hereby instructed to assign any claims under that agreement that were made on behalf of Artist and Idea Management or Urban Latino TV to Hammerman, PLLC. You will be compensated fully for any claims in which you have rendered services under the terms of any valid agreement up through television programming year 2001 for cable and satellite retransmission royalty claims filed at the United States Copyright Office.

Please provide me with a detailed status report, copies of, and an accounting for all claims filed on behalf of Artist and Idea Management or Urban Latino TV domestically and internationally by June 15, 2003. That information and all further communications should be directed to our attorney Edward S. Hammerman, Esq., Intermediary Copyright Royalty Services, a division of Hammerman, PLLC, 5335 Wisconsin Avenue, N.W., Suite 440, Washington, D.C. 20015-2052.

Finally, I would appreciate it if you would notify all copyright collectives with whom you have filed royalty claims that you no longer represent my company. Thank you.

Sincerely,

Robert G. Rose

In the Matter of

**Docket No. 2008-2 CRB CD 2000-2003
(Phase II)**

Litton Syndications, Inc. (hereinafter "LSI"), hereby gives notice through its counsel that LSI terminated its representation agreement with Worldwide Subsidy Group and/or Independent Producers Group (together, "IPG") and is no longer represented by IPG. LSI further gives notice that it has authorized the Motion Picture Association of America, Inc. ("MPAA") to represent its interests in cable and satellite statutory license proceedings before the Copyright Royalty Judges ("Judges"). For purposes of the instant 2000-2003 Cable Phase II Proceeding, LSI has designated MPAA as its Phase II representative. Contrary to IPG's representation to the Judges in the captioned proceeding, IPG is not authorized to represent LSI as to any cable royalty year at issue.

On August 13, 2002, Peter Sniderman of LSI sent IPG a letter terminating its representation agreement with IPG due to “the unethical practices of one of [IPG’s] principals (Raul Galaz).” See Copy Of Letter to Worldwide Subsidy Group from Peter Sniderman, dated August 13, 2002 (attached hereto as Exhibit A). Thereafter, on August 17, 2004, LSI sent IPG a second letter informing IPG that LSI was terminating “all relationships with IPG/WSG,” due to

IPG's material breach of its contract with LSI. *See* Copy of Letter to Marian Oshita from Peter Sniderman, dated August 17, 2004 (attached hereto as Exhibit B). In this letter, LSI informed IPG that "IPG/WSG no longer represents LSI and its programming in any matter and may no longer hold itself out as doing so." *See id.*¹

Years later, starting on May 11, 2012, LSI began receiving unsolicited email correspondence from IPG concerning LSI programming for the years 2000-2003. *See* May 2012 Email correspondence from Denise Vernon to LSI (attached hereto as Exhibit C). On May 18, 2012, Mr. Sniderman informed Ms. Vernon that LSI "long ago terminated [its] agreement with WSG for fraud in the inducement fraudulent behavior, and material breach." Mr. Sniderman further informed Ms. Vernon to "cease and desist" her attempts to collect royalties on behalf of LSI. *See id.*

II. LSI Has Not Authorized IPG To Represent Its Interests In This Proceeding.

As the attached correspondence demonstrates, IPG is not authorized to represent LSI in cable or satellite royalty proceedings before the Judges. LSI recently learned that IPG listed LSI as a "IPG-represented claimant" in Exhibit IPG-1 to its Written Direct Statement in the instant proceeding. Such listing was not authorized by LSI, and should not be considered by the Judges. LSI hereby requests that its name be stricken from Exhibit IPG-1, and that any Section 111 royalties due to LSI be assigned instead to LSI's authorized Phase II representative, MPAA.

¹ Both Exhibit A and Exhibit B are Word copies of Mr. Sniderman's correspondence with IPG, retrieved from LSI's electronic files. Mr. Sniderman can verify that he personally sent both letters to IPG via U.S. mail on the dates indicated on the correspondence.

Respectfully submitted,

EXHIBIT B

August 17, 2004

Marian Oshita
Worldwide Subsidy Group/ IPG
9903 Santa Monica Blvd.
Suite 655
Beverly Hills, CA 90212

Dear Marian:

As you know, the undersigned Litton Syndications, Inc., ("LSI") had previously entered into a Representation Agreement with you ("IPG/WSG") dated as of February 2, 1999, (the "Representation Agreement") which LSI previously terminated for IPG/WSG's breach. Notwithstanding such termination, LSI continued to allow IPG/WSG to pursue a cable/satellite retransmission settlement on LSI's behalf with the MPAA and Copyright Royalty Tribunal in connection with LSI programming for the period of 1998 and 1999.

Our attempts to contact you regarding your progress in this matter have resulted in ignored phone calls and emails. We are now informed you have missed a crucial deadline for filing claims on our behalf and that those claims may now have been lost as a result. Due to this material breach in your duties to LSI and its clients, LSI is hereby terminating all relationships with IPG/WSG, and will now pursue its claims directly with the parties involved. Accordingly, IPG/WSG no longer represents LSI and its programming in any matter and may no longer hold itself out as doing so.

This termination is without waiver of any rights LSI may have on account of your breach, and is not intended to be a complete statement of the facts or LSI's positions on this matter, all of which are expressly reserved.

Very truly yours,

Litton Syndications, Inc.

To: Peter Sniderman
Cc: brianb@ix.netcom.com
Subject: Re: Litton Syndications; final broadcast verification

Mr. Sniderman,

I have had an opportunity to review our file on this matter, and your statements are seriously mistaken. Initially, Litton Syndications has never sent notice of termination to WSG, at least as far as we can discern. A few years ago you asserted that termination had occurred "in 2002" in email correspondence with Raul Galaz, then failed to produce any copy of any notice of termination, despite being expressly requested to do so.

Further, your statement that you terminated the agreement with WSG for "fraud in the inducement, fraudulent behavior, and material breach" is new. Nowhere has there ever been such an allegation made against WSG by Litton Syndications, or any party.

Turning to the agreement between WSG and Litton, it expressly provides that termination may only occur pursuant to the specifications of paragraph 8 of the agreement, which has not occurred. Also, you have previously asserted that termination occurred "in 2002". Presuming that you are referring to a "notice of termination", then pursuant to paragraph 2 of the agreement, any notice provided during 2002 would result in the "Term" concluding no earlier than December 31, 2002, and possibly later. Paragraph 4 of the agreement, in turn, establishes that WSG's rights continue indefinitely for royalties attributable to the Term, and that WSG retains the ability to commission any royalties "applicable to the Term, or prior to the Term, irrespective of when such Distribution Proceeds are payable." Paragraph 3 requires Litton Syndications to cooperate with WSG, including by identifying all of its programming.

In sum, it appears as though each and every time that you communicate with WSG, your recollection of events becomes more exaggerated. If you have a notice of termination, then forward it. If you have evidence of "fraud in the inducement, fraudulent behavior, and material breach", or even anything to suggest that you have previously made such an allegation toward WSG, then forward it. Regardless, even based on your asserted timeline, WSG remains entitled, in a worst case scenario, to collect on royalties attributable through calendar year 2002. It is therefore both an obligation and entitlement of WSG to collect these royalties, and Litton's obligation to cooperate in such collection.

WSG will not forego its rights for services it has professionally rendered. If Litton fails to cooperate, Litton will be held accountable per paragraph 9 of the agreement. If Litton interferes with WSG's collections, it will be held accountable for breach of the agreement, and could further be sued for defamation of title and any other appropriate cause of action. If Litton publicly asserts that WSG engaged in "fraud in the inducement, fraudulent behavior, and material breach", I personally assure you that WSG will bring an action against Litton for defamation.

To be certain, I have no patience for a party riding on the coattails of WSG's work, then making false assertions as a means of avoiding its obligations. I trust this clarifies our position, and our expectation of your immediate cooperation, i.e., today, with the data that WSG has forwarded.

Subject: Litton Syndications; final broadcast verification

Dear Sir/Madam,

As the final step in our process of representing your company's claim to 2000-2003 U.S. cable retransmission royalties, we have identified each broadcast of the programs that you previously informed us were owned or controlled by your company. These broadcasts appear in the attached Excel spreadsheet.

In some instances, multiple programs appear with the same title. Nevertheless, the broadcast information oftentimes provides additional information regarding the identity of the program. Consequently, and in order to preserve the integrity of your claim and the claims of all represented producers, it is imperative that your company confirm that the broadcasts appearing on the attached Excel spreadsheet were owned or controlled by your company. At this point we need you to do two things:

- 1) Immediately forward a reply email confirming your receipt of this email and its attachment. A simple response with the word "Received" will suffice. If we do not receive this reply we will need to continue emailing and calling you until the delivery of the email is confirmed.
- 2) Immediately review the attached list of titles and identify any broadcast of a program that was not owned or controlled by your company. This must be handled in the following manner: in the column immediately next to the program title, headed "Unclaimed Broadcast", place an "x" only if the particular broadcast is of a program for which the free tv rights were not owned or controlled by your company at the time of the broadcast.

We are only a few weeks away from the filing of our direct case with the U.S. Copyright Office. Consequently, it is imperative that your company complete this task immediately. Failure to immediately respond could jeopardize your receipt of royalties, and we need your response no later than Tuesday, May 15, earlier if possible. We realize that this is a short time frame, however your cooperation is necessary as we are analyzing over eleven million broadcasts as part of our presentation.

Finally, allow me to remind you that this email contains highly proprietary information. Do not share this information with any third party, as doing so could potentially harm both your claim and the claims of several hundred other represented claimants.

Thank you for your immediate attention to this matter.

Denise Vernon

MARTY STOUFFER PRODUCTIONS LTD.

April 26, 2013

Copyright Royalty Board
Library Of Congress
James Madison Memorial Building
101 Independence Avenue, SE
Washington, D.C. 20559-6000

RE: Royalty Claims Made By Worldwide Subsidy Group d/b/a Independent Producers
Group ("IPG") in Docket No. 2008-2 CRB CD 2000-2003 (Phase II)

To Whom It May Concern,

Through this letter, Marty Stouffer Productions ("MSP") provides notice to the Copyright Royalty Board ("CRB") that MSP terminated its July 17, 2001 representation agreement with IPG in July of 2002 through a certified letter sent to IPG by MSP's outside counsel at the time, Nick McGrath, Esq. Mr. McGrath is now deceased, and MSP does not have access to his files. As a result, MSP is unable to provide the CRB with a copy of MSP's July 2002 termination letter. Notwithstanding this fact, MSP has been able to locate a copy of email correspondence that we sent to Marsha Kessler of the Motion Picture Association of America, Inc. ("MPAA") on July 16, 2002, which makes reference to the earlier termination correspondence. A copy of this email is attached to this letter for your convenience.

Please consider this letter formal notice from MSP that MSP has terminated its relationship with IPG. As a result, IPG is not authorized to represent MSP in cable or satellite royalty proceedings before the CRB. To the extent that IPG has included MSP on its list of represented claimants in the ongoing 2000-2003 Cable Phase II Proceeding, please be advised that such listing was not authorized by MSP, and should be disregarded. For purposes of the ongoing 2000-2003 Cable Phase II Proceeding, MSP has designated MPAA as its Phase II representative.

Sincerely,

Marty Stouffer, President
Marty Stouffer Productions, Ltd.

NOTICE CONCERNING REPRESENTATION

DreamWorks, LLC, now known as DW Studios LLC, a subsidiary of Paramount Pictures, (hereinafter "DW"), hereby gives notice that DW terminated its representation agreement with Worldwide Subsidy Group and/or Independent Producers Group (together, "IPG") and is no longer represented by IPG. DW further gives notice that it has authorized the Motion Picture Association of America, Inc. ("MPAA") to represent its interests in cable and satellite statutory license proceedings before the Copyright Royalty Judges ("Judges"). For purposes of the instant 2000-2003 Cable Phase II Proceeding, DW has designated MPAA as its Phase II representative. Contrary to IPG's representation to the Judges in the captioned proceeding, IPG is not authorized to represent DW.

I. DW Terminated Its Representation Agreement With IPG.

On July 16, 2002, Margaret E.G. Wilson of DW sent IPG a letter terminating its representation agreement with IPG. *See* Letter to Worldwide Subsidy Group from Margaret E.G. Wilson, dated July 16, 2002 (attached hereto as Exhibit A). This letter notified IPG that "effective immediately" DW would begin collecting all "Distribution Proceeds (as defined in the [terminated] Agreement) on its own behalf, and remit WSG's commission, as applicable, to WSG." *See id.* Despite receipt of DW's termination

5266543.1/43507-00063

A VIACOM COMPANY

Paramount Pictures

5555 Melrose Avenue
Hollywood, CA 90038-3197
323-956-5000

letter, IPG has continued to hold itself out as DW's agent without DW's consent or authorization. *See, e.g.,* Email from Bryan Boydston to Mary Basich, dated October 16, 2009 (attached hereto as Exhibit B); Email from Raul Galaz to Mary Basich and Jean McBride, dated June 12, 2009 (attached hereto as Exhibit C).

II. DW Has Not Authorized IPG To Represent Its Interests In This Proceeding.

IPG is not authorized to represent DW in cable or satellite royalty proceedings before the Judges. DW recently learned that IPG listed DW as a "IPG-represented claimant" in Exhibit IPG-1 to its Written Direct Statement in the instant proceeding. Such listing was not authorized by DW, and should not be considered by the Judges. DW hereby requests that its name be stricken from Exhibit IPG-1, and that any Section 111 royalties due to DW be assigned instead to DW's authorized Phase II representative, MPAA.

Respectfully submitted,

Beverly Hills, California 90212

Dear Marian:

Re: Worldwide Subsidy Group

This will confirm our telephone call today in which DreamWorks terminated the agreement between DreamWorks LLC ("DreamWorks") and Worldwide Subsidy Group ("WSG") dated as of May 12, 1999 (the "Agreement"). The effective date of termination shall be December 31, 2002.

This will also confirm that effective immediately, DreamWorks shall collect Distribution Proceeds (as defined in the Agreement) on its own behalf, and remit WSG's commission, as applicable, to WSG. WSG shall notify any third parties, which are authorized by WSG to collect monies on DreamWorks's behalf, including, without limitation, Finstage, to cease such activity. Of course, if any Distribution Proceeds are received by WSG or any third party acting on WSG's behalf, including without limitation, Finstage, then WSG or such third party shall remit to DreamWorks 100% of such Distribution Proceeds, less WSG's commission on such amount.

Should your understanding differ in any respect, please contact me immediately.

Very truly yours,

Margaret E.C. Wilson

Email from Bryan Boydston to Mary Basich,
dated October 16, 2009

A VIACOM COMPANY

Basich, Mary - Paramount

From: brianb@ix.netcom.com
Sent: Monday, November 02, 2009 10:48 AM
To: Basich, Mary - Paramount
Cc: worldwideSG@aol.com
Subject: RE: Worldwide Subsidy Group

Ms. Basich,

There are several matters that I should clarify.

First, WSG has never purported to be an "agent" of DreamWorks. Rather, DreamWorks "assigned" rights to WSG. Your statement that royalties were "unquestionably" due directly to DreamWorks following termination is inaccurate, and runs directly contrary to the WSG/DreamWorks agreement. Rather, DreamWorks and Paramount unilaterally deemed that it would collect the royalties that were the subject matter of the agreement, without consultation or agreement with WSG. Nonetheless, WSG acceded, but DreamWorks then never accounted for any of the royalties that it received, as it had agreed it would do.

Second, WSG has never once been contacted by Dreamworks or its successors-in-interest and been instructed to cease and desist any activity, nor informed that it has interfered with DreamWorks' receipt of monies. If you can provide any examples of these "repeated" requests, so that we can be assured that this is not mere lawyery puffing, then please provide correspondence establishing the same and my client will investigate. In fact, the only exception to WSG's knowledge of WSG creating conflicting claims with DreamWorks are two instances from a relatively modest source of royalty income, Screenrights, which royalties were ultimately paid over to DreamWorks anyway and then not accounted to WSG.

Finally, WSG is obligated to account upon the receipt of royalties. It has received no royalties relating to the DreamWorks catalogue for the obvious reason that they have been collected by DreamWorks and its successors-in-interest. This has already been communicated to you and your colleagues.

At this time, please explain whether or not it is the intention of DreamWorks and Paramount to make the accounting to WSG to which it was entitled.

Brian Boydston

Email from Raul Galaz to Mary Basich and
Jean McBride, dated June 12, 2009

A VIACOM COMPANY

From: worldwidesg@aol.com [<mailto:worldwidesg@aol.com>]
Sent: Friday, June 12, 2009 7:33 AM
To: Basich, Mary - Paramount; McBride, Jean - Paramount
Cc: brianb@ix.netcom.com
Subject: WSG/DreamWorks accounting; "Galaxy Quest"

Dear Ms. Basich and Ms. McBride,

Almost one year ago a conflicting claim was before Screenrights relating to the works "Galaxy Quest" and "Saving Private Ryan". The dispute, as you may recall, centered around which party, WSG or Paramount (as the successor-in-interest to DreamWorks) was entitled to collect on the royalties generated by Screenrights for such programs, and remit the other party's share to the other.

At such time, Paramount submitted a letter dated July 16, 2002, pursuant to which DreamWorks terminated its agreement with WSG. DreamWorks asserted that the Term of the agreement was "terminated as of December 31, 2002" (inaccurate) and that DreamWorks will prospectively collect all royalties applicable to the agreement and remit them to WSG. A copy of the letter is attached hereto.

In fact, and in connection with such dispute, by email of June 24, 2008, Mary Basich, Executive Vice-President of Business and Legal Affairs for Paramount Pictures, confirmed that an accounting for such monies would be made to WSG for "Galaxy Quest", but asserted that the international rights to "Saving Private Ryan" were not controlled by DreamWorks during the Term of the WSG agreement.

Notwithstanding, no accounting for the "Galaxy Quest" royalties collected by Paramount has occurred. In fact, no accounting for any royalties collected by either DreamWorks or Paramount has occurred following the July 16, 2002 letter. Although it often takes upwards of ten years to collect the types of royalties that were the subject of the WSG/DreamWorks agreement, the fact that there have been no accountings, including the promised accounting for royalties clearly received within the last year, now leads WSG to suspect that no accountings will be forthcoming.

At this time, I would formally request an accounting from Paramount for the Screenrights royalties attributable to "Galaxy Quest", and any other royalties covered by the WSG/DreamWorks agreement. As regards "Saving Private Ryan", I would further request a copy of any distribution agreement between DreamWorks and whichever party Paramount contends was entitled the international rights to such work. If such agreement specifically addresses the collection of any form of royalties covered by the WSG/DreamWorks agreement (e.g., educational institution royalties, retransmission royalties, blank tape levies, etc.), directing our attention to such provisions would be helpful. Any matters relating to participations or other confidential matter can, of course, be redacted.

I look forward to your prompt response. If you have any questions in connection therewith, please feel free to contact me.

Raul Galaz

_____)

Docket No. 2008-2 CRB CD 2000-2003
(Phase II)

**NOTICE REGARDING REPRESENTATION OF BBC WORLDWIDE, VENEVISION
INTERNATIONAL, AND REEL FUNDS INTERNATIONAL**

Fintage Publishing and Collections B.V. (hereinafter "Fintage"), hereby gives notice through its undersigned counsel that Fintage represents BBC Worldwide ("BBC") and Venevision International ("Venevision") as to the 2000, 2001, and 2002, and 2003 cable royalty years.¹ Fintage also hereby gives notice that it represents Reel Funds International ("Reel") as to the 2002 and 2003 cable royalty years. Fintage further gives notice that it has authorized the Motion Picture Association of America, Inc. ("MPAA") to represent its interests in cable and satellite statutory license proceedings before the Copyright Royalty Judges ("Judges"). For purposes of the instant 2000-2003 Cable Phase II Proceeding, Fintage has designated MPAA as its Phase II representative. Worldwide Subsidy Group and/or Independent Producers Group (together, "IPG") is not authorized to represent BBC, Venevision, or Reel as to the royalty years indicated above.

¹ In September 2002, Fintage notified the Copyright Office that it had terminated its relationship with IPG, and provided a list of entities that Fintage represents. The entities identified herein were not referenced in Fintage's September 2002 filing.

I. IPG Is Not Authorized To Represent Fintage Or Its Clients.

In or about August 2000, Fintage and IPG entered into an agreement whereby they agreed to jointly represent certain clients and to share in the secondary royalties collected on such clients' behalf. Thereafter, a dispute arose between Fintage and IPG regarding their respective rights and obligations under their agreement. The parties proceeded to arbitrate the dispute and entered into a settlement agreement, whereby the parties terminated their relationship. Pursuant thereto, IPG agreed that Fintage would exclusively administer and collect all royalties accruing for certain clients and IPG expressly waived and released any alleged rights or interests to make any claim or collect any monies on such clients' behalf. Notably, IPG agreed that Fintage had the exclusive right to administer and collect all royalties on behalf of EGEDA. BBC and Venevision are both EGEDA clients, and thus were expressly acknowledged by IPG as being exclusive clients of Fintage. Accordingly, IPG is not authorized to represent, or to claim to represent, either entity.

At the time of the arbitration proceeding with IPG, Reel was identified as an IPG-represented entity. However, in May 2003, Reel entered into a written representation agreement directly with Fintage to have Fintage administer and collect royalties on behalf of Reel. This agreement covers cable royalty years 2002 and 2003, and supersedes any alleged prior agreement entered into between Reel and IPG. Thus, IPG is not authorized to administer or collect any royalties on behalf of Reel after royalty year 2001.

II. The Judges Should Not Award Royalties To IPG On Behalf Of BBC, Venevision, And Reel As To The Royalty Years Indicated.

As the above demonstrates, IPG is not authorized to represent BBC or Venevision cable or satellite royalty proceedings before the Judges as to any royalty year. IPG is also not authorized to represent Reel as to royalty years 2002 and 2003. To the extent that IPG listed

BBC, Venevision, or Reel as "IPG-represented claimants" in Exhibit IPG-1 to its Written Direct Statement in the instant proceeding, such listing should be disregarded as to the royalty years identified herein. Fintage hereby requests that any Section 111 royalties due to the Fintage-represented clients addressed herein be assigned instead to Fintage's authorized Phase II representative, MPAA.

Dear Ms Giuffreda,

In reference to filing of Cable and/or Satellite Royalty claims on behalf of Farm Journal Electronic Media be it known by this notification that World Wide Subsidy Group d/b/a Independent Producers Group was not granted the authority to file claims on behalf of Farm Journal Electronic Media for the years and file numbers listed below.

2001 Cable #518
2001 Satellite #214
2002 Cable #245
2002 Satellite #625
2003 Cable #269
2003 Satellite #549
2004 Cable #607 or #608
2004 Satellite #311

In the event that World Wide Subsidy Group d/b/a Independent Producers Group has filed a claim for the year 2005, the same notification applies.

Further, Farm Journal Electronic Media has not granted World Wide Subsidy Group d/b/a Independent Producers Group the authority to file claims or in any way represent Farm Journal Electronic Media in matters pertaining to Copyright Royalties in the year 2006 nor in any year going forward. Any questions concerning this matter should be directed to Bob Ford, Director of Distribution, 25 Executive Drive Suite A, Lafayette IN 47905.

Sincerely,

12 of the distribution proceedings commenced
13 under Copyright Royalty Board Docket Number
14 2008-2 in re the distribution of cable royalty
15 funds for the years 2000 through 2003.
16 I think I have met you all. I'm
17 Judge Suzanne Barnett, the proverbial last man
18 standing since we last met. Judge Strasser
19 very happily reclaimed his position as senior
20 counsel to the Copyright Royalty Board. Judge
21 Roberts accepted a position as Senior Counsel
22 to the Register of Copyrights.

1 other programs.
 2 You'll be hearing testimony from
 3 SDC witness Dr. William Brown, a professor and
 4 research fellow at the School of
 5 Communications and the Arts at Regent
 6 University, a former dean of that school.
 7 He's also a partner in Brown, Frasier and
 8 Associates, a consulting firm. And he's
 9 previously been qualified as an expert in the
 10 Phase 1 2004 to 2005 cable distribution
 11 proceeding.

12 You'll also hear briefly in our
 13 case from Allen Whit, the data analyst, who
 14 generated the reports of viewing data for
 15 devotional programs, programming based on
 16 Nielsen and Tribune data that Dr. Brown relied
 17 on in allocated proportional shares.

18 You've heard the opening statement
 19 of IPG and you'll hear evidence from them.
 20 IPG is a private, for profit business, which
 21 has purportedly authority to collect royalties
 22 for certain producers of religious programs

1 and in return for that, they receive between
 2 15 and 40 percent of the funds that are
 3 distributed to IPG and its clients.

4 The contrast between the cases of
 5 IPG and SDC are pronounced. IPG relies on a
 6 formula developed by Raul Galaz, the founder
 7 of IPG, a man with no advanced training in
 8 statistics or economics, and who is
 9 admittedly, we've heard this morning, not an
 10 expert in the field. Nor does he have
 11 experience in producing, distributing, or
 12 placing religious programming on television
 13 stations or in the cable television industry.

14 The distribution formula advocated
 15 by IPG apparently achieves different results
 16 at the whim of its creator. SDC has received
 17 three different sets of tabulations over the
 18 past year, the last of which we received at
 19 4 p.m. Friday afternoon, three days ago.

20 Although each variation purports
 21 to correct highly material errors and
 22 formulation and calculation, the latest

1 version is still rife with errors and we'll
 2 prove that in our evidence. Significant
 3 programs claimed by SDC appear to have been
 4 omitted from SDC's data while programming
 5 based on IPG claims that the Judges have
 6 already dismissed from this proceeding are
 7 included. The formula relies primarily on the
 8 gross number of minutes of program air, a
 9 factor long rejected by every body charged
 10 with allocating royalties, the CRT, the CARP,
 11 and this body.

12 It also employs a methodology
 13 often criticized and recently rejected by the
 14 Judges in the 2004-2005 Phase 1 proceeding
 15 called fee generation. It's the effort to
 16 match programs transmitted to fees paid by
 17 cable operators.

18 Now the Judges have previously
 19 acknowledged there's no reasonably effective
 20 way that ties feed to tie -- fees paid in, to
 21 programs carried. In IPG's case, it's a
 22 particularly awkward and misguided attempt to

1 capitalize on the royalties paid that often
 2 bear no marketplace relationship to its
 3 putatively represented content. And that is
 4 the role of this Court or this Board to find
 5 marketplace value.

6 In contrast, we will provide you a
 7 study of program viewing, long the primary
 8 standard for Phase 1 case. In recent
 9 decisions, primacy of ratings have given away
 10 to the Bort study based on a survey of cable
 11 operators. Unfortunately, as noted by the
 12 CARP in the '98-'99 case, when the Bort survey
 13 cannot be used, you have to find an
 14 alternative approach and the Bort approach
 15 really does not work for individual programs.
 16 It works for program categories, but not
 17 individual programs because there's no real
 18 way to ask a group of cable operators about
 19 thousands and thousands of potential program
 20 titles.

21 In those cases, the CARP noted a
 22 study of ratings results can be very helpful

1 to determine the value of competitive claims.
 2 Here, we will present the results of distant
 3 cable household viewing and Nielsen's rating
 4 data assessed by an expert in the field.
 5 Unlike IPG's witness, SDC's expert has no
 6 personal or family interest in the results of
 7 this proceeding and can offer his professional
 8 and scholarly views on the data he has
 9 assessed.

10 In sum, as Judges, you're faced
 11 with the alternative of a flawed, amateurish
 12 methodology, whose author and close family
 13 members have a personal and direct financial
 14 interest in its adoption versus a fair and
 15 balanced approach that relies on viewing data
 16 and ratings that is an industry standard. We
 17 respectfully urge the Judges to listen
 18 carefully to the testimony, given careful
 19 attention to the evidence. We're confident
 20 that you will reject IPG's approach and adopt
 21 the approach advocated by SDC. Thank you.

22 CHIEF JUDGE BARNETT: Thank you,

1 Mr. Harrington. We have 23 minutes until we
 2 break for lunch. Do we have any witnesses
 3 here and available this morning?

4 MS. PLOVNIK: Yes, Your Honor.
 5 We have Ms. Kessler here and we probably have
 6 about 30 minutes for her. I don't know if you
 7 want to take that now or wait until after
 8 lunch.

9 CHIEF JUDGE BARNETT: Let's take
 10 it now and we'll adjust our noon break
 11 accordingly.

12 MR. HARRINGTON: Your Honor, while
 13 the witness is approaching, I just wanted to
 14 clarify that as I recall from your order, it
 15 was appropriate for counsel who did not use
 16 their allocated time to reserve some time for
 17 witness cross examination and we would like to
 18 do that.

19 CHIEF JUDGE BARNETT: Okay, thank
 20 you. Presumably, you all would. You've all
 21 left time on the table and you may add it to
 22 your total.

1 Also, just because we seem to have
 2 no control over the temperature in this room,
 3 please feel free if it becomes oppressive to
 4 take your jackets off. It's -- we won't take
 5 offense. We'll understand. We're wearing
 6 plastic bags, so we know how it is.

7 (Laughter.)

8 Ms. Plovnick.

9 WHEREUPON,

10 MARSHA KESSLER
 11 WAS CALLED FOR EXAMINATION BY COUNSEL FOR THE
 12 MOTION PICTURE ASSOCIATION OF AMERICA AND,
 13 HAVING FIRST BEEN DULY SWORN, WAS EXAMINED AND
 14 TESTIFIED AS FOLLOWS:

15 MS. PLOVNIK: And Your Honor, one
 16 small housekeeping matter before I begin,
 17 because the parties utilized certain exhibit
 18 numbers in the preliminary hearing, we were
 19 going to go with the next MPAA exhibit number
 20 which for us would be 358, if that's
 21 permissible?

22 CHIEF JUDGE BARNETT: I think

1 that's a capital idea. Thank you.

2 MS. PLOVNIK: So we will do that.
 3 Thank you, Your Honor.

4 DIRECT EXAMINATION

5 BY MS. PLOVNIK:

6 Q Will you please state your name
 7 and spell it for the record?

8 A Marsha E. Kessler, Marsha, M-A-R-
 9 S-H-A, Kessler, K-E-S-S-L-E-R.

10 Q Are you currently employed?

11 A No, I'm retired.

12 Q When did you retire?

13 A August 20, 2010.

14 Q And where did you work before you
 15 retired?

16 A Motion Picture Association of
 17 America.

18 Q What was your position at the
 19 Motion Picture Association of America?

20 A I had the same position under
 21 various titles. At the time I retired I was
 22 the vice president of Retransmission Royalty

1 Distribution.

2 Q And how long were you in that
3 position?

4 A More than 28 years, less than 29.

5 Q What were your responsibilities in
6 that position?

7 A I had a broad category of
8 responsibilities. I helped our claimants file
9 their claims with the Copyright Office. I
10 assisted in the Nielsen viewing studies and I
11 worked with the various legal, accounting,
12 data technology professionals who provided
13 services related to the distribution of
14 royalties.

15 Q Where were you before MPAA?

16 A I was one of the founding members
17 of the Licensing Division here in the
18 Copyright Office.

19 Q How long were you at the Copyright
20 Office?

21 A I think it was about four years
22 from roughly 1978 or '79 to '82.

1 Q What were your responsibilities
2 there?

3 A Initially, there was a jukebox
4 compulsory license. I don't think it's
5 administered here, but at any rate I did a
6 little bit of jukebox work and then when I
7 came into being I examined statements of
8 account and later I was promoted to be a lead
9 examiner which meant I examined statements of
10 account. But I also advised colleagues when
11 they encountered difficulties or problems with
12 a particular statement of account.

13 Q Have you ever testified before
14 this body or any other body in connection with
15 the statutory licenses?

16 A With the exception of the '78 and
17 '79 proceedings, I've appeared in all Phase 1
18 proceedings and I believe all Phase 2
19 proceedings to the extent there were any.

20 Q Have you ever testified in any
21 royalty proceedings for other countries?

22 A Yes, I've appeared before the

1 Canadian Copyright Board and also before
2 Congress.

3 Q When you testified before those
4 bodies on whose behalf did you testify?

5 A In Phase 1 proceedings, I
6 testified on behalf of all program supplier
7 claimants. In Phase 2, I represented the
8 MPAA-represented program supplier claimants.

9 Q Ms. Kessler, what's your
10 educational background?

11 A I have bachelor's and master's
12 degrees in Spanish Language and Literature and
13 I have a non-credit degree as an ESL
14 instructor.

15 MS. PLOVNIK: May I approach the
16 witness?

17 CHIEF JUDGE BARNETT: You may.

18 BY MS. PLOVNIK:

19 Q I am now showing you, Ms. Kessler,
20 a document that's been premarked as MPAA
21 Exhibit 358. For the record, MPAA Exhibit 358
22 is entitled "Direct Testimony of Marsha E.

1 Kessler, dated May 30, 2012."

2 (Whereupon, the above-referred to
3 document was marked as MPAA
4 Exhibit 358 for identification.)
5 Have you seen this document
6 before, Ms. Kessler?

7 A Yes, I have.

8 Q What is MPAA Exhibit 358?

9 A It consists of my direct testimony
10 plus I believe they're called appendices A
11 through F.

12 Q Do you have any corrections to
13 MPAA Exhibit 358?

14 A I do not.

15 Q And do you declare today that MPAA
16 Exhibit 358 is true and correct and of your
17 personal knowledge?

18 A Yes, I do.

19 MS. PLOVNIK: Your Honor, I move
20 to admit MPAA Exhibit 358 at this time.

21 MR. BOYDSTON: No objection, Your
22 Honor.

1 MR. MacLEAN: No objection, Your
 2 Honor.
 3 CHIEF JUDGE BARNETT: Exhibit 358
 4 is admitted.
 5 (The document, having been marked
 6 previously for identification as
 7 MPAA Exhibit 358, was received in
 8 evidence.)
 9 BY MS. PLOVNICK:
 10 Q Ms. Kessler, what is the purpose
 11 of your testimony today?
 12 A I'll talk about three things
 13 today. First, I'll give a description of the
 14 nature of the programming that's covered under
 15 the MPAA program supplier claim. I'll also
 16 discuss the method by which MPAA had its
 17 claimants assert to their bona fides to
 18 collect royalties for individual programs.
 19 And lastly, I'll talk about my role in the
 20 special Nielsen studies.
 21 Q Ms. Kessler, did you testify in
 22 Phase 1 of this proceeding?

1 A Yes, I did.
 2 Q Is a copy of that testimony
 3 attached to MPAA Exhibit 358?
 4 A It is. It is shown as Appendix A.
 5 Q Thank you. Who does MPAA
 6 represent in this proceeding?
 7 A We have not only the major studies
 8 that Mr. Olaniran alluded to, but we have
 9 literally of dozens of -- well, large, medium,
 10 and small claimants with our group. They
 11 originate not only in the United States, but
 12 also some in Canada and parts of Europe.
 13 Q Did you provide a list of the MPAA
 14 represented claimants as a part of your
 15 testimony?
 16 A Yes, I did.
 17 Q And can you please identify where
 18 that appears?
 19 A It prepares as Appendix B to my
 20 testimony.
 21 Q Is that B as in boy?
 22 A B as in Boyston.

1 Q Is that list broken down by year?
 2 A Yes, it is.
 3 Q And why is that?
 4 A The same group of people may not
 5 claim from year to year. There may be name
 6 changes. There may be organizations who have
 7 claims in one year who don't have them in
 8 next. So in order to give an accurate
 9 reflection of the participants for each year,
 10 I broke it down by year.
 11 Q Approximately how many claimants
 12 does MPAA represent each royalty year?
 13 A Approximately 100.
 14 Q Does MPAA also indirectly
 15 represent any claimants?
 16 A We do. Many of these claims are
 17 what is called joint claims. A joint claim
 18 would be where an umbrella organization claims
 19 on behalf of multiple program owners. If you
 20 take those entities into account, we represent
 21 roughly 1400 claimants per year.
 22 Q Does MPAA have a representation

1 agreement with all of the entities listed on
 2 Appendix B?
 3 A Yes, we do.
 4 Q To your testimony. Do those
 5 agreements authorize MPAA to represent the
 6 interest of joint claimants on joint claims?
 7 A Yes, they do.
 8 Q So what sort of programs does MPAA
 9 represent in this proceeding?
 10 A If you look at pages four through
 11 six of my testimony, you'll see that the
 12 programs that fall under the MPAA umbrella are
 13 widely described as series and movies, but to
 14 limit it to that description really doesn't
 15 give us the basis for appreciating the actual
 16 kinds of programming that we have. Some of
 17 the programming is animated. Some of it is
 18 live action. An example would be Friends for
 19 a live action show. The Simpsons would be an
 20 example of an animated show.
 21 We have movies such as The African
 22 Queen or A Fish Called Wanda, one of my

1 favorites. We have game shows like Family
2 Feud or Jeopardy. We have sports shows and
3 sports-related programs. For example, Women
4 of Wrestling is a show, or George Michael
5 Sports Machine. We have pageants and awards
6 shows such as the Fifth Annual Family Friendly
7 Awards or the Golden Globe Awards. We have
8 news shows such as the McLaughlin Group. We
9 have health and fitness shows like the Wai
10 Lana Yoga show that is referenced here. We
11 have animal shows such as Animal Rescue. And
12 then finally, we have talk and interview
13 shows, for example, The Oprah Winfrey Show.

14 Q Is there a place in your testimony
15 where you list all the different titles that
16 MPAA represents in this proceeding?

17 A Yes, that's shown in Appendix C.

18 Q Is that list broken down by year?

19 A Yes, it is.

20 Q And why is that?

21 A Again, it's the same -- not every
22 show was broadcast and distantly retransmitted

1 every year. So in order to be specific about
2 which programs we're claiming for which years,
3 I felt it was helpful to state it so.

4 Q So if you take all of those years
5 together, approximately how many programs does
6 MPAA represent in this proceeding?

7 A Roughly, 11,600.

8 Q Now during the years that you
9 worked at MPAA, did MPAA maintain any internal
10 standards for determining who could sign up to
11 be a MPAA-represented claimant?

12 A Yes, we did. We called it the
13 certification process.

14 Q And what were those standards?

15 A The standards, first of all, the
16 claimant had to have filed a claim here at the
17 Copyright Office. And evidence of that would
18 be the appearance of the claimant on a list
19 generated by the Copyright Office along with
20 a claim number that's assigned.

21 Secondly, we required that the claimant
22 provide us with a copy of what they had filed

1 at the Copyright Office. And third, we had
2 them certify a list of works for which we were
3 prepared to make remuneration.

4 Q Where those standards in place for
5 the 2000 to 2003 cable royalty years?

6 A Yes, they were.

7 Q And was one of your requirements
8 also that the claimant execute a
9 representation agreement with MPAA?

10 A I'm sorry, that's one of the very
11 important ones that I forgot. They absolutely
12 had to -- there needed to be a mutually
13 executed representation agreement between MPAA
14 and the claimant.

15 Q Did MPAA require its claimants to
16 certify each of the titles that they
17 represented for the 2000 through 2003 royalty
18 years?

19 A Yes.

20 Q What information was typically
21 included in a certification for a title?

22 A The certification consisted of two

1 parts. One of them was a listing of all the
2 works for which MPAA was prepared to make
3 remuneration. And the second was a sheet on
4 the top stating the name of the claimant, and
5 they were the authorized claimant for each of
6 the works listed on the printout except for
7 some that they may have crossed out. If the
8 claimant crossed out a work that indicated to
9 us that they could not accept royalties for
10 that and we would delete that from their list
11 of works to be compensated.

12 Additionally, in the memo that
13 would accompany the don't forget to certify
14 your works project would be a -- if we've
15 missed something, tell us now because this is
16 your last opportunity to call our attention to
17 anything we may have missed.

18 Q Would your claimant sign the
19 certification?

20 A Yes.

21 Q Were all the titles listed in
22 Appendix C to your written testimony subject

1 to certification?

2 A Yes, they were.

3 Q Now let's talk a little about the

4 Nielsen studies you mentioned previously. Did

5 you have a role in the development of MPAA's

6 Nielsen studies for 2000 through 2003?

7 A Yes, I did.

8 Q What was that role?

9 A I selected the stations whose

10 programming would be the basis for the

11 remuneration of royalties to the claimants.

12 Q How did you select those stations?

13 A The first part was to get a

14 listing of broadcast stations that were

15 retransmitted as distant signals from Cable

16 Data Corporation. That list typically

17 included stations not in the United States.

18 So I would -- and public television stations.

19 Q What sorts of cable systems were

20 covered by that data?

21 A Definitely Form 3s. I think for

22 some years, the Forms 1/2 data may have been

1 included. If I saw my files, I would

2 remember. I just don't remember off the top

3 of my head.

4 Q What systems did you rely on when

5 you were selecting stations for the Nielsen

6 study?

7 A Typically, the Form 3 stations

8 were certainly the starting point.

9 Q And why would you rely on Form 3s?

10 A I'm going to digress just a little

11 bit, but the purpose of the royalties here is

12 to remunerate program owners when their works

13 are retransmitted outside the local market to

14 which the work was originally licensed. So

15 when cable operators, Form 3 operators make

16 their payments, they have to specifically

17 identify which stations were retransmitted

18 outside the local market of the station. And

19 so that clearly provides the basis for

20 identifying distant retransmissions.

21 JUDGE STRICKLER: May I interject

22 with a question? Is that in contrast to Form

1 1 and Form 2 where you don't have that

2 identification of the retransmitted station?

3 THE WITNESS: That is correct,

4 sir.

5 JUDGE STRICKLER: Thank you.

6 BY MS. PLOWNICK:

7 Q Was there ever a time that you

8 decided to include a smaller system in your

9 analysis or use that as the basis for

10 selecting stations?

11 A I think that I certainly looked at

12 those data and again, if I had my sheets in

13 front of me, I could answer more directly, but

14 certainly looked at them. Whether they

15 actually became the basis, I don't recall.

16 Q Did you include Canadian, Mexican,

17 or public television stations?

18 A No, I did not.

19 Q Why not?

20 A MPAA has seen our responsibility

21 as remunerating for works only on U.S.

22 stations. And so for purposes of royalties,

1 we excluded those works, those stations.

2 Q Is there a list of stations

3 included anywhere in MPAA Exhibit 358?

4 A Yes, the stations are shown in

5 Appendix D.

6 Q Is that list specific to the year?

7 A Yes, again, it is. And the

8 reason, anticipating your question, is that

9 there's probably a core group of stations that

10 are distantly retransmitted from year to year.

11 But there are always outliers who may be there

12 for some years and not for others.

13 JUDGE STRICKLER: Counsel, excuse

14 me, again. I want to make sure we didn't skip

15 over something based on her written statement

16 that's now in evidence. Exhibit D is a list

17 of the sample stations that you selected out

18 of the universe of Form 3 stations, correct?

19 THE WITNESS: Yes, out of the

20 universe of distantly retransmitted stations.

21 JUDGE STRICKLER: Based on the

22 Form 3 data?

1 THE WITNESS: That was the
2 starting point and just at this second don't
3 recall whether I incorporated additional
4 stations from 1/2s, but definitely the huge
5 chunk of the sample came from the Form 3s.

6 JUDGE STRICKLER: My question was
7 addressed to the fact that Exhibit D is
8 entitled "Nielsen Diary Study Sample
9 Stations." What I'm trying to determine, so
10 I understand what you're testifying to, is
11 whether the sample is a subset of what you got
12 from the Form 3 data because I don't know that
13 you've necessarily said that yet. Maybe it's
14 coming up on your testimony.

15 THE WITNESS: What I'm saying is
16 that I don't recall. What I'm saying is that
17 definitely Form 3s are the basis for, if not
18 100 percent of the stations, definitely the
19 lion's share of the stations. I think in
20 years after 2000, 2001, I increased the sample
21 station, the number of stations in the sample
22 and I just need to go back and look at my

1 pages to see what my basis was.

2 I'm not trying to avoid your
3 question. I'm comfortable in saying the vast
4 majority are there due to their retransmission
5 by Form 3 systems. There may be outliers in
6 addition.

7 BY MS. PLOVNICK:

8 Q Ms. Kessler, when you say you
9 looked at your pages, are you referring to the
10 CDC data that you pulled from?

11 A Yes, exactly.

12 Q This is a large database file you
13 received or a large Excel file, rather, that
14 you received from Cable Data Corporation?

15 A That's right.

16 Q Listing cable system data?

17 A Right.

18 Q What all kind of data was included
19 in that large file?

20 A It would be the call sign of the
21 station, its affiliation, the channel on which
22 it broadcasts in its local market, the city to

1 which it was licensed, then multiple columns
2 of data. One of the columns is definitely
3 Form 3 subscribers. Another form, another
4 column would be Form 3 fees generated.

5 What I'm just not recalling at
6 this moment, Your Honor, is whether I also
7 worked with Form 1/2s, but if I actually saw
8 my file I would know the answer to that.

9 Q If you examined the large
10 electronic file you would be able to determine
11 exactly what was included?

12 A Exactly.

13 CHIEF JUDGE BARNETT: Ms. Kessler,
14 you're not saying that Appendix D, let's take
15 the Year 2000, for instance, includes all of
16 the Form 3 stations that you got information
17 on from CDC?

18 THE WITNESS: That's correct, Your
19 Honor.

20 CHIEF JUDGE BARNETT: It's
21 selected Form 3 stations.

22 THE WITNESS: That's correct.

1 CHIEF JUDGE BARNETT: Okay.

2 THE WITNESS: It was those carried
3 by the highest -- those retransmitted to the
4 highest number of distant subscribers.

5 JUDGE FEDER: So that was the
6 basis for the selection?

7 THE WITNESS: Yes, sir.

8 JUDGE STRICKLER: And just so
9 we're clear, when the Judge asked about the
10 selection, on page 11 of your direct
11 testimony, you said -- this is about four
12 lines from the bottom, "Using the CDC Form 3
13 Statement of Account data, I identified and
14 prepared a list of sample stations for each
15 year."

16 Do you see where I'm reading?

17 THE WITNESS: I certainly do.

18 JUDGE STRICKLER: You said sample
19 stations. Can you tell the Court how you
20 selected the sample?

21 THE WITNESS: Certainly. It was
22 based on the number of distant subscribers to

1 whom the programming was available. If you
2 look at the next page of my testimony, page
3 12, you'll see that the -- I listed the
4 percentage of distant subscribers, but not the
5 actual number. But the table in the middle of
6 my testimony has four columns. And in the
7 third column this shows the total number of
8 distant subscribers covered by the sample.

9 JUDGE STRICKLER: But it wasn't a
10 random sample, it was a sample that you
11 started out with those systems that reached
12 most subscribers and went down at some point,
13 decided to cut off your sample list?

14 THE WITNESS: Exactly.

15 JUDGE STRICKLER: How did you
16 decide when to stop?

17 THE WITNESS: Intuition. I would
18 do an analysis similar or identical to that in
19 the third column of the table on page 12. And
20 at the sample size of 75 percent, I felt like
21 that was a very good amount of coverage to
22 measure distant viewing. In subsequent years,

1 I covered up to 85, 86 percent of distant
2 subscribers. Again, these would be the
3 subscribers who would have access to the
4 programming.

5 JUDGE STRICKLER: Did you have any
6 concern with where the place that you cut off
7 the size of the cable system operated by way
8 of subscriber, might impact the ratio of IPG
9 shows that were distributed versus those that
10 are represented by -- those claimants that are
11 represented by MPAA?

12 THE WITNESS: IPG was not part of
13 my consideration. What you have to consider
14 are two things. Number one, the cost of
15 additional data, and number two, any
16 additional benefit to the data. In the case
17 of getting additional data, most stations in
18 the United States during this period and I
19 believe now, are affiliated with a non-ABC, -
20 CBS, or -NBC network. For example, there's
21 some -- during this period I think there was
22 UPN and WB Network, the Fox Network, Ion which

1 was formerly known as Pax and Univision.

2 So when you are purchasing
3 additional data, essentially you're purchasing
4 the same programs, more and more of the same
5 programs. And in order to purchase enough
6 stations to move the number of subscribers
7 covered, you have to increase your sample
8 size, but you don't get any benefit from it
9 because you've already got the programs and
10 everything will stay relative. Anything
11 additional does not change the overall
12 distribution of programs I think is what I'm
13 trying to describe.

14 JUDGE STRICKLER: Is that the
15 intuition you referred to before is knowing
16 when to stop?

17 THE WITNESS: Yes.

18 JUDGE STRICKLER: And when you use
19 that intuition as you just described it, you
20 weren't thinking one way or the other as to
21 how that might affect whether or not IPG
22 programs that were represented would have

1 otherwise showed up in the data had you
2 purchased more data?

3 THE WITNESS: IPG, I don't think
4 it ever crossed my mind.

5 BY MS. PLOVNNICK:

6 Q Ms. Kessler, when did you acquire
7 this data? It was well before this
8 proceeding, correct?

9 A Absolutely, years and years
10 before.

11 Q You retired from MPAA in 2010.

12 A Correct.

13 JUDGE STRICKLER: And you did the
14 sampling all on your own. There was nobody
15 else involved in it?

16 THE WITNESS: That's correct.

17 JUDGE STRICKLER: Thank you.
18 Sorry, counsel.

19 MS. PLOVNNICK: No, that's all
20 right.

21 BY MS. PLOVNNICK:

22 Q So after you selected these

1 stations, what did you do next?
 2 A The Nielsen ratings do not
 3 differentiate between distant and local
 4 viewing. So I had to perform what is called
 5 a distant county analysis which is a county by
 6 county analysis for each sample station, the
 7 end result of which identifies local counties
 8 for each station.

9 I would then tell Nielsen these
 10 are the local counties for station whatever
 11 and Nielsen could exclude cable viewing to
 12 those stations so that the end result was
 13 distant cable viewing.

14 Q Do you explain the process for the
 15 county analysis in Appendix F to your
 16 testimony?

17 A F. Yes, I do.

18 Q Did you have any further
 19 involvement with the 2000 through 2003 Nielsen
 20 studies after the county analysis?

21 A No, that was the end of it.

22 Q Did you send the results to

1 Nielsen?

2 A Oh, yes. They definitely have to
 3 go somewhere. I forwarded the data to Nielsen
 4 so that they could perform their viewing
 5 studies.

6 MS. PLOVNICK: Now may I approach
 7 the witness?

8 CHIEF JUDGE BARNETT: You may.

9 BY MS. PLOVNICK:

10 Q I'm going to give you a copy of
 11 MPAA Exhibit 359. 359 for the record is the
 12 rebuttal testimony of Marsha E. Kessler, dated
 13 May 15, 2013.

14 (Whereupon, the above-referred to
 15 document was marked as MPAA
 16 Exhibit 359 for identification.)

17 A Yes, I see that.

18 Q Have you seen MPAA Exhibit 359
 19 before?

20 A Yes, I have.

21 Q And what is it?

22 A It is my rebuttal testimony,

1 including appendices A through E.

2 Q Do you have any corrections to
 3 MPAA Exhibit 359?

4 A I don't know how to respond on
 5 page five given the Judge's ruling this
 6 morning. Initially, I would have struck Reel
 7 Funds International because we had been
 8 advised that they were withdrawing through
 9 MPAA. I need a more learned person than
 10 myself to help me out.

11 Q Subject to the Judge's ruling this
 12 morning, other than the striking of Reel
 13 Funds, do you have any other corrections?

14 A No, I don't.

15 Q And with this correction and
 16 subject to the Judge's ruling this morning, do
 17 you declare that MPAA Exhibit 359 is true and
 18 correct and of your personal knowledge?

19 A I do.

20 MS. PLOVNICK: Your Honors, I move
 21 to admit Exhibit 359.

22 MR. BOYDSTON: Excuse me, no

1 objection.

2 CHIEF JUDGE BARNETT: Exhibit 359
 3 is admitted.

4 (The document, having been marked
 5 previously for identification as
 6 MPAA Exhibit 359, was received in
 7 evidence.)

8 MS. PLOVNICK: Thank you, Your
 9 Honor.

10 BY MS. PLOVNICK:

11 Q Ms. Kessler, what's the purpose of
 12 MPAA Exhibit 359?

13 A My testimony has two objectives.
 14 One is to talk about some work that I and my
 15 former supervisor did with respect to
 16 overlapping claims that both MPAA and IPG
 17 claim to represent. And the other is to do a
 18 review of the program categories, the Phase 1
 19 program categories.

20 Q Let's talk about the program
 21 categories that you mentioned. Is there a
 22 place in MPAA Exhibit 359 where you discuss

1 the Phase 1 categories?

2 A Yes, that's on page 2 of my
3 testimony.

4 Q Do you also discuss them in any
5 addendums?

6 A Certainly. On Addendum A which is
7 an advisory opinion regarding program
8 categories, and Addendum B which is a
9 description of the Phase 1 program categories.

10 Q Let's look at Addendum B which you
11 just mentioned. How many Phase 1 categories
12 are there?

13 A There are eight.

14 Q Can a single program fall in
15 multiple Phase 1 categories?

16 A No, they are all uniquely --
17 you're in one bucket or the other.

18 Q Why not?

19 A The Phase 1 -- these program
20 definitions respond to the -- are
21 representative of the eight groups who receive
22 Phase 1 allocations. So I can't -- MPAA

1 cannot represent baseball and sports can't
2 represent the Simpsons. They're mutually
3 exclusive.

4 Q Mutually exclusive categories for
5 programs?

6 A Correct.

7 Q All right, now let's go to the
8 other portion which I think you had actually
9 mentioned first which is the investigation you
10 talked about. What was the first step that
11 you had that investigation?

12 A I looked at IPG's direct case. I
13 believe it was the Exhibit 1 and a number of
14 claimants, represented claimants listed there
15 rang bells with me because MPAA had, based on
16 my recollection, had representation agreements
17 with those claimants as well. So wanted to
18 un muddy the waters as best we could. Is this
19 claimant in the MPAA group or is the claimant
20 in the IPG group?

21 Q So what did you do next after
22 that?

1 A After that, my former supervisor,
2 Jane Saunders, and I undertook to contact the
3 -- what we call the overlapping claimants and
4 to find out the circumstances, how is it
5 possible that there are rep agreements between
6 with your organization between MPAA and IPG
7 and what's the correct way to go?

8 Q And after you contacted these
9 claimants what, if anything, did they do in
10 response to your inquiry?

11 A Virtually, all of them for almost
12 all of the years considered themselves to be
13 MPAA claimants. Some filed documents
14 clarifying representation with the Judges and
15 others provided evidence showing that they had
16 terminated their association with IPG at an
17 earlier date.

18 MPAA, as I understand it, had not
19 received in discovery some of those
20 termination letters. So we asked for copies
21 of them.

22 Q Let's turn to Addendum D to your

1 testimony. And what is Addendum D?

2 A This is a letter to WSG from the
3 U.S. Olympic Committee terminating IPG
4 representation.

5 Q What's the date of that letter?

6 A It's dated January 22, 2003.

7 Q And who is it addressed to?

8 A Mr. Raul Galaz.

9 Q And to your knowledge was MPAA
10 provided this letter in discovery?

11 A We are not copied on it and I
12 don't personally recall seeing it in my
13 capacity as an employee of MPAA. And I
14 understand that it was not provided to counsel
15 in discovery.

16 Q In the course of your
17 investigation, did any other claimants who had
18 previously notified the Judges that they
19 terminated their relationship with IPG come to
20 your attention?

21 A Yes. There is a local attorney
22 named Ted Hammerman who represents a number of

1 claimants in these proceedings. And he called
2 our attention to the document shown in
3 Appendix -- I'm sorry, Addendum E which is a
4 letter from the Farm Journal Media Company
5 advising that WSG is not authorized to
6 represent their claims.

7 Q And that's in Addendum E to MPAA
8 Exhibit 3598?

9 A That's correct. E as in Edward.

10 Q All right. Thank you, Ms.
11 Kessler. I have no further direct questions.

12 CHIEF JUDGE BARNETT: Thank you.
13 We will take our midday break at this time.
14 By my watch, it's 12:10. So we will reconvene
15 at 1:10. Thank you.

16 (Whereupon, at 12:10 p.m., the
17 hearing was adjourned, and will reconvene at
18 1:16 p.m.)

19 CHIEF JUDGE BARNETT: Ms.
20 Plovnick, did you complete your direct, then?
21 MS. PLOVNICK: Yes, Your Honor. I
22 was done with direct.

1 CHIEF JUDGE BARNETT: Okay.
2 Cross-examination, Mr. Boydston?
3 MR. BOYDSTON: Thank you, Your
4 Honor. Your Honor, similar to Ms. Plovnick,
5 with regard to a housekeeping matter on
6 exhibit numbers, IPG would like to begin
7 additional exhibits with the number 500,
8 because we didn't get to that in the previous
9 one.

10 CHIEF JUDGE BARNETT: That will be
11 just fine.

12 MR. BOYDSTON: There may have been
13 a four hundred or two we didn't use, but I'm
14 for sure we didn't use 500, so we'll be safe.

15 CHIEF JUDGE BARNETT: That's fine.
16 Thank you.

17 MR. BOYDSTON: Thank you, Your
18 Honor.

19 CROSS-EXAMINATION

20 BY MR. BOYDSTON:

21 Q Ms. Kessler, I am Brian Boydston.
22 I represent Independent Producers Group. It

1 is correct that you were responsible for
2 conducting MPAA's claims verification process
3 as you described, correct?

4 A Yes, sir.

5 Q And is it accurate that MPAA
6 directly represents approximately 100
7 claimants, I think you said, correct?

8 A That's correct.

9 Q And are you familiar with the --
10 you've said that there are contracts with
11 those 100 claimants that the MPAA has,
12 correct?

13 A Are you referring to the
14 representation agreement?

15 Q Well, I'll just ask if they are
16 contracts, and then it sounds like you have a
17 name for them, so --

18 A We call them representation
19 agreements.

20 Q Okay. And I realize "contract"
21 may be a term of art, so I apologize. To use
22 your term, the MPAA, to your understanding,

1 had an agreement, called a representation
2 agreement, with those 100 claimants for these
3 proceedings, correct?

4 A Correct.

5 Q Okay.

6 MR. BOYDSTON: Your Honor, I'd
7 like to admit what I'd like to have marked --
8 or, excuse me, I would like to present what we
9 will mark as IPG 500.

10 (Whereupon, the above-referred to
11 document was marked as IPG Exhibit
12 No. 500 for identification.)

13 And I apologize, it's a little
14 voluminous. If I may approach?

15 CHIEF JUDGE BARNETT: We've never
16 had voluminous exhibits in this case before,
17 Mr. Boydston, so I don't know how we'll handle
18 it.

19 MR. BOYDSTON: Apologies.

20 CHIEF JUDGE BARNETT: Thank you.

21 MS. PLOVNICK: Your Honor, may I
22 call your attention to the fact that these are

1 restricted I think and subject to protective
 2 orders or -- oh, I'm sorry. I have to press
 3 the button here. These are --
 4 CHIEF JUDGE BARNETT: No, it's on.
 5 MS. PLOVNICK: He said ours is
 6 not, so --
 7 CHIEF JUDGE BARNETT: Oh.
 8 MS. PLOVNICK: -- the Court
 9 Reporter. I'm sorry.
 10 So it may -- if we begin to read
 11 language from these, it may be appropriate for
 12 us to pre-review. But I would leave it to
 13 your discretion.
 14 CHIEF JUDGE BARNETT: Thank you,
 15 Ms. Plovnick. These exhibits, or this
 16 exhibit, has at least -- initially flipping
 17 through, I can see that it consists of a great
 18 many restricted pages and redacted pages.
 19 Mr. Boydston, if you are going to
 20 ask questions about any of the detail, then I
 21 will depend on Ms. Plovnick let me know if we
 22 are getting into an area where she feels it is

1 restricted and we need to clear the courtroom.
 2 MR. BOYDSTON: Understood, Your
 3 Honor.
 4 CHIEF JUDGE BARNETT: Okay?
 5 BY MR. BOYDSTON:
 6 Q Ms. Kessler, just take a look at
 7 these briefly. We don't want you to look at
 8 every page because we will be here way too
 9 late, but are these the type of agreements
 10 that you were referring to?
 11 A Yes, they are.
 12 Q Okay. They say "Representation
 13 Agreement" on the top of it, correct?
 14 A That's correct.
 15 Q Okay. And did you assist in the
 16 production of these documents in connection
 17 with this litigation?
 18 A I had retired by that time. I
 19 directed the people who are still at MPAA
 20 where to find them.
 21 Q Okay. Did you have a hand in
 22 directing the people at MPAA as to what

1 portions to black out or redact in these
 2 documents?
 3 A They were redacted by counsel, and
 4 I had no part in that.
 5 Q Okay. And it's your recollection
 6 that this is the way they were produced,
 7 though, with the redactions, correct?
 8 A Correct.
 9 Q And do you know what the purpose
 10 was of the redactions?
 11 A I do not.
 12 Q All right. Were you aware that
 13 there was a protective order in this case that
 14 would protect these documents from third
 15 parties seeing them?
 16 A Yes.
 17 Q Do you know why it was that it was
 18 determined that it was necessary to redact
 19 them despite the existence of the protective
 20 order?
 21 A I do not.
 22 Q Did anyone ever tell you?

1 A No.
 2 MR. BOYDSTON: Your Honor, I'd
 3 like to move to admit Exhibit 500.
 4 MS. PLOVNICK: Our only objection
 5 would be that we would like it to be noted
 6 that it is restricted and subject to the
 7 protective order in this case. Other than
 8 that, on the record, no objection.
 9 CHIEF JUDGE BARNETT: Thank you.
 10 Any objection from SDC?
 11 MR. HARRINGTON: No.
 12 CHIEF JUDGE BARNETT: Exhibit 500
 13 is admitted as a restricted exhibit.
 14 (Whereupon, the above-referred to
 15 document, previously marked as IPG
 16 Exhibit No. 500 for
 17 identification, was admitted into
 18 evidence.)
 19 MR. BOYDSTON: Thank you, Your
 20 Honor.
 21 BY MR. BOYDSTON:
 22 Q Are you aware whether or not there

1 have been any other versions of these
2 agreements that have been submitted in this
3 action?

4 A I am not aware.

5 Q And so the only proof of these
6 contracts that is before the parties and the
7 Judges are these, as far as you know, correct?

8 A As far as I know, correct.

9 Q Okay. Let me ask you just to look
10 at a page or two of these. As you can see,
11 they are numbered in the bottom right-hand
12 corner, starting with 5218. And let me ask
13 you to page to what is marked as 05444, about
14 in the middle of the stack. And, again,
15 that's 05444. And it's a page that is just
16 all black, correct?

17 A It sure is.

18 Q So it's a page that is -- has had
19 all of the information on it removed, correct?

20 A Correct.

21 Q Do you know why it was necessary
22 to remove every piece of information from some

1 of these pages?

2 A I do not.

3 Q Okay. And let me ask you to look
4 at the last one, at one more that's similar,
5 05511. And, again, that is 05511. And that
6 is completely blank as well, correct?

7 A Wait. I have to catch up with
8 you.

9 Q Sure. I apologize.

10 A 5511 is completely blank.

11 Q Okay. I could go through some
12 others, but I think the point is made. Some
13 of these pages were just completely wiped out,
14 correct?

15 A The two that you pointed out are
16 completely blanked out.

17 Q And I think that each of these has
18 some redaction, correct? I don't think any
19 were produced with no redactions. Is that
20 your recollection?

21 A I did not participate in the
22 redactions. So to the extent that they appear

1 in the format you have before me, you would
2 have to discuss that with counsel.

3 Q Okay. Now, you testified that in
4 addition to the 100 parties represented by
5 these contracts that the MPAA independently --
6 or, excuse me, indirectly represents a bunch
7 of other entities as well, correct?

8 A That's correct.

9 Q And those other entities are
10 represented by some of the contracting parties
11 here, actually have separate contracts with
12 other folks, correct?

13 A That's my understanding, yes.

14 Q Okay.

15 MR. BOYDSTON: Your Honor, I'd
16 like to present what will be marked as IPG's
17 Exhibit 501. I'm sorry. It's voluminous as
18 well.

19 (Whereupon, the above-referred to
20 document was marked as IPG Exhibit
21 No. 501 for identification.)

22 BY MR. BOYDSTON:

1 Q And, Ms. Kessler, like the last
2 exhibit, just take a glance at some of the
3 pages here. Tell me if you generally
4 recognize what these documents are, as a
5 generality first.

6 A I recognize them.

7 Q And what are they? They are
8 certifications, it says at the top, correct?

9 A These are the certifications it
10 looks for -- like definitely calendar year
11 2000 through 2003.

12 Q Okay. And it looks like, looking
13 at the second page, there are some redactions
14 there as well, correct?

15 A Yes.

16 Q And if I look at the fourth page,
17 there are some redactions there as well,
18 correct?

19 A Is that 1710?

20 Q Yes.

21 A Yes, there are.

22 Q And if you flip through this,

1 there are similar redactions throughout these
2 documents, correct?

3 A Yes.

4 Q Now, back to the first page of
5 Exhibit 501, looking down here where the
6 signatures come in, I see it says that one of
7 the signatories is Reny Montesinos, Manager,
8 AFMA Collections, correct?

9 A Correct.

10 Q And AFMA Collections, was that one
11 of the hundred entities that the MPAA had a
12 contract with, I believe?

13 A Yes, it is.

14 Q And so no question that MPAA had a
15 contract with AFMA. Now, this document refers
16 to AFMA, and then on the -- well, on the
17 second page, right underneath the heading it
18 says, "Claimant Bennett Productions, Inc.,"
19 correct?

20 A Correct.

21 Q So Bennett Productions, Inc., was
22 that an entity that the MPAA contends it has

1 the right to collect royalties for?

2 A Yes, that's correct.

3 Q And at the same time, the MPAA
4 doesn't have a contract with Bennett
5 Productions. It has a contract with AFMA
6 Collections, correct?

7 A Yes. If you'll refer to any of
8 the representation agreements that you want to
9 pick, if you'll look at paragraphs 16 and 17,
10 paragraph 16 says that "If a claimant has
11 submitted a joint claim for royalties, this
12 agreement shall authorize MPAA to represent
13 all joint claimants that are parties to the
14 joint claim submitted by the claimant."

15 And then, 17, that "The claimant
16 is the dually authorized representative of all
17 joint claimants that are parties to the joint
18 claim submitted by claimant, and is authorized
19 by all such joint claimants to execute this
20 agreement on their behalf, and to bind them to
21 the provisions, terms, and conditions of this
22 agreement."

1 Q Thank you. Now, with regard to
2 these first two pages that we have been
3 looking at on Exhibit 501, AFMA Collections
4 does not own the programming content of
5 Bennett Productions, correct?

6 A I have no information with respect
7 to that question.

8 Q Okay. But your understanding is
9 that MPAA's rights to make a collection for
10 Bennett derive through its contractual
11 agreement with AFMA.

12 A That's correct.

13 Q Not with Bennett.

14 A Correct.

15 Q Okay. Now, are you familiar with
16 IPG and its claimants, to some degree?

17 A To some degree.

18 Q And is it your understanding that,
19 somewhat like AFMA and Bennett, IPG has a
20 contract with its claimants similar to the
21 contract that AFMA has with Bennett?

22 A I have no knowledge of the

1 agreement between Bennett and AFMA -- I'm
2 sorry, IFTA. IFTA became -- AFMA became IFTA.

3 Q Okay.

4 A And I have only seen redacted
5 agreements between IPG claimants, so I don't
6 have a basis to respond to your question.

7 Q Okay. When you put together the
8 information to list all of the programs that
9 the MPAA was making claim for -- I think it
10 was the 11,600, correct?

11 A Correct.

12 Q Did you have any basis, then, to
13 know that in fact, since you didn't know what
14 the agreement was between AFMA and Bennett,
15 how did you know that the MPAA should have the
16 right to make a claim for Bennett, if you
17 didn't know what the contractual relationship
18 was between AFMA and Bennett?

19 A We have asked them to attest on
20 their representation agreement that they have
21 such authority.

22 Q Now, when you say you asked them

1 to attest, let's --- if we may be specific, you
2 asked who to attest to what?

3 A By virtue of signing the
4 representation agreement, AFMA has affirmed or
5 confirmed -- I'm not sure if I'm using the
6 correct word -- that they have the proper
7 authority to assert the claim, and that they
8 have the authority to bind their represented
9 claimant to MPAA representation.

10 Q Okay. But you don't have -- you
11 didn't get any information from Bennett to
12 confirm from Bennett's standpoint that AFMA
13 had the rights to make this claim, correct?

14 A Actually, in the case of Bennett,
15 I don't have documents but a telephone
16 conversation, because in one of the years
17 Bennett filed an independent claim. And so I
18 said, "You filed, and AFMA filed on your
19 behalf," and my recollection is that he said,
20 "Oh, if they file, that's fine. Go with
21 AFMA."

22 Q Okay. Thank you.

1 A So in that particular case, I do
2 know something.

3 Q You do have something.
4 Understood. If we look at the third and
5 fourth page of Exhibit 501, it looks like,
6 again, it's an AFMA certification. And on the
7 second page at the top it says "Claimant
8 Carolco Pictures."

9 A Correct.

10 Q Do you know whether or not Carolco
11 Pictures had in fact given its permission to
12 AFMA to make claims on its behalf?

13 A I have no information.

14 Q And so there you are relying on
15 the -- or, excuse me, on the representation
16 agreement by AFMA saying, "We promise that we
17 can represent everybody we are going to
18 present to you," essentially, right?

19 A That's correct.

20 Q At any point in the process of
21 verifying MPAA's claims, did you contact
22 Carolco Pictures to make sure that was

1 actually the case?

2 A We did not.

3 Q And with regard to other entities
4 represented by AFMA, did you, on a systematic
5 basis, go through and confirm that all of
6 these entities that AFMA claimed to represent
7 in fact were represented by AFMA?

8 A We did not.

9 Q And is that the same for AGICOA,
10 which is another contract -- company with a
11 contract with the MPAA, correct?

12 A In no case did we contact the
13 underlying claimants.

14 Q And I believe it is your testimony
15 that the number of -- again, the number of
16 claimants -- you have a direct contract where
17 there is 100, but the indirect grows up to
18 1,400, right?

19 A Was it that many? I thought it
20 was like 11 -- 1,400, was that the number?

21 Q That's what I said, yes.

22 A Oh, okay. I'm sorry. Yes.

1 Q Is that correct?

2 A That's correct.

3 Q And so a lot of these claims of
4 the 1,400 are situations where you don't have
5 a direct contract like you do with the
6 hundred. Instead, you are relying on the fact
7 that the hundred say that they represent the
8 1,400, correct?

9 A That's correct.

10 Q But there is no -- the MPAA
11 doesn't go through any process to verify that
12 on a case-by-case basis.

13 A That's correct.

14 Q Have you had circumstances in
15 which it has turned out that one of the 100
16 has claimed somebody and certified that they
17 indeed, you know, have the right to represent
18 another party, and then it turned out that was
19 not the case?

20 A Not to my recollection, no, not
21 during my time at MPAA.

22 Q Do you recall the entity that had

1 a contract with the MPAA called Fintage?

2 A Yes.

3 Q And do you recall, as you may have
4 heard -- or, actually, strike that. Are you
5 aware that Fintage claimed to have an
6 agreement to pursue the rights on behalf of
7 the BBC?

8 A It has only been brought to my
9 attention during the course of these
10 proceedings.

11 Q Okay. And are you aware that the
12 BBC has disavowed Fintage's right in that
13 regard?

14 A I think I heard you say that this
15 morning.

16 Q Are you aware of any other MPAA
17 parties with whom the MPAA has a direct
18 contract, i.e., the 100, where a similar thing
19 has come out, that somebody had claimed to
20 have rights to never produce a contract to
21 you, and then had to say, "Oh, you know,
22 actually, we don't have those rights"?

1 A I don't recall. By saying I don't
2 recall, I don't recall that that circumstance
3 ever happened.

4 Q Okay. Do you know whether or not
5 the MPAA ever asked parties like AFMA to
6 produce its contract with its underlying
7 parties, such as Carolco, et cetera?

8 A No, we never did.

9 Q Okay. So you never asked them to
10 produce them, and you never contacted the
11 represented parties, like Carolco,
12 independently, correct?

13 A That's correct.

14 Q Are you aware of whether or not
15 IPG requested to see the agreements between
16 the MPAA and these 100 parties in this action?

17 A Am I aware that you asked to see
18 the agreements?

19 Q Yes.

20 A Yes, I am.

21 Q And you're aware that they were
22 produced in this fashion, correct?

1 A I see that now, yes.

2 Q Now, looking back at the
3 Exhibit 500 --

4 A That's the rep agreements?

5 Q Yes. Thank you. My question --
6 and you can just look at the first one or the
7 second one, because it applies to all of them,
8 is whether or not these, in this form, state
9 what year they apply to.

10 A They do not.

11 Q Do you know why that is?

12 A There would have been a memorandum
13 that I mailed in conjunction with this. And
14 my recollection is the memorandum would state
15 the beginning year. The reason was, up until
16 a certain point -- and to tell you the truth,
17 I don't recall which royalty year we changed
18 it -- but we executed a representation
19 agreement for every royalty year. So it was
20 -- it became -- I hate to use the word
21 "burdensome," but it was burdensome to do that
22 process every year.

1 So at some point, and certainly
2 that was I think the case starting in 2000, if
3 not before, we became a -- we made it a
4 perpetual representation agreement -- this may
5 be the very first royalty year that was
6 covered by that. I'm not going to testify
7 that I know that for sure, but the memorandum
8 that accompanied it would have said we are
9 doing something new, it is going to be
10 perpetual, it starts with royalty year
11 whatever.

12 Q Okay. But in terms of trying to
13 figure out what years these apply to, is it
14 specified in these documents that it is
15 perpetual?

16 A Yes, it is.

17 Q Okay.

18 A Paragraph 18, "This agreement
19 exists in perpetuity."

20 Q Thank you. I appreciate that.
21 Now, in the representation agreements, does it
22 warranty in these representation agreements

1 that the individual party at issue has not
2 already granted these rights to some other
3 entity, like even IPG or the man on the
4 street?

5 A I don't know what a warranty is.

6 Q Certainly. Is there anything in
7 here that says, "I" -- in this case let's call
8 it AFMA -- "I, AFMA, state that I have not
9 given these rights that I am asking the MPAA
10 to pursue to some other guy to pursue"?

11 A No. The representation agreement
12 does not address that question.

13 Q Okay. And so if, in fact, that
14 had happened, this agreement doesn't provide
15 the MPAA with any ability to get recompense?

16 MS. PLOVNIK: Objection. Your
17 Honor, Ms. Kessler is not an attorney, and she
18 really shouldn't be asked to interpret the
19 legal points of the contracts.

20 CHIEF JUDGE BARNETT: Sustained.
21 But I think she already answered that she was
22 not aware of any such provision in the

1 contracts.

2 MS. PLOVNIK: Thank you.

3 BY MR. BOYDSTON:

4 Q And when approximately did you
5 retire? I only ask because I don't want to
6 ask about questions that you weren't there
7 for.

8 A I know exactly when I retired. It
9 was on my 60th birthday, August 20, 2010.

10 Q Great. Do you recall, were these
11 representation agreements used up until the
12 time that you retired?

13 A I think they were not.

14 Q Do you know when they stopped
15 being used?

16 A No, I do not.

17 Q Okay. Do you have an estimate?
18 Were they only used during these years in
19 question, or were they -- actually, strike
20 that. Let me ask a good question. That's a
21 bad one. We know they were used during these
22 years. Were they used after these years, if

1 you know?

2 A I believe it changed. I don't
3 recall what royalty year.

4 Q Fair enough.

5 A It was close to my retirement.

6 Let's put it that way.

7 Q Okay. So sounds like it went on
8 at least for a few years after this particular
9 time period.

10 A That's correct.

11 Q Okay. Now, with regard to your
12 testimony about the 11,600 titles, do you
13 recall that?

14 A Yes.

15 Q And that is the number of titles
16 -- it's an approximation, I presume, but
17 that's the number of program titles the MPAA
18 says it has a claim for in these proceedings,
19 right?

20 A Listed by year. So that -- I
21 don't want to try to -- I don't want to appear
22 to be disingenuous about the number of works.

1 It depends on how you count. If you put all
2 of them together, there are 11,000 works.
3 However, the same work -- let's just pretend
4 it's MASH -- might have been retransmitted
5 every year.

6 So if you add all of the lists up
7 together, you get MASH four times. But if you
8 don't, you get it once per year. Just so you
9 understand.

10 Q So if we only counted MASH once,
11 and other programs like it -- in other words,
12 not once for 2000, 2001, 2003, et cetera, but
13 just once, period, the 11,600 figure would be
14 much lower, correct?

15 A I don't know that it would be much
16 lower, but it would be lower.

17 Q Because there are a number of
18 programs where there was a claim each year,
19 correct?

20 A Correct.

21 Q Okay. When you put this list of
22 11,600 together, that is obviously a big list,

1 correct?

2 A Yeah.

3 Q Okay. And was it reduced to an

4 electronic format for ease of use?

5 A Yes.

6 Q Do you know why that electronic

7 format was never produced to IPG in discovery?

8 MS. PLOVNICK: Objection. The

9 Judge has already ruled that MPAA was only

10 required to produce a paper copy of its

11 exhibits in discovery if the -- the order I

12 believe mentioned it, in fact, and this seems

13 to be an attack on that order.

14 CHIEF JUDGE BARNETT: The

15 objection is sustained. Ms. Kessler was not

16 -- is not counsel and was not privy to the

17 decisions made by counsel, Mr. Boydston, so

18 that was not an appropriate question.

19 MR. BOYDSTON: Okay.

20 BY MR. BOYDSTON:

21 Q Now, in terms of compiling the

22 list, which that you do have, that was your

1 job, you did do that of course, right?

2 A Yes.

3 Q I understand the first step was to

4 analyze the program title information, is that

5 right?

6 A What process are we -- are we

7 still talking about the production of the

8 appendix?

9 Q No. I apologize. What I'm

10 talking about is your process of coming up

11 with the 11,600 titles.

12 A For the exhibit?

13 Q No. Let me back up. I'll start

14 all over, start from scratch.

15 A Okay.

16 Q My understanding is you used MPAA

17 -- you used data to come up with the list of

18 11,600 program titles, correct, to use --

19 A I did that only for the purpose of

20 this hearing.

21 Q Oh, okay. I thought that in

22 helping with the MPAA study you came up with

1 the program titles list, correct? No?

2 A For what purpose?

3 Q The purpose of assisting the MPAA

4 in putting together its study for this matter.

5 I apologize, it's --

6 A Ask me again. I'm sorry. I'm --

7 Q That's quite all right. That's

8 quite all right. As you know, the MPAA is

9 offering a certain methodology in these

10 proceedings, correct?

11 A I believe so.

12 Q And as I understand it, sort of

13 Step 1 in that process was the MPAA had to

14 figure out a comprehensive list of all of the

15 programs for which it would seek royalties in

16 this proceeding. And somebody had to figure

17 out --

18 A Oh, okay.

19 Q -- how do we know --

20 A So you are talking about the

21 appendix in my direct testimony of the works

22 that we --

1 Q Yes.

2 A -- are claiming. Okay.

3 Q Right. That list of 11,600

4 titles.

5 A Okay.

6 Q And you put that together,

7 correct?

8 A Yes.

9 Q And --

10 A Let me take that back. I did not

11 do that. I did not do that.

12 Q Do you know who did?

13 A I believe counsel put it together.

14 Q Okay. Did you provide information

15 to counsel so they could do it?

16 A Yes.

17 Q Okay. And what information --

18 A You know, I'm blanking on who did

19 it.

20 Q That's quite all right.

21 A Just give me --

22 Q Take a minute.

1 A -- a minute.
 2 Q Sure.
 3 A Just give me a minute and let me
 4 figure out who did it, because it was I think
 5 roughly a year ago. I honestly don't recall
 6 whether it was counsel or I who did it.
 7 Q Okay. Do you remember at some
 8 point trying to cobble together information to
 9 get that list together or to assist?
 10 A Assist.
 11 Q Okay. And how did --
 12 A Can I confer with counsel?
 13 Because I can get the answer quickly. I just
 14 don't remember.
 15 Q Well, let me withdraw that
 16 question just for a minute, and let me ask you
 17 this. Do you recall whether or not you looked
 18 at certain information to either put the list
 19 together or just assist? I'm really not so
 20 concerned with whether you did it or you
 21 assisted.
 22 I'm just wondering, where did the

1 information come from to begin with? What was
 2 the fount of knowledge, if you will? Is
 3 there, you know -- was there a big stack of
 4 papers you looked through or files or
 5 something like that? Maybe the contracts
 6 themselves?
 7 A Wouldn't have been the
 8 representation agreements. It may have been
 9 the certifications of entitlement --
 10 Q Okay.
 11 A -- because those would list, with
 12 the exception of anything lined out, those
 13 would provide the works for which MPAA is
 14 claiming remuneration.
 15 Q Okay. There was a statement in
 16 some of the MPAA papers that talked about
 17 someone doing independent research on this
 18 question to try and figure out if there were
 19 additional titles that should be included in
 20 the MPAA's list.
 21 A Correct.
 22 Q Do you recall doing that, or

1 anyone else doing that?
 2 A I've done some of that actually,
 3 yes.
 4 Q Okay. And what was that
 5 independent research?
 6 A Sometimes we would have works that
 7 we felt like there should be a claimant for,
 8 but we were not aware that our client had
 9 asserted a claim for it. And, unfortunately,
 10 I don't remember the name of the company, but
 11 it used to be called BIB, and MPAA had a
 12 subscription to whatever the new company's
 13 name is to see the producer and syndicator of
 14 a work. And we would often go to that source
 15 and see if the syndicator or the producer was
 16 one of our claimants.
 17 Also, and this was just -- I don't
 18 know if it's fortuitous, but whatever -- I
 19 speak Spanish, and there are a lot of English
 20 language movies that are broadcast in Spanish,
 21 either dubbed or subtitled. And so there was
 22 a -- and, unfortunately, the foreign language

1 title may frequently have nothing to do with
 2 the American language title.
 3 So it's not a matter of
 4 translation. It would be a matter of looking
 5 at who the actors were, the production year,
 6 et cetera. And so if I saw something that had
 7 Paul Newman and whoever, and I knew the
 8 American language, and I could sort of figure
 9 out, I would match those together, see if
 10 there was an MPAA claimant, and assign it to
 11 that company to see if they could take credit
 12 for it.
 13 Q And what materials did you get
 14 such information from? Like, for instance, in
 15 your example, where would you see a Spanish
 16 title and information about the actors that
 17 you would then use to try and do the inquiry
 18 you just described?
 19 A Those would be works on the
 20 retransmitted stations, from their program
 21 logs.
 22 Q So you'd get that information from

1 retransmitted stations program-wise.
 2 A Correct.
 3 Q And where does one get a
 4 retransmitted -- I know the answer, but where
 5 does --
 6 A You want to see if I know the
 7 answer.
 8 Q Well, I know you do, too, but I
 9 want to sure everybody else does. Where does
 10 one get a retransmission log on -- that you
 11 just described?
 12 A A television station log?
 13 Q Yes.
 14 A I don't know how many sources
 15 there are for that information. We purchased
 16 ours from Tribune Media, which was previously
 17 known as TV Data. I'm not sure which company
 18 name was appropriate or --
 19 Q Okay. So those --
 20 A -- at that time.
 21 Q It was materials like that that
 22 you used to do this independent research.

1 A Correct.
 2 Q Okay. Do you know whether or not
 3 those documents were ever produced in
 4 discovery in this matter to IPG?
 5 A I do not know.
 6 Q Okay. Now, once you did these
 7 various things, the independent research,
 8 et cetera, and you decided, gee, I think these
 9 make the list of 11,600, I believe the next
 10 thing was to send out the certification
 11 notices, correct?
 12 A Correct. But we didn't do it all
 13 four years at one time. So to say I did it
 14 four years in a row with that many titles
 15 overstates what we did.
 16 Q Okay. Why don't you just tell us
 17 what you did.
 18 A We compiled the list of works that
 19 we believe were attributable to our claimants,
 20 and we sent them the certification documents
 21 as I have described before, the first one on
 22 top of -- I'm sorry, I don't remember what

1 exhibit this was, but --
 2 Q 501.
 3 A 501 is the certification. So we
 4 sent them a document that consisted of two
 5 parts, the certification page and a page
 6 listing the works that we believed were
 7 attributable to their company. We told them
 8 to cross out anything that didn't belong to
 9 them, and also to bring our attention -- my
 10 attention -- to anything they thought we had
 11 missed.
 12 Q Okay.
 13 A So that we could doublecheck, see
 14 if we had missed something, and make sure that
 15 it was included.
 16 Q And the first -- let's take the
 17 first certification on 501, because it's easy
 18 and at the top. The second page, that is the
 19 program list that you referred to. This one
 20 only has two, I believe, but I believe the
 21 program list is Miss Hawaiian Tropic
 22 International Pageant, and Miss Hawaiian

1 Tropic United States Pageant. Is that the
 2 "program list" you refer to?
 3 A Yes, it is.
 4 Q So the idea is you send this to
 5 these folks, and they see that and they say,
 6 "Okay. I'll cross it off if it's not mine.
 7 If it's not mine, I'll keep it the way it is
 8 and send it back."
 9 A That's the understanding, yes.
 10 Q Okay.
 11 A And sign the piece of paper --
 12 Q Right.
 13 A -- attesting to the bona fides to
 14 claim the works.
 15 Q Okay. Was there any concern that
 16 by sort of suggesting to these people that
 17 these were their programs you might just get
 18 someone who doesn't cross them out, because
 19 they just think "Hey, it's free money, it's a
 20 free claim, I'll take it"?
 21 A There is always a concern about
 22 something like that. But we trust that there

1 are more honorable people and corporations
2 than not.

3 Q Okay. Do you ever have situations
4 or -- strike that. Still looking back at the
5 same document, in the same two pages, it
6 doesn't look -- what if they only owned it for
7 part of the year? Does this take account for
8 that or --

9 A It doesn't. But we did have a way
10 of -- let me think. I know we had
11 circumstances where one claimant might own a
12 work for a portion of the time, and a second
13 claimant would pick it up for the remainder of
14 the year, something like that. And if they
15 told us about that, we were able to allocate
16 the royalties according to what information
17 they called our attention to.

18 Q Okay. And what about a situation
19 where maybe like the Miss Hawaiian Tropic
20 owner only owned the rights in a certain
21 region. Did you have a way of dealing with
22 that?

1 A When I think of region, I think of
2 worldwide royalties, but that's a term of art.
3 I am not aware, in my experience, that more
4 than one syndicator would have different --
5 would be authorized to distribute in different
6 markets. I'm not saying it's not so; it's
7 just not in my experience.

8 Q And this document doesn't really
9 do anything to make that determination as far
10 as we can see.

11 A No, it doesn't.

12 Q Okay. So like here, it happens to
13 be Hawaii. Let's say this person only owned
14 the rights in Hawaii. You would go ahead and
15 make the claim for rights across the United
16 States.

17 A I don't think that --

18 Q I realize that is hypothetical,
19 but --

20 A -- circumstance is not -- not
21 likely to transpire.

22 Q I understand. If it were, that

1 would be the case, but it's unlikely, correct?

2 MS. PLOVNIK: Objection. This
3 calls for speculation.

4 CHIEF JUDGE BARNETT: Sustained.

5 BY MR. BOYDSTON:

6 Q Now, as I understand it, the
7 certification report is only asking about
8 claims broadcast on U.S. stations, correct?

9 A Correct.

10 Q And is this one of the reasons why
11 in your testimony you said you excluded
12 Canadian and Mexican station broadcasts?

13 A And public television, yes.

14 Q Okay. And why did you think it
15 was appropriate to exclude Mexican and
16 Canadian broadcasts?

17 A I hate to say it's the way it has
18 always been done. Essentially, that's it. We
19 have -- MPAA has, throughout the years,
20 asserted for -- we get a tiny bit of indirect
21 allocation from Canadian stations, but it is
22 not a direct payment or one that can be pinned

1 to specific works or even specific stations.

2 Q Okay.

3 A But we don't get an allocation for
4 anything on Mexican stations and not for
5 public television stations.

6 Q Do you understand that Canadian
7 broadcasts of U.S.-owned material is
8 compensable in this proceeding?

9 A I understand that there is a
10 minute amount of programming that is
11 compensable, yes.

12 Q And that minute amount is where it
13 was broadcast by a Canadian station, picked up
14 by a U.S. cable system operator, and the
15 material itself was owned by an American, is
16 that correct?

17 A I don't have that much
18 information.

19 Q Okay. Is it fair to say you don't
20 have enough information to say yes or no to
21 that question?

22 A That's correct.

1 Q Okay. Now, the certifications are
2 -- once again, these certifications, you only
3 receive the certifications from agents like
4 AFMA, not the parties they contract with,
5 correct?

6 A That's correct.

7 Q Okay. And so you have AFMA
8 saying, "Yes, we know that Bennett has these
9 rights," but nothing from Bennett, although
10 you said Bennett -- you actually had a phone
11 call with them, so Carolco, I'll say. AFMA is
12 saying, "We, AFMA, have a right for the
13 programming of Bennett." But you have no
14 certification with Bennett -- with Carolco
15 saying, "We have the right," correct?

16 MS. PLOVNICK: Objection. This
17 calls for speculation. Ms. Kessler testified
18 about one claimant. He is asking for a
19 generalization as to the whole group. She has
20 already testified as to Bennett having a
21 specific telephone conversation. I don't know
22 that it is a generalized statement that can be

1 made to the whole group.

2 CHIEF JUDGE BARNETT: Overruled.

3 MR. BOYDSTON: And I think I asked
4 the question twice, so I apologize to
5 everybody.

6 BY MR. BOYDSTON:

7 Q I think in the case of Carolco
8 there is no agreement with -- there is no
9 certification from Carolco. The certification
10 comes from AFMA, correct?

11 A That is correct.

12 Q And your understanding is that is
13 the way it is done for all of the parties that
14 the MPAA has contracts with where they
15 represent other parties, too.

16 A Not just my understanding; it's a
17 fact.

18 Q Yes. Okay. Thanks. Now, are you
19 aware that there are programs within these
20 certifications that are not being claimed by
21 the MPAA in this proceeding?

22 A No, I'm not.

1 Q Okay. Do you -- well, strike
2 that. Now, you don't have a background in
3 statistics, I understand.

4 A I have coursework in statistics.

5 Q Okay. And how much coursework in
6 statistics?

7 A Two courses.

8 Q And how long ago was that?

9 A A thousand years. Let me think.
10 I'm going to guess the early '90s.

11 Q Okay. Do you consider yourself to
12 be -- to have an ability to handle statistics?
13 In other words, let me ask, I don't believe
14 you hold yourself out as an expert in
15 statistics, correct?

16 A Definitely not.

17 Q Okay. Do you feel like you have
18 an ability to use statistics and handle
19 statistics?

20 A Not comfortably.

21 Q Okay. Me neither. That's why I'm
22 a lawyer.

1 A I was just going to say also, in
2 the course of my ESL training, I had to take
3 a testing course. So I have actually had
4 three courses in statistics, and I didn't like
5 any of them.

6 Q Okay.

7 A They were wretched.

8 Q Fair enough.

9 A With all due respect to the bench.

10 Q Now, you have been part of these
11 proceedings for a long time, correct?

12 A Yes, I have been.

13 Q And I'm not going to ask your
14 legal opinion, Scout's honor, but after they
15 conclude they usually publish some kind of a
16 ruling or a decision, right?

17 A That's correct.

18 Q And do you tend to read those
19 after they come out?

20 A I think I've read most of them,
21 yes.

22 Q Okay. Based on that, and not on a

1 legal conclusion, but just based on the fact
2 that -- having read these, have you noted
3 before that there have been times when the
4 decisions have suggested that the MPAA maybe
5 should have more stations in its surveys?

6 A I believe the '97 proceeding said
7 that -- I'm just trying to remember if any
8 after that stated that.

9 Q Okay.

10 A I know the '97 proceeding did.

11 Q Were you working at the MPAA when
12 the 1983 proceedings went on? That's --

13 A Yes.

14 Q Okay. I didn't know if -- that
15 was a ways back. Do you recall that in the
16 1983 proceedings the MPAA used 117 stations in
17 its survey?

18 A I don't recall.

19 Q Okay. Does that number sound
20 about right or --

21 A Don't recall.

22 Q Okay. Fair enough. Do you recall

1 that back in '83 there were about 622
2 retransmitted stations carrying MPAA material
3 at the time?

4 A I have no recollection of that.

5 Q Okay. Now, during this time
6 period, 2000 to 2003, do you have a general
7 notion as to how many retransmitted stations
8 carried MPAA material?

9 A I would think all of them did.

10 Q Okay. So probably something on
11 the order of 900. Does that sound correct?

12 A I have no idea.

13 Q Okay. Now, I think for the first
14 year here, 2000, you end up picking or coming
15 up with a list of 81 stations, correct?

16 A Yes.

17 Q Okay. And how did you decide what
18 a minimum amount of stations should be? Well,
19 I think I -- it was asked in your direct, and
20 you said you used your intuition. Is that
21 correct?

22 A That's correct.

1 Q Okay. Is it your feeling that --
2 I think the highest number of these four years
3 was 2003 when you used a list of 125 stations,
4 correct?

5 A Bear with me here.

6 Q Sure. Okay.

7 A Yes. It went from 81 stations in
8 2000 to 125 in 2003.

9 Q And is it accurate that 125 in
10 2003 started out as 128, but you had to -- you
11 took off three stations because they had 100
12 percent zero viewing, does that ring a bell?

13 A That does ring a bell.

14 Q Okay. And so what happened was
15 you had 128, but when you looked at them there
16 were three stations that just had a complete
17 blank line, right?

18 A I didn't see the data myself. I
19 believe that Nielsen advised me that there was
20 no viewing -- distant cable viewing for those
21 stations.

22 Q Okay. Based on having done this

1 for these different years, have you observed
2 that if you have fewer stations you pick up
3 fewer programs?

4 A No.

5 Q Are there some times when you have
6 fewer stations but you pick up more programs?

7 A I don't know.

8 Q Okay. When you got together the
9 Nielsen data in this proceeding, do you recall
10 when approximately it was that you ordered
11 this data for 2000 to 2003 from Nielsen?

12 A I can recall, I think, that it was
13 certainly after the fact, meaning after the
14 royalty years, by several years for each
15 sample, for each study. But I don't recall
16 specifically.

17 Q Okay. I seem to recall that you
18 also told Nielsen you wanted them to segregate
19 certain things, because you wanted certain
20 counties only and not other counties. Why was
21 that again?

22 A The Nielsen data -- Nielsen takes

1 measurements to TV stations on a county-by-
2 county basis. But the distinction between
3 distant and local is appropriate only for the
4 people in this room and the claimants we
5 represent. So there has to be a mechanism by
6 which Nielsen knows where not to measure
7 because it would be local viewing.

8 So the county analysis that I
9 referred to identifies for each station the
10 local counties, so that when Nielsen does its
11 measurements the measurements that it gets
12 filter out local viewing, so that only distant
13 cable viewing is captured.

14 Q And I think that local viewing is
15 -- there is a term of art, I believe.
16 Sometimes people refer to the FCC footprint.
17 Are you familiar with that?

18 A I am not.

19 Q Oh, okay. Is it fair to say that
20 you don't know what the FCC footprint is?

21 A Not a clue.

22 Q Okay. Then I won't ask you about

1 it.

2 Who would you describe, if you
3 could, as the architect of the MPAA viewer
4 study? Who is the person most in charge of it
5 as far as you would say?

6 A Well, you have asked two different
7 questions.

8 Q Sorry.

9 A You didn't realize it. The
10 architect is the late Alan Cooper. He was my
11 supervisor when I came to MPAA in the '80s,
12 and it was he who -- he certainly didn't do
13 the programming, but he had the concept of
14 doing it. And then the person who perpetuated
15 it, meaning selecting the sample stations and
16 commissioning the studies, was I.

17 Q That was who?

18 A Me.

19 Q Oh. It was you. Okay. Do you
20 know when Mr. Gray was engaged for this
21 proceeding?

22 A I do not.

1 Q Who directed you to order the
2 Nielsen data?

3 A It was my job to do that.

4 Q Okay. And you just knew that you
5 had to do that, no one had to say, "Ms.
6 Kessler, order that Nielsen data"?

7 A No. It was part of my
8 responsibility.

9 Q Okay. Are you able to explain the
10 MPAA viewer study to the Judges?

11 A I don't know.

12 Q Well, do you want to give it a
13 try?

14 A Yes. Let's see. Okay. I send
15 Nielsen a list of the stations, and I tell
16 them, "Don't measure viewing -- for Station 1,
17 don't measure viewing in these counties
18 because it is local. Only measure viewing
19 outside these counties." So that's one
20 instruction.

21 A second instruction is, "Put the
22 programming in -- put each program in one of

1 eight categories representing the eight
2 categories here before the Judges. Give us
3 the answers." I think that's it.

4 Q Thank you. I believe that you
5 asserted in your -- it may have been in your
6 written testimony that viewing, as measured by
7 Nielsen, is the predominant standard by which
8 all television programming is commercially
9 evaluated.

10 A That's correct.

11 Q And what is the basis -- or,
12 excuse me, strike that. Have you ever been
13 involved with the U.S. -- excuse me. Have you
14 ever been involved with U.S. television
15 syndication of a program?

16 A No.

17 Q Okay. Then, is your statement
18 that viewership is the basis for commercial
19 evaluation of television programming based on
20 conjecture?

21 A Based on just experience and --
22 not direct experience but knowledge of the

1 syndication industry.

2 Q Okay. Once again, going back to

3 some of the rulings that have been set down

4 over the years by the different panels that

5 have come and gone -- and, again, not asking

6 for a legal conclusion -- but do you just

7 remember from reading those that at times

8 there has been criticism of viewership-based

9 studies?

10 A I am aware of that.

11 Q Okay. Has there ever been any

12 discussion at the MPAA of looking for a

13 different approach, other than viewership-

14 based studies?

15 A For purposes of royalty

16 distribution, no.

17 Q Okay. Obviously, it has never

18 been done, but in addition to that, it has

19 never even been considered?

20 A Not during my tenure there.

21 Q Okay. You'll recall the last

22 Phase 2 proceeding was some time ago, and I

1 think you testified in it. That was for the

2 '97 royalty year, correct?

3 A Yes, that's correct.

4 Q And do you recall that the

5 decision that came out by the CARP made

6 comments about zero viewing -- the incidence

7 of zero viewing in the MPAA study. Do you

8 recall that?

9 A I recall that.

10 MR. HARRINGTON: Objection. Your

11 Honor, he's asking about a decision that was

12 vacated, so I don't think it's appropriate to

13 be questioning what the provisions of a

14 vacated decision are.

15 MR. BOYDSTON: If I may be heard

16 just on one thing. It was vacated. However,

17 it was by the Librarian, not the CARP. And

18 when the Librarian did it, it put in there in

19 text, "We vacate the decision, but not the

20 logic hereof." That's in the decision in

21 black and white.

22 CHIEF JUDGE BARNETT: Overruled.

1 BY MR. BOYDSTON:

2 Q In this proceeding, and in putting

3 together the MPAA study for this proceeding,

4 do you know whether or not the MPAA discussed

5 ways to reduce the incidence of zero viewing

6 in the study?

7 A We did not discuss it, and we did

8 not consider that it was a problem.

9 Q Okay. Now, you explained that one

10 of the things you worked on was what you

11 called an overlap between MPAA claimed

12 programs and IPG claimed programs --

13 A Correct.

14 Q -- correct? With regard to the

15 BEC, which we have discussed previously, they

16 were claimed as a program -- their programs

17 were claimed by Fintage, correct?

18 A I believe, yes.

19 Q Okay. And they are also claimed

20 by IPG, correct?

21 A Correct.

22 Q Did you ever ask Fintage to

1 validate its claims on behalf of the BEC? Or

2 do you know if anyone else did at the MPAA?

3 A I want to back up just a second,

4 and then I promise to respond to your

5 question.

6 Q No problem.

7 A Amongst syndicators, there are

8 many companies with different but similar

9 names. BEC is one of them. There is BEC

10 Worldwide, which is the entity that I believe

11 operates outside of the United States, and BEC

12 America.

13 So when you say BEC, like there

14 are three companies called Freemantle, but

15 they don't have anything to do with each

16 other. So I think it is important that we be

17 specific about which entity we're referring

18 to.

19 Q Let me withdraw the question on

20 BEC, then. Let me ask the same question with

21 regard to Reel Media. And to make the record

22 good, I'll start from scratch on the question.

1 Do you know whether or not the MPAA ever asked
2 Fintage to validate that it was permitted to
3 assert claims and try to collect claims on
4 behalf of Reel Media?

5 A We did not make that effort.

6 Q Do you understand from these
7 proceedings that in fact Fintage's claim on
8 behalf of Reel Media has been disavowed by
9 Reel Media?

10 A Yes, I'm aware of that.

11 Q Are you familiar with the entity
12 -- I think you mentioned it -- strike that.
13 Didn't you mention something about Farm
14 Journal -- what's their name? Farm Journal
15 Electronic Media, do you recall them?

16 A Yes. It's my last appendix in my
17 rebuttal testimony.

18 Q Okay. And that was an entity, I
19 think you said, where there was an overlap
20 between IPG and MPAA, correct?

21 A Correct.

22 Q Okay. I'd like to present what

1 I'd like to mark as Exhibit 503. And this one
2 is not voluminous, I'm happy to say. I'm
3 sorry, 502. The first one was 500.

4 I apologize, Your Honor.

5 (Whereupon, the above-referred to
6 document was marked as IPG Exhibit
7 No. 502 for identification.)

8 Let me ask you to take a look at
9 that, and let me know if you have seen that
10 before.

11 MR. HARRINGTON: Do you have one
12 for us?

13 MR. BOYDSTON: Sure.

14 THE WITNESS: Well, this catches
15 me by surprise.

16 BY MR. BOYDSTON:

17 Q Okay. And why is that?

18 A I have never seen it before.

19 Q Okay. And would you agree that it
20 is clear from this document that in fact
21 although Farm Journal will have an overlap --
22 there are overlapping claims for Farm Journal,

1 Farm Journal seems to be making pretty clear
2 that it's IPG who has got them, right?

3 A They certainly say, "Disregard the
4 previous correspondence."

5 Q Right. And I ask you this in part
6 because you remembered Farm Journal in your
7 direct independently, so I'm wondering if you
8 might have a few other memories. Do you know
9 whether or not the MPAA ever confirmed --

10 MS. PLOVNICK: Objection. Ms.

11 Kessler didn't remember it independently.

12 That's a mischaracterization of her testimony.

13 CHIEF JUDGE BARNETT: Sustained.

14 BY MR. BOYDSTON:

15 Q Okay. With regard to Farm
16 Journal, do you recall whether or not the MPAA
17 ever tried to validate with Farm Journal that
18 in fact Farm Journal wanted its rights pursued
19 by the MPAA or one of its agents?

20 MS. PLOVNICK: Objection. Ms.

21 Kessler never testified that MPAA represents
22 Farm Journal. It is also not on the list of

1 claimants.

2 MR. BOYDSTON: I thought I heard
3 -- oh, sorry.

4 CHIEF JUDGE BARNETT: Well, there
5 was testimony that there was an overlap in
6 claims.

7 MS. PLOVNICK: No, Your Honor.
8 There was testimony that they separately had
9 notified the Judges that they terminated IPG,
10 not that MPAA represented --

11 CHIEF JUDGE BARNETT: That might
12 be your memory of the facts, but that's not
13 the testimony. The testimony -- the question
14 was, were there overlapping claims, and Ms.
15 Kessler said there were. And then Mr.
16 Boydston began in with examples. And if this
17 is not an example of overlapping claims, then
18 we do need to clarify that for the record.

19 MS. PLOVNICK: I'm sorry. I was
20 referring to her direct testimony. So, but
21 perhaps a clarification is -- and I can do
22 that on redirect if you would like.

1 CHIEF JUDGE BARNETT: Or Mr.
2 Boydston can clear it up, if he cares to. But
3 I will leave it in your hands.

4 THE WITNESS: I'm confused.

5 BY MR. BOYDSTON:

6 Q Do you know whether or not the
7 MPAA ever made a claim for the programming
8 that is owned by Farm Journal?

9 A MPAA does not assert claims at the
10 Copyright Office level. We don't file claims.
11 And to my knowledge, this is the first time
12 Farm Journal's programming has been subject to
13 litigation before whatever body.

14 Q Okay. So I think it's probably,
15 then, fair to say that you are not aware of
16 the MPAA at any time ever trying to say --
17 confirm with the folks at Farm Journal that
18 the MPAA had a right to pursue their rights.
19 It sounds like you don't think they --

20 A I can tell you that we became
21 aware of their claims when they filed their
22 own claims. And we I think had once talked

1 about the fact that, did they want MPAA
2 representation? My recollection, though it
3 may be faulty, is that they thought that they
4 were represented by IPG, and I don't recall
5 that a representation agreement was ever
6 executed with them.

7 Q Okay. Let me ask you about Martha
8 Stewart Living.

9 A Okay.

10 Q Do you recall that programming?

11 A Yes.

12 Q And do you recall that -- and I
13 think it was affirmed by you, but that's why
14 I'm asking, to make sure, that IPG affirmed
15 its representation of Martha Stewart for the
16 year 2000, does that sound familiar?

17 A Are you asking, were these
18 overlapping claims?

19 Q No, not exactly.

20 A Help me out just a little bit.

21 Q Not exactly. Do you recall --
22 were you ever shown -- I'll represent to you

1 that IPG produced to the MPAA a copy of an
2 agreement with Martha Stewart Living. Did you
3 ever see such a document?

4 A It's possible, but I don't recall
5 specifically.

6 Q Okay. Are you aware as to whether
7 or not the MPAA has ever produced or has a
8 document with Martha Stewart Living, has an
9 agreement with them? Sorry.

10 A Has an agreement? I would think
11 there would be one in here.

12 Q Okay. And the one in here would
13 be redacted like this one probably, right?

14 A Certainly.

15 Q Okay. And so do you know, or do
16 you recall whether or not it was affirmed by
17 IPG that IPG had a contract with Martha
18 Stewart Living for the year 2000?

19 A I don't know what IPG did.

20 Q Okay. To your knowledge, Martha
21 Stewart Living has never terminated -- sent a
22 termination letter to IPG, has it?

1 A I don't know.

2 Q With regard to the United States
3 Olympic Committee, do you know whether that
4 entity has ever asserted that the claims made
5 by IPG in these proceedings are claims that
6 should have been made by the MPAA?

7 A Say that again.

8 Q Do you know whether or not the
9 USOC has ever said that it should be the MPAA
10 making claims on its behalf, not IPG making
11 claims on its behalf?

12 A We have a representation agreement
13 with them, and I believe there is a letter
14 from them terminating their agreement with
15 IPG.

16 Q And would that be included in
17 Exhibit 500, the redacted representation
18 agreements?

19 A No. The letter that I'm referring
20 to?

21 Q I'm sorry. No, I wasn't referring
22 to the letter. I was referring to -- and you

1 brought up the letter, I understand that.
2 What I'm asking you is, does the MPAA have a
3 contract, like a certification or a
4 representation agreement, with the USOC? I'm
5 sorry.

6 A I believe there should be one
7 there.

8 Q Okay. And redacted like the rest
9 of them, I presume?

10 A Correct. I'm saying correct. I
11 don't know what the redaction process was.
12 But to the extent that they are all redacted,
13 so what's true for one is true for all.

14 MR. BOYDSTON: Thank you. Nothing
15 further.

16 CHIEF JUDGE BARNETT: This is
17 probably a good time for us to take our
18 afternoon recess, so we will do that. We will
19 be at recess for 15 minutes.

20 (Whereupon, the proceedings in the
21 foregoing matter went off the
22 record at 2:15 p.m. and went back

1 correct. And, actually, 500 was admitted as
2 a restricted document. So 501 and 502 are
3 admitted.

4 (Whereupon, the above-referred to
5 documents, previously marked as
6 IPG Exhibits Nos. 501 and 502 for
7 identification, were admitted into
8 evidence.)

9 MR. BOYDSTON: Thank you, Your
10 Honor.

11 Now, Your Honor, I was instructed
12 by my staff, who was instructed by Lakeshia
13 Keys, to present these here today at this
14 hearing.

15 CHIEF JUDGE BARNETT: Correct.
16 Thank you.

17 MR. BOYDSTON: And then the last
18 housekeeping matter, Your Honor, is this.
19 With regard to exhibits that have been
20 attached to the documents already filed with
21 the Court, meaning the direct statements and
22 the rebuttal statements, may we refer to those

1 on the record at 2:39 p.m.)

2 CHIEF JUDGE BARNETT: Thank you
3 for your patience. I'm afraid we ran over a
4 bit.

5 Mr. Boydston, you are on your
6 feet.

7 MR. BOYDSTON: Your Honor, may I
8 approach briefly?

9 CHIEF JUDGE BARNETT: Yes.

10 MR. BOYDSTON: I have a couple of
11 housekeeping things. But, first, I wasn't
12 sure if I had done it, and I just wanted to
13 ask -- I wanted to move to admit Exhibits 500,
14 501, and 502 into evidence. I think I had
15 them marked but not admitted.

16 CHIEF JUDGE BARNETT: Any
17 objection, counsel?

18 MS. PLOVNICK: Only the previous
19 qualification that 500 is subject to the
20 protective order, and I believe that was
21 already on the record.

22 CHIEF JUDGE BARNETT: That's

1 exhibits as they are attached to those
2 documents? Or do we need to have fresh copies
3 all around?

4 CHIEF JUDGE BARNETT: They are
5 attached to the testimony, the written direct
6 testimony, the written rebuttal testimony.
7 Let's just keep them -- we accepted Ms.
8 Kessler's testimony with the appendices to it,
9 and, you know, that is now in evidence. It
10 was admitted as a whole, so --

11 MR. BOYDSTON: Like, for instance,
12 if I refer to exhibits that are attached to
13 the rebuttal testimony of Mr. Galaz that has
14 been previously filed with the CRB, with the
15 Panel, do I need to have a new copy of that?
16 Or can I rely on the fact that the Judges have
17 the copies we filed in the normal course?

18 CHIEF JUDGE BARNETT: We have the
19 copies. Please don't provide us with more
20 paper.

21 MR. BOYDSTON: That was my
22 thought, but I --

1 CHIEF JUDGE BARNETT: Okay.

2 MR. BOYDSTON: -- saw that the

3 MPAA had new stuff, and I didn't know if I

4 should, too.

5 CHIEF JUDGE BARNETT: You don't

6 need to, as long as we are all clear and we

7 know what we are referring to.

8 MR. BOYDSTON: Great. Thank you.

9 CHIEF JUDGE BARNETT: Okay.

10 MS. PLOVNIK: Brief redirect,

11 Your Honor.

12 CHIEF JUDGE BARNETT: Yes. Well,

13 first, let me ask if there is any cross-

14 examination from the Settling Devotional

15 Claimants.

16 MR. HARRINGTON: No, Your Honor.

17 CHIEF JUDGE BARNETT: Okay. Now,

18 Ms. Plovnick.

19 MS. PLOVNIK: Thank you, Your

20 Honor.

21 REDIRECT EXAMINATION

22 BY MS. PLOVNIK:

1 Q Hello, Ms. Kessler. First, I

2 wanted to clarify, does MPAA file claims on

3 behalf of --

4 A We do not.

5 Q And did all of the entities on

6 Appendix B to MPAA Exhibit 358 file a claim

7 with the Copyright Office --

8 A Yes, they did.

9 Q -- for the particular royalty year

10 indicated?

11 A Yes, they did.

12 Q And as a part of filing that

13 claim, did they have to attest that they had

14 authority to file the claim on behalf of any

15 joint claimant they may have filed on behalf

16 of?

17 A I believe that language is in the

18 claim language.

19 Q And then, again, when they signed

20 a representation agreement with MPAA, there is

21 a provision which you talked about previously

22 regarding representation of entities on joint

1 claims.

2 A That's right.

3 Q That's correct? So is it your

4 understanding that the entities that signed

5 representation agreements with MPAA had

6 attested their authority to represent

7 underlying claimants on joint claims?

8 A Yes, it is.

9 Q All right. The MPAA

10 representation agreement is perpetual,

11 correct?

12 A Yes, it is.

13 Q And you talked a little bit about

14 the 1997 proceeding and the Phase 2 order in

15 that proceeding. Do you know when that order

16 came out, the date of it?

17 A I don't recall.

18 Q Was it December 26, 2001?

19 A If you assert to me that it was, I

20 will accept your word.

21 Q Do you know if that decision was

22 appealed?

1 A Yes, I do.

2 Q Do you know when the appeal was

3 resolved?

4 A I do not.

5 Q Would it be April 2004?

6 A It might be.

7 Q It might be. All right. Did any

8 action that MPAA may have taken in regard to

9 those rulings, would that have been after the

10 appeal was resolved, or after the decision

11 came out, or later?

12 A All are possible. I don't know.

13 Q But it would certainly have not

14 been prior to a decision --

15 A Correct.

16 Q -- correct?

17 A Absolutely.

18 Q All right. I wanted to clarify --

19 Farm Journal Electronic Media, is it your

20 understanding that MPAA is claiming to

21 represent Farm Journal Electronic Media?

22 A I believe we are not.

1 Q Thank you.

2 A And my apologies for suggesting

3 otherwise.

4 Q With regard to Reel Funds Media,

5 Mr. Boydston asked you questions about them.

6 Are you aware that Fintage filed a withdrawal

7 as to Reel Funds Media?

8 A I have been told that they did.

9 Q And do you know why they did?

10 A I have been told that IPG

11 threatened litigation against Reel Funds.

12 Q And Mr. Boydston also asked you

13 questions about Dr. Gray. Do you know what

14 Dr. Gray did with the diary study that you

15 ordered from Nielsen?

16 A I do not.

17 Q Have you read Dr. Gray's

18 testimony?

19 A I have not.

20 Q So you don't really know anything

21 about Dr. Gray's analysis.

22 A Completely ignorant.

1 MS. PLOVNICK: All right. Thank

2 you. I have no further questions for Ms.

3 Kessler.

4 CHIEF JUDGE BARNETT: Thank you.

5 Mr. Boydston?

6 MR. BOYDSTON: May I have a

7 recross, very briefly?

8 CHIEF JUDGE BARNETT: Very

9 briefly.

10 MR. BOYDSTON: Certainly, ma'am.

11 RECCROSS-EXAMINATION

12 BY MR. BOYDSTON:

13 Q Ms. Kessler, with regard to Reel

14 Funds, you said that all of the entities in

15 your Exhibit B attested that they had the

16 authority to represent those people with whom

17 they had contracts, correct?

18 A Correct.

19 Q Wouldn't you agree with me that in

20 the case of Reel Funds that attestation was in

21 fact false, since they didn't have the

22 authority as it turned out?

1 A So it would seem.

2 Q Fintage didn't have the authority,

3 I mean. Now, if IPG had signed up with the

4 MPAA like Fintage, would IPG have had to have

5 shown the MPAA all of its contracts with all

6 of the entities it represents?

7 A No.

8 MR. BOYDSTON: Thank you.

9 CHIEF JUDGE BARNETT: Any

10 questions from the bench?

11 JUDGE STRICKLER: I have one or

12 two. Ms. Kessler, this goes back to something

13 I had addressed with you before. In your

14 direct testimony, in your written testimony,

15 you list in your chart the number of sample

16 stations on page 12.

17 THE WITNESS: Yes, sir.

18 JUDGE STRICKLER: It varies from

19 year to year, a range of 81 through 125. What

20 was the universe of the number of stations?

21 You sampled on those numbers. What was the

22 universe?

1 THE WITNESS: I don't recall. I

2 heard Mr. Boydston suggest that it may have

3 been in the range of 900 stations.

4 JUDGE STRICKLER: Well, separate

5 and apart from what counsel had said, do you

6 recall? Or does that refresh your

7 recollection?

8 THE WITNESS: I do not recall.

9 JUDGE STRICKLER: Does that

10 refresh your recollection of --

11 THE WITNESS: No, it doesn't.

12 JUDGE STRICKLER: You have no

13 knowledge of this.

14 THE WITNESS: I can find out. I

15 don't know here on the stand.

16 JUDGE STRICKLER: Okay. And with

17 regard to the year 2003, you said originally

18 you had sampled 128 stations, not 125, is that

19 right?

20 THE WITNESS: Correct.

21 JUDGE STRICKLER: And the reason

22 why you reduced it from 128 to 125 was because

1 you had heard from Nielsen --

2 THE WITNESS: Correct.

3 JUDGE STRICKLER: -- that three of

4 those stations showed no viewership

5 whatsoever?

6 THE WITNESS: Correct.

7 JUDGE STRICKLER: Who did you hear

8 from from Nielsen in that regard? Do you

9 know?

10 THE WITNESS: Our contact person

11 changed. I don't recall if it was Mr.

12 Lindstrom, who is going to be here, or

13 somebody named David, whose last name I don't

14 recall. But I know he is not there anymore.

15 But between the two of them, one

16 of them -- and to tell you the truth, I don't

17 even recall if they told us or if we looked

18 and we thought we were missing three stations,

19 and we went back and we said, "We ordered

20 these three stations, but there is no data."

21 And then they said, "Oh, that's because there

22 was no viewing."

1 I don't recall the specific

2 circumstances. I just recall that they did

3 not have any distant cable viewing.

4 JUDGE STRICKLER: Well, in light

5 of the fact that there was no distant -- or

6 despite the fact that there was no cable

7 distance viewing, why did you not just keep

8 the 128 in the number of stations? That's the

9 number that you had selected and it was your

10 selection being given to Nielsen, rather than

11 the other way around.

12 THE WITNESS: It was not a matter

13 of ditching the three stations. It just meant

14 for the purposes of royalty distribution,

15 there would not be a royalty for any claimants

16 who had works on those, because there had to

17 be viewing to the programs in order for the

18 claimant to accrue a royalty.

19 JUDGE STRICKLER: Was there any

20 discussion between you and Mr. Lindstrom, or

21 David, whose last name you don't recall, about

22 eliminating those three, a specific reason as

1 to why you should do that?

2 THE WITNESS: No. There was not

3 any discussion. It is like -- I am just

4 trying to think of an analogy. Zero is zero.

5 So there wasn't anything we could do with it.

6 It's like -- oh, golly. You have to have data

7 in order to generate. You can't generate

8 something out of nothing. You need data to

9 produce a result, and there were no data, no

10 viewing data. So there was no -- there was

11 nothing to work with. Nothing to work with.

12 JUDGE STRICKLER: You considered

13 the zero to mean nothing to work with?

14 THE WITNESS: Correct. It would

15 not result in a royalty to any claimant.

16 JUDGE STRICKLER: So ultimately

17 was it your decision to reduce the number of

18 stations in 2003 in the sample from 128 to

19 125, or was it Nielsen's, or was it a joint --

20 THE WITNESS: It was not a

21 decision. It was a default. There is nothing

22 there. It wasn't a -- they were stricken.

1 They were ordered. If they had had viewing,

2 we would have used them for the distribution

3 of royalties. But the -- there was no purse.

4 There was a purse, but there was

5 nothing in it. There was no basis. There was

6 no data, and so you can't generate something

7 out of nothing. I think I'm not answering

8 your question.

9 JUDGE STRICKLER: Well, if that --

10 you've answered it. If that's your answer,

11 that's fine.

12 THE WITNESS: That's my answer.

13 But if you have a concern, I would love to

14 address it.

15 MS. PLOVNIK: Your Honor, may I

16 ask a clarifying question?

17 CHIEF JUDGE BARNETT: You may.

18 MS. PLOVNIK: Ms. Kessler, when

19 you ordered the data, was it for this

20 proceeding, or was it for an internal

21 distribution of royalties that --

22 THE WITNESS: It was for the

1 internal distribution of royalties and
2 potentially for a Phase 1 proceeding.

3 MS. PLOVNIK: But you did not --
4 you ordered it for your own internal purposes
5 at MPAA when you made the order. That was
6 your primary purpose.

7 THE WITNESS: That's correct.

8 JUDGE FEDER: And when was this?

9 THE WITNESS: I don't recall, but
10 it would have been between one and two years
11 after the royalty year. So if we're talking
12 about the 2000 sample, I most likely would not
13 have ordered it until 2002 at the earliest.

14 CHIEF JUDGE BARNETT: Any other
15 questions? Any questions of counsel based on
16 the questions from Judge Strickler or Judge
17 Feder?

18 (No response.)

19 Okay. Thank you.

20 Thank you, Ms. Kessler. You may
21 step down.

22 THE WITNESS: Thank you.

1 (Whereupon, the witness was
2 excused.)

3 CHIEF JUDGE BARNETT: Mr.
4 Olaniran, you may call -- or, Ms. Plovnick,
5 you may call your next witness.

6 MS. PLOVNIK: MPAA calls Jonda
7 Martin to the stand. We are going to pull her
8 out of the witness room.

9 WHEREUPON,

10 JONDA MARTIN

11 was called as a witness by Counsel for MPAA
12 and, having been first duly sworn, assumed the
13 witness stand, was examined and testified as
14 follows:

15 DIRECT EXAMINATION

16 BY MS. PLOVNIK:

17 Q Can you please state your name,
18 and spell it, for the record?

19 A Sure. Jonda Martin. J-O-N-D-A,
20 Martin, M-A-R-T-I-N.

21 Q Ms. Martin, what is your
22 educational background?

1 A I have an undergrad B.S./B.A. in
2 Business Administration from American
3 University with a concentration in management
4 information systems, and an M.B.A. from
5 University of Maryland.

6 Q And where do you work?

7 A Cable Data Corporation.

8 Q And is there an acronym by which
9 Cable Data Corporation is often referred?

10 A Yes. It's commonly referred to as
11 CDC.

12 Q So what does the CDC do?

13 A We spend a lot of time collecting
14 statements of account here at the Licensing
15 Division, Copyright Office, researching,
16 collecting, aggregating, reporting, analyzing
17 the data as filed.

18 Q And when did you start working for
19 CDC?

20 A Twenty-five years ago.

21 Q And what were your duties and
22 responsibilities at the time you started

1 working at CDC?

2 A Initially, largely at a research
3 and data entry analysis level.

4 Q Did those responsibilities change
5 over time?

6 A They did.

7 Q And what is your current position
8 there?

9 A I currently am owner and president
10 of Cable Data.

11 MS. PLOVNIK: All right. Now, so
12 just for Your Honor, so you -- just so I'm
13 clear, I have additional copies, but you would
14 prefer that I don't give you an additional
15 copy of Ms. Martin's testimony? Because I was
16 going to mark it for the record and distribute
17 and show the witness, but --

18 CHIEF JUDGE BARNETT: I would
19 prefer that you not, except for the fact that
20 I left mine.

21 MS. PLOVNIK: Oh, okay.

22 CHIEF JUDGE BARNETT: So if I

Cable Royalty Funds

**Docket No. 2008-2 CRB CD 2000-2003
(Phase II)**

Direct Testimony of

Paul B. Lindstrom

May 30, 2012

Paul B. Lindstrom
Sr. Vice President
Strategic Media Research

TESTIMONY OF PAUL B. LINDSTROM

My name is Paul Lindstrom. I am a Senior Vice President with Nielsen. I am in charge of research design and analysis for the Nielsen Strategic Media Research group. Nielsen is a global leader in information services for the media and entertainment industries. Nielsen serves the information and marketing needs of television and radio broadcasters, cable networks, advertisers, agencies, media planners, music companies, publishers, motion-picture studios, distributors and exhibitors, and the Internet industry.

I have worked for Nielsen for thirty-four years and have spent the majority of that time designing custom research with a particular focus on new television viewing sources and audience measurement of new services that might compete with television. These have included cable television, pay-TV, satellite services, over-the-air subscription television, VCRs, PC's, on-line services, the Internet, DVDs, cinema, and most recently, place-based and location-based digital networks. I am currently responsible for all national custom research and all custom research for local cable. In my current role, I work with clients to determine the best methodologies to answer their audience research questions. In the television area, these methods can involve either the analysis of existing databases of collected user meter data, local television diary samples, or the development of new databases through the use of new single-

client sponsored data collections. Through the years I have worked on projects as varied as the pre-launch concept tests for ESPN, The Weather Channel and DirecTV, the design of Nielsen's Syndicated Pay Cable, VCR Usage, Syndicated Satellite and Home Technology Reports, the CommerceNet Study of Internet Usage, the Nielsen Cinema Audience Report, and Nielsen On Location Media. I have been involved in all of the studies that the Motion Picture Association of America ("MPAA") has directed Nielsen to conduct for proceedings before the Copyright Royalty Tribunal, the Copyright Arbitration Royalty Panel, and the Copyright Royalty Judges since 1980. Also, I have testified before those bodies.

The Nielsen name is synonymous with television ratings. Ratings are the percent of the universe of households tuned to a TV program during the average quarter hour. Nielsen ratings provide an estimate of television audience size and are a barometer for viewing choices and preferences. Viewing information is important to broadcast networks, local and national syndicated programs, local cable system operators, multi-system cable operators (MSOs), and interconnects. Interconnects are aggregations of cable systems that cover a particular market or region, thus allowing an agency or advertiser to buy a large area at one time without having to negotiate with many different companies.

As more local cable ad sellers sell local advertising time on cable channels, they need an agreed "currency" in order to maximize the value of their advertising time. Nielsen ratings offer that currency. Nielsen's charter as an independent measurement service is to provide both the buyer and seller of time with unbiased estimates of viewing behavior.

SAMPLING TV RATINGS

To set the context of my testimony, I want to take a minute to discuss ratings and sampling. The Nielsen rating you may see reported in newspapers or magazines is simply a statistical estimate of the number of homes tuned to a program. For example, a rating of 15 for a network television program means that 15% of U.S. television homes are estimated to be tuned in to that program. In 2000, approximately 100.8 million U.S. households (98% of the total) had television sets. A rating of 15 meant that an estimated 15.1 million television households tuned in:

Equation for determining viewing households:

Rating x Total Television Households = Viewing Households

$$.15 \times 100.8 \text{ million} = 15.1 \text{ million}$$

Note that when we described the rating, we used the words "statistical estimate." Ratings are based not on a count of all television households, but on the count within a sample of television households selected from all television households. The findings within the sample are then "projected" to national totals. We also sometimes use the phrase "share" to quantify audience viewing levels. "Share" refers to the percentage of television sets in use tuned to a program. In other words, a rating measures what percentage of the universe of television households tuned in to a program, while a share measures what percentage of the number of television households in use are tuned in to a particular program.

DATA COLLECTION

During 2000-2003, Nielsen utilized two basic data collection instruments in our syndicated services: meters and diaries. A set meter is an electronic device attached to a television set in a particular household that detects the channel to which the television is being tuned. The data from these set meters are then converted into household ratings. Household meter data was collected year-round in Nielsen's metered markets during 2000-2003.¹ Diaries are paper booklets in which each person in the household records viewing information. In 2000-2003, diary data was collected in Nielsen's metered markets during the months of November, February, May, and July, which are also known as the "sweeps" rating periods. Seven-day diaries were mailed to homes to keep a tally of what was watched on each television set and by whom. Over the course of a sweeps period, diaries were mailed to a new panel of homes each week. At the end of each month, all of the viewing data from the individual weeks were aggregated into Nielsen's database.

PURPOSE OF TESTIMONY

The purpose of my testimony is to explain the methodology employed in a custom analysis of Nielsen diary data for 2000-2003 that I designed for MPAA. My custom analysis estimated actual distant viewing by cable households to the signals identified in Appendix D to Marsha Kessler's testimony (the "Kessler Stations") for

¹ At the beginning of 2000, Nielsen had 47 metered markets. By the end of 2003, Nielsen had 55 metered markets.

each year at issue in this proceeding. I understand that this distant viewing data is a part of Dr. Jeffrey Gray's economic analysis.

METHODOLOGY

The MPAA study is a custom analysis of the sweeps diary viewing data that are used for generating the cable and broadcast network ratings. The methodology, in brief, is as follows:

- 1) MPAA supplied Nielsen with the list of the Kessler Stations (all of which were distantly retransmitted by cable systems in 2000, 2001, 2002, and 2003). I understand that MPAA relied on data from Cable Data Corporation ("CDC") identifying stations distantly retransmitted by cable systems during 2000-2003 and selected the Kessler Stations based on the number of distant subscribers and the amount of Section 111 royalty fees generated by each station.
- 2) To limit the result to only distant viewing, MPAA provided Nielsen with the information as to whether counties were distant or local for each of the Kessler Stations. To do this, MPAA performed a county analysis and gave us the identities of the counties that should be considered local for the purpose of Nielsen's custom analysis.
- 3) Nielsen eliminated all non-cable viewing of programs for the Kessler Stations and all viewing to each station that occurred within the station's local area. Nielsen only measured the cable viewing for each station individually for counties that were not identified as local by the MPAA. What was left after

the elimination of local viewing was distant viewing among cable households.

This is reported in the form of minutes of viewing by households.

"ZERO VIEWING" INSTANCES

One concern that has been raised in past Phase II proceedings was the incidence of the so-called "zero viewing" instances that appeared in Nielsen's custom analysis. The appearance of these "zero viewing" instances is consistent with what I would expect to find in a custom analysis of viewing to distant signals by cable subscribers, for at least two reasons. First, it is important to recognize that Nielsen's custom analysis excluded all distant viewing to programs that are not compensable in this proceeding. This included distant viewing to ABC, CBS, and NBC network programs and programs that were not simultaneously broadcast on both WGN's local feed and WGN's satellite feed (known as WGN-A). Where noncompensable programs aired, Nielsen's custom analysis properly reported a zero viewing value. Second, the amount of actual viewing minutes to certain distant signals is very small. Where the viewing minutes to particular distant signal programs were so small as to be statistically insignificant, Nielsen's custom analysis would assign a zero viewing value.

Thank you for the opportunity to testify in this proceeding.

DECLARATION OF PAUL B. LINDSTROM

I declare under penalty of perjury that the foregoing testimony is true and correct, and of my personal knowledge.

1 P-R-O-C-E-E-D-I-N-G-S

2 (9:32 a.m.)

3 CHIEF JUDGE BARNETT: There has

4 been one change since we were all here before.

5 It used to be that the microphones on counsel

6 table were not live unless you pressed.

7 They're the opposite now. They're always

8 live. So, if you're going to confer with one

9 another be sure to mute the microphone.

10 Okay, good morning, all. This is

11 the date and time set for hearing in Phase II

12 of the distribution proceedings commenced

13 under Copyright Royalty Board Docket Number

14 2008-2 in re the distribution of cable royalty

15 funds for the years 2000 through 2003.

16 I think I have met you all. I'm

17 Judge Suzanne Barnett, the proverbial last man

18 standing since we last met. Judge Strasser

19 very happily reclaimed his position as senior

20 counsel to the Copyright Royalty Board. Judge

21 Roberts accepted a position as Senior Counsel

22 to the Register of Copyrights.

1 identified as being matches.
 2 JUDGE STRICKLER: Those various
 3 iterations were never compiled into one list?
 4 THE WITNESS: I don't believe so.
 5 JUDGE STRICKLER: Do you know a
 6 percentage of total titles that fell into that
 7 gray category, if I may call it that, that you
 8 had to send back to MPAA?
 9 THE WITNESS: I do not know.
 10 JUDGE STRICKLER: You were
 11 supposed to, you were charged with removing
 12 program titles identified by Tribune as
 13 broadcast type because those would not be
 14 covered by this proceeding. And I think you
 15 acknowledged that your company missed those
 16 and Dr. Gray caught those; is that correct?
 17 THE WITNESS: The network, those
 18 that should have been attributed to ABC, NBC,
 19 and CBS --
 20 JUDGE STRICKLER: Yes.
 21 THE WITNESS: -- yes.
 22 JUDGE STRICKLER: that's what I

1 meant. Can you tell us why it was that those
 2 were missed?
 3 THE WITNESS: As I said, it was a
 4 very iterative process. We were doing a lot
 5 of what-if analysis, you know, show-me
 6 analysis, those kind of things. And in some
 7 of the iterations, we went back to the
 8 underlying raw data, as opposed to the
 9 potentially compensable, just to see if there
 10 were other matches that we could use as
 11 leverage to say, hey, it matched here, maybe
 12 it makes sense here. And just in the final
 13 deliverable, we just, it was an oversight and
 14 was not included.
 15 JUDGE STRICKLER: It fell out in
 16 the final deliverable? It fell out for all of
 17 the network programming? So Dr. Gray was able
 18 to find -- so you had included all the network
 19 programming in the final deliverable?
 20 THE WITNESS: I believe so, yes.
 21 JUDGE STRICKLER: Do you know how
 22 Dr. Gray caught it?

1 THE WITNESS: I do not.
 2 CHIEF JUDGE BARNETT: Any follow-
 3 on questions then from counsel?
 4 MR. OLANIRAN: No, your Honor.
 5 MR. BOYDSTON: No, your Honor.
 6 CHIEF JUDGE BARNETT: Thank you,
 7 Mr. Patterson. You may be excused.
 8 (Witness excused.)
 9 MR. OLANIRAN: Your Honor, MPAA
 10 would like to call Mr. Paul Lindstrom.
 11 CHIEF JUDGE BARNETT: An obstacle
 12 course there for you.
 13 WHEREUPON,
 14 PAUL LINDSTROM
 15 was called as a witness by Counsel for the
 16 Motion Picture Association of America and,
 17 having been first duly sworn, assumed the
 18 witness stand, was examined and testified as
 19 follows:
 20 DIRECT EXAMINATION
 21 BY MR. OLANIRAN:
 22 Q Good afternoon, Mr. Lindstrom.

1 Greg Olaniran. I represent MPAA-Represented
 2 Program Suppliers. Would you please state
 3 your name and spell it for the record?
 4 A It's Paul Lindstrom. That's L-I-
 5 N-D-S-T-R-O-M.
 6 Q And, Mr. Lindstrom, what's your
 7 educational background?
 8 A I have a bachelor's degree from
 9 NYU.
 10 Q And where do you work?
 11 A I work for Nielsen.
 12 Q How long have you been with
 13 Nielsen?
 14 A I've been working for Nielsen, at
 15 this point, slightly over 35 years. I just
 16 passed an anniversary about a month ago.
 17 Q That's a long time. What does
 18 Nielsen do?
 19 A Nielsen is a market research
 20 company. It's a supplier of information on
 21 both the marketing research side and media
 22 research side. It's most well known for the

1 television ratings, I think.

2 Q Okay. And what position do you
3 hold with Nielsen?

4 A I'm in a senior vice president
5 position with a group within Nielsen called
6 Strategic Media Research. We focus on
7 producing custom research and custom analysis
8 for a wide variety of clients.

9 Q And what are your responsibilities
10 within that group?

11 A I'm responsible for the products
12 that are being issued from that group and a
13 primary responsibility for the design work on
14 the research that we do within that group. It
15 covers, as I said, both custom research and
16 custom analysis.

17 Q And what is custom research versus
18 custom analysis?

19 A I probably should have explained
20 that as I started, but, just to clarify,
21 custom research is work where you're going out
22 to establish a new database. You're doing

1 separate data collection, often for an
2 individual client. Custom analysis is a
3 situation where you're going into an existing
4 database. It might be the diary, it might be
5 meters. It might be a variety of different
6 existing databases, but you're looking at it
7 in a new custom way, usually, again, for a
8 single client.

9 Q Okay. And would you please
10 describe the range of your experience, if you
11 will, over the 35 years that you've been at
12 Nielsen?

13 A In the position that I'm in, I
14 actually have to do the research work top to
15 bottom. So I've been involved in every aspect
16 from the operational side of the data
17 collection, the data processing, data
18 analysis, questionnaire design, the research
19 design into what needs to be done, sampling
20 processes, literally top to bottom from
21 beginning to end with research projects going
22 through the media group.

1 Q And all of, all of this experience
2 is under the umbrella of custom research
3 and/or custom analysis?

4 A Almost all of it, with some
5 exceptions. We've had products that have gone
6 on from the custom research group to become
7 syndicated entities out within the industry.
8 I could go into details, but it's probably not
9 key right now.

10 Q And in the course of your
11 experience, how much statistical analysis, to
12 what extent does statistical analysis feature
13 in your work?

14 A Statistical analysis comes in
15 quite frequently. It becomes part of the
16 research design, and it becomes part of the
17 process that I have to go, in terms of working
18 with our clients to help them understand and
19 to utilize it. So it's a very pragmatic
20 approach and one that, again, I've been
21 required to get into for, you know, nearly all
22 of those 35 years in this type of role.

1 Q And in terms of statistical
2 analysis, are you talking in terms of sample
3 design, sample selection, that sort of thing?

4 A It's impossible to design a
5 research project without being intimately
6 involved in the sample design and sample
7 selection. Any type of issues that could crop
8 up all tie into it; so it, therefore, has to
9 be part of the design from the very outset.

10 Q And for what type of clients do
11 you perform custom research and custom
12 analysis?

13 A It's been a wide range of media
14 clients. We've done television broadcasters,
15 local stations, national cable networks, local
16 cable systems, MSOs. We've worked with
17 internet companies, cinema advertising
18 companies, place-based, almost, again, top to
19 bottom within the media field. It's been a
20 particular emphasis on companies that are
21 looking to launch new media and to go out and
22 become ad supported. So as it has grown,

1 literally, beginning with cable straight on
2 through up to the first work that Nielsen has
3 done on the internet, I've been responsible
4 for.

5 Q And so you've worked with cable
6 systems. Have you done audience measurement
7 work for, television audience measurement work
8 for cable systems?

9 A Very extensive audience work for
10 both cable systems and cable networks.

11 Q What about broadcast stations?

12 A Yes, for broadcasters, as well.

13 Q And why would a cable system
14 require you to do audience measurement work?

15 A There's a variety of reasons on
16 why it's done, but the most common is a way of
17 being able to document audiences in order to
18 sell them for advertising purposes. There's
19 a need for an independent barometer so that
20 both buyers and sellers in the marketplace can
21 agree on what they think they're going to be
22 getting and then whether or not that was

1 delivered.

2 Q Does the same thing apply to the
3 audience measurement work you've done for
4 broadcast stations, the same --

5 A That's true. In most instances,
6 we're being commissioned in order to do
7 audience work for the purposes of buying and
8 selling advertising in the television
9 marketplace.

10 Q Have you previously testified in
11 any distribution proceedings in the past?

12 A I've been involved in all of the
13 proceedings in which the MPAA has commissioned
14 work from us. That has ended up being
15 virtually all of the phase one hearings since
16 the 1980 proceedings.

17 MR. OLANIRAN: Your Honors, at
18 this point, based on Mr. Lindstrom's years of
19 experience in the field, I offer Mr. Lindstrom
20 as an expert in the field of market research
21 with an emphasis on TV and cable audience
22 measurement.

1 MR. BOYDSTON: No objection.

2 CHIEF JUDGE BARNETT: Mr.

3 Lindstrom is qualified as an expert in those
4 areas.

5 MR. OLANIRAN: Thank you, your
6 Honor.

7 BY MR. OLANIRAN:

8 Q Mr. Lindstrom, what were you asked
9 to do for this proceeding?

10 A We were asked to produce estimates
11 of distant cable viewing to specific stations,
12 as supplied to us.

13 Q Did you prepare a written report
14 of your work for this proceeding?

15 A Yes, we did.

16 Q Okay.

17 MR. OLANIRAN: Approach the
18 witness, your Honor?

19 CHIEF JUDGE BARNETT: Certainly.

20 BY MR. OLANIRAN:

21 Q Mr. Lindstrom, I'm handing you a
22 pre-marked MPAA Exhibit 363. Again, in the

1 interest of the environment, I won't provide
2 copies to the Judges and counsel.

3 CHIEF JUDGE BARNETT: Can we just
4 identify, are you getting ready to identify it
5 for the record?

6 MR. OLANIRAN: Yes.

7 CHIEF JUDGE BARNETT: Thank you.

8 MR. BOYDSTON: Your Honor, could
9 it be identified the way it was identified
10 when it was produced to us? In other words,
11 I understand it's an exhibit on something that
12 was, I don't know where from.

13 CHIEF JUDGE BARNETT: Sure.

14 MR. BOYDSTON: Or I'll take
15 originals.

16 CHIEF JUDGE BARNETT: You can have
17 a copy.

18 BY MR. OLANIRAN:

19 Q Mr. Lindstrom, you should have in
20 front of you a document pre-marked MPAA
21 Exhibit 363. Do you have that?

22 A Yes, I do.

1 Q And the document is, what is the
2 title of that document?
3 A "Direct Testimony of Paul D.
4 Lindstrom."
5 Q And it's dated May 30, 2012?
6 A Yes, it is.
7 Q Okay. Is this your written
8 testimony for this proceeding?
9 A Yes, it is.
10 Q And do you have any corrections or
11 additions to your testimony?
12 A Yes. There's three of them, I
13 believe.
14 Q Just go ahead.
15 A I'll have to find them in there.
16 Bear with me for one moment. On page four, in
17 the first paragraph under data collection,
18 approximately halfway down, it talks about the
19 months of November, February, May, and July,
20 which are known as the sweeps. It should also
21 say "and, in some instances, October and
22 March."

1 Q That's at the end of the sentence?
2 A That would be at the end of the
3 sentence. There are two additional
4 measurement periods, the ones that are not
5 done for all markets and are, therefore, not
6 formally known as the sweeps.
7 Q Okay. So next one?
8 A The second would be on page six,
9 the second sentence from the top, it says,
10 "This is reported in the form of minutes of
11 viewing by households," that should say it's
12 reported in the form of quarter hours of
13 viewing by households.
14 Q Do you have any other corrections?
15 A Then approximately in the zero
16 viewing instances, the next paragraph,
17 approximately halfway down on page six, it
18 says "Nielsen's custom analysis," and it
19 should say "Dr. Gray's analysis."
20 JUDGE STRICKLER: Can you clarify,
21 sir, where -- because it says Nielsen's custom
22 analysis --

1 THE WITNESS: It says, "First, it
2 is important to recognize that Nielsen's
3 custom analysis excluded --"
4 JUDGE STRICKLER: And you're
5 replacing it with what?
6 THE WITNESS: It should be "Dr.
7 Gray's custom analysis of the Nielsen data."
8 BY MR. OLANIRAN:
9 Q And Dr. Gray's custom analysis or
10 Dr. Gray's analysis?
11 A Dr. Gray's analysis would be fine,
12 of the Nielsen data. And then approximately
13 the fourth line from the bottom, it says
14 there, as well, "Nielsen's custom analysis,"
15 and it should be "Dr. Gray's analysis."
16 Q Of the Nielsen data also; is that
17 right?
18 A That would be correct.
19 Q Okay. Any other corrections?
20 A No.
21 Q Can I direct your attention to the
22 last sentence on that page? Should that be

1 Nielsen's custom analysis or Dr. Gray's
2 analysis, just to --
3 A That should be Nielsen's custom
4 analysis, so that would stay as it is.
5 Q Okay. Thank you. And with those
6 corrections you've just made, do you declare
7 your testimony to be true and correct --
8 A Yes, I do. Oops, sorry.
9 Q -- and of your personal knowledge?
10 A Yes, I do.
11 MR. OLANIRAN: Your Honors, I move
12 for admission of Exhibit, MPAA Exhibit 363.
13 MR. BOYDSTON: No objection.
14 MR. HARRINGTON: No objection.
15 CHIEF JUDGE BARNETT: Exhibit 363
16 is admitted, as corrected.
17 (Whereupon, MPAA Exhibit No. 363
18 was received into evidence.)
19 MR. OLANIRAN: Thank you.
20 BY MR. OLANIRAN:
21 Q You stated earlier that you were
22 asked to do some work with regard to 2000

1 through 2003 Nielsen information for MPAA.
2 Could you please describe, just very briefly,
3 exactly what you did for MPAA?

4 A We produced estimates of viewing
5 for individual stations among distant cable
6 households. The process that we used was that
7 the MPAA supplied Nielsen with a list of
8 stations which had been distantly transmitted
9 by cable systems in 2000 to 2003. In order to
10 limit the viewing that we were reporting on to
11 only distant viewing, we were supplied with an
12 analysis that had been done which defined
13 counties for each stations so that they were
14 either classified as local or distant. And we
15 eliminated all local counties. Again, that
16 information was provided to us by the MPAA
17 with the definitions so that the data was
18 restricted to only distant counties for each
19 of those stations.

20 We then went through the database
21 and further cut back so that we eliminated all
22 non-cable households from those distant

1 counties that had viewing to those stations so
2 that what was left was ultimately a sample for
3 each station that was based on distant
4 definitions and cable viewing.

5 Q The work that you did for MPAA, is
6 that considered custom analysis or custom
7 research?

8 A That's custom analysis. The goal
9 that we have had with this has been the idea
10 of being able to analyze what is the database
11 that's currently being used in the regular
12 television measurement, and so the diary
13 database allowed us to do that with the same
14 types of metrics, the same reporting, and the
15 same basic data set that's currently used for
16 the industry.

17 Q And what exactly is a diary?
18 What's a diary?

19 A The diary that's being used and
20 referred to here is a seven-day diary. It's
21 basically a log that's kept by the household.
22 It pre-lists quarter hours, 24 hours a day,

1 for seven days. And the households are asked
2 to supply certain pieces of information. Each
3 time they view, they're to indicate what the
4 channel member, the call letters, and the
5 program was, and then who within the household
6 was viewing.

7 Q And how does Nielsen select its
8 households?

9 A It is a random sampling process in
10 order to identify those homes.

11 Q Okay. And after going through the
12 process where you looked at the, you excluded
13 the local counties from the viewing data and
14 you also limited non-cable household viewing.
15 What then did you do?

16 A What we would be doing is to
17 generate estimates of the projection value of
18 the amount of tuning that was being done by
19 households within our sample who met that
20 definition on a quarter-hour basis for each
21 station within the sample.

22 Q Well, you talk about estimates of

1 projected viewing. What exactly do you mean
2 by that?

3 A It would be an estimate of how
4 many households would have been tuned during
5 the average quarter hour that were distant and
6 cable.

7 Q And in doing the estimate, you're
8 not going around and measuring in every TV
9 set. I think we know that. How are you --
10 let me make sure I phrase this correctly --
11 how are you projecting from the number of
12 households that have provided you data to the
13 remainder of a television tuning population,
14 if you will?

15 A What's important to keep in mind
16 with the measurement that we're talking about
17 here is that, as I noted, the diary itself was
18 a seven-day diary. The sweeps are a four-week
19 period of time. Each sweep is approximately -
20 - or independent samples of around 25,000
21 households. That means during each sweep,
22 we've got 100,00 home, so this analysis would

1 have been based on more than 400,00 households
2 contributing to it.

3 We searched those individual
4 records to meet those homes that qualified
5 and, again, find the viewing to those specific
6 stations and identify it and add it up quarter
7 hour by quarter hour.

8 Q Okay. You testified in the 1997
9 phase two cable royalties proceeding, correct?

10 A That is correct.

11 Q And in that proceeding, the issue
12 of zero viewing came up. Could you please
13 explain, first explain the issues of what zero
14 viewing means, if anything?

15 A There's one thing that I need to
16 start out with because zero viewing is a
17 little bit of a misnomer. It's kind of a
18 colloquialism that's come into play.

19 But Nielsen actually does not
20 estimate zero viewing. In instances, there is
21 viewing that's too low or of a certain
22 magnitude that can't be used, we'll tend to

1 put either carets or asterisks or footnotes of
2 some kind to say that the audiences small but
3 not zero. I mean, we wouldn't go through and
4 say nobody in fact would watch something.

5 What we are saying when we go
6 through with these cells with what's being
7 indicated with zero viewing is that there was
8 no reported viewing within that sample of
9 homes during that day and quarter hour. And
10 that's different, that idea of going, when you
11 get into very finite, very specific quarter
12 hours defined, that there was no specific
13 mentions of viewing within the sample is not
14 surprising.

15 Q And when you said that you tend to
16 put carets, where are you talking about that
17 you place this --

18 A They're within the reports
19 themselves. The difference between the report
20 that we produced for the MPAA and what we
21 normally do with syndicated research where
22 these types of carets will be put in is that

1 the purpose of the study was really to
2 aggregate viewing, to aggregate quarter hours
3 across stations, across time, and across
4 sweeps to accumulate sufficient sample size.
5 Under that scenario, there's the necessity of
6 being able to add and to do your calculations,
7 so you have to put in a numeric value. And so
8 as a result, in order to allow for the
9 manipulation of the data, the reports and the
10 data that we supplied, it's carrying a zero
11 numeric value because you couldn't do that
12 with an asterisk or a caret or some such
13 thing. But it shouldn't be interpreted as a
14 zero.

15 Q So if I understand you correctly,
16 as to the data that Nielsen itself maintains,
17 you put the symbols and notes in the database
18 to say there was none reported viewing. But
19 with respect to the data that you provide for
20 MPAA, you have to put zeros in in the quarter
21 hours essentially to allow for manipulation of
22 the data?

1 A That is correct.

2 JUDGE STRICKLER: May I interject
3 for a second?

4 MR. OLANIRAN: Absolutely, your
5 Honor.

6 JUDGE STRICKLER: Mr. Lindstrom,
7 you're doing a sample with the Nielsen
8 diaries, correct?

9 THE WITNESS: That's correct.

10 JUDGE STRICKLER: And you end up
11 with these very low numbers, and you don't
12 know what they are, so you put in the caret or
13 the asterisk, as you say, correct?

14 THE WITNESS: That's correct.

15 JUDGE STRICKLER: Is there a
16 margin of error or a level of confidence
17 associated with the numbers, particularly at
18 the lower level, where you have these carets
19 or asterisks so that we know what -- I know,
20 because the zero bound there, so we don't have
21 a negative number of people throwing things at
22 the television and refusing to watch it

1 adamantly but we have either zero or some
2 number above it. How do you statistically, if
3 at all, how does Nielsen statistically, if at
4 all, account for a margin of error within a
5 certain level of confidence?

6 THE WITNESS: We didn't produce
7 that data for this particular report.

8 JUDGE STRICKLER: So, so -- I'm
9 sorry. Go ahead.

10 THE WITNESS: No, so I'm saying
11 that I don't have that data to be able to
12 readily identify.

13 JUDGE STRICKLER: But Nielsen
14 produces that sort of information as a matter
15 of course is what you're saying?

16 THE WITNESS: Yes, it is possible
17 to produce that sort of data, and we do it
18 frequently. What you would expect, and this
19 goes back to is that, for any given station on
20 any given quarter hour, you would expect high
21 levels of relative error. It's the
22 accumulation of information that, in fact,

1 ends up reducing those error levels because
2 you have more different people, more
3 independent samples that are going together in
4 order to generate that, and it's part of the
5 reason, again, that you would expect to see
6 the results in the fashion that we are. The
7 relative error on any given quarter hour for
8 any given station, again, would be very high.

9 MR. OLANIRAN: Is your Honor --

10 JUDGE STRICKLER: Thank you.

11 BY MR. OLANIRAN:

12 Q And I wanted to follow up. Why
13 does the non-reported viewing occur,
14 particularly with respect to the data that you
15 provided to MPAA?

16 A I think one way to think about
17 this, and it's not a direct comparison but
18 it's an analogous, that each quarter hour, in
19 many ways, is a sampling point. And what
20 you're doing is trying to increase your
21 sampling points. If you were to think about
22 it, though, in a reverse way of saying suppose

1 this was a respondent and you had two of them,
2 and that was your entire sample. And you were
3 viewing a quarter hour, and it could be a
4 yes/no. And if that were the case where you
5 had two respondents, then it would be a yes or
6 a no. You'd either have a zero, a 50 rating,
7 or 100 rating.

8 But the actual viewing level or
9 rating level that you would end up expecting
10 under this type of scenario, you know, even
11 traditional broadcast ratings might be about
12 a one rating, which is about one percent of
13 the audience, so under that type of scenario,
14 you would fully expect that, in fact, as you
15 started adding sample, the bulk of the sample
16 would still be non-viewers. They would be no
17 to having viewed that quarter hour. I mean,
18 think about those nos as being your zeros
19 because that's really what it is, a yes/no, no
20 is a zero.

21 And you would have to add in 99
22 nos in order to, in fact, give the accurate

1 reflection of the one-percent viewing level
2 that was there. That's the reason why it's
3 important to accumulate the sample. Low
4 sample sizes with very small levels of
5 viewing, which, again, any given station for
6 any given quarter hour on a distant cable
7 basis will be very, very low. In order to
8 measure that, you need to build up the sample
9 and you fully expect to be including a lot of
10 these non-viewing instances in order to
11 accurately average out across time, across
12 programs, and across viewing instances.

13 I don't know if that helped, but
14 it's that basic idea if you only do that one
15 quarter hour and if you only had those two
16 people, then the response that you get is, in
17 fact, not going to be accurate. It is only
18 the accumulation of quarter hours in sample
19 size that allows the measures to be an
20 accurate reflection.

21 Q You've made a lot of references to
22 quarter hours. What are quarter hours? I

1 know it's somewhat elemental but . . .
 2 A Again, a quarter hour is the time
 3 frame that's being measured within the diary.
 4 So within a diary, it will say, 8 to 8:15,
 5 what did you do, you know, I either didn't
 6 watch television or I watched television and
 7 it was this channel, this call letters, and
 8 this program name, so that we can identify
 9 what it is that's being viewed.

10 And so, in the same fashion, if
 11 you think about this yes/no for a particular
 12 station, again, people are watching a lot of
 13 other television that is, in fact, being
 14 recorded there. It's not a matter of they're
 15 not viewing. We're looking at all their
 16 viewing. We're just not finding very much
 17 under those circumstances of some of the
 18 distant cable broadcast signals.

19 JUDGE STRICKLER: Counsel, may I
 20 interject again? The diary samples you do,
 21 those are diary samples that are sent to homes
 22 that are already metered; is that correct?

1 THE WITNESS: No, that's not.
 2 They're independent samples. There's a
 3 separate metered measurement that goes on,
 4 both in terms of local markets, some of the
 5 metered markets, and on a national basis. The
 6 diaries are independent of that.

7 JUDGE STRICKLER: I was probably
 8 confused, and it's probably my fault. You say
 9 on page four of your direct statement in 2000
 10 to 2003 diary data was collected in Nielsen's
 11 metered markets, so you're saying the diary
 12 data came out of the metered markets but not
 13 out of the same households that had meters; is
 14 that it?

15 THE WITNESS: I actually realized
 16 as I was going through this and saying, what
 17 I was trying to convey probably wasn't
 18 conveyed very well there. And I'm actually
 19 glad that you raised it so that I can clarify.
 20 We do have a large number of markets that, in
 21 fact, are metered. It was 50-plus, I believe,
 22 at the time when these measurements were going

1 on. But what I wanted to stress within this
 2 is that we weren't actually combining the
 3 metered data and the diary data. The mixing
 4 of those two pieces, if you just added them up
 5 together, would kind of compound a lot of, it
 6 would compound certain types of issues. And
 7 this isn't a comment on Dr. Gray's analysis,
 8 which I think is a different thing.

9 But the idea of saying we do have
 10 diaries in metered markets that we could
 11 utilize for purposes of this analysis, so
 12 we're looking at diary data across the entire
 13 country, including metered markets where we
 14 have diary sample that's also being collected.

15 JUDGE STRICKLER: So the diary
 16 data is in metered markets and also outside of
 17 metered markets?

18 THE WITNESS: That's correct. And
 19 that's what I was trying to say. So it's not
 20 a case of there are diary markets that are
 21 some portion of the country and metered
 22 markets for some portion of the country. We,

1 in fact, at this point in time, did diaries
 2 across the entire country, which are included
 3 here.

4 JUDGE STRICKLER: And metered
 5 markets are, those meters run not just during
 6 the sweeps months but 12 months a year; is
 7 that correct?

8 THE WITNESS: That's correct.
 9 Twenty-four hours a day, 365 days a year.

10 JUDGE STRICKLER: And are there
 11 more people metered, if you will, than diary,
 12 or households I should say?

13 THE WITNESS: No. The diary is
 14 substantially larger in terms of the sample
 15 sizes. You couldn't afford to have metered
 16 samples of the type of size, certainly at the
 17 point in time that we're talking about in the
 18 early 2000s. Sample size is the magnitude of
 19 what you can do with a diary. That's why we
 20 took the approach with the diary simply
 21 because, again, in order to measure very low
 22 viewing levels, you need very large sample

1 sizes, which only the diary can provide.

2 There's really no other good database of its
3 kind to be able to measure viewing of these
4 types of levels.

5 JUDGE STRICKLER: We have to go
6 from the local diary information, we took it
7 from local information to more national
8 information through a regression analysis, but
9 the meters, if I understand this correctly,
10 while it's a smaller sample, the meters would
11 give you that overall information without
12 having to do a regression. It would just be
13 a really small sample. Is that the problem?

14 THE WITNESS: Without commenting
15 on the regression because I want to hear
16 specifically what that question is because I
17 think it actually sounded as if there was
18 something -- I think we'll have to clarify
19 that at some point in terms of what the
20 regression was being used in order to
21 estimate. But, I'm sorry, if you could just
22 clarify the tail end of that.

1 JUDGE STRICKLER: Well, let me ask
2 it more generally. Would there have been a
3 benefit to using the meters, as opposed to the
4 diaries, notwithstanding the fact that the
5 meters are a smaller sample?

6 THE WITNESS: I think that, if one
7 were to ask most people within the television
8 business, they would probably say that the
9 meter, as a data collection method, is a
10 superior method to the diary. It's why the
11 industry has shifted over time to that.
12 There's been extended metered markets,
13 etcetera. The diary does a very good job at
14 what it does, but the very fact that a meter
15 can get very precise and 365 days a year is a
16 huge plus.

17 But the reality is is that, if you
18 were going to, again, try and measure under
19 these very small and finite circumstances,
20 that you need extremely large sample sizes in
21 order to be able to do it and, at this point
22 in time, it wasn't out there. So given the

1 absence of the sample size to be able to do an
2 analysis of this type adequately, the diary is
3 really a preferable approach.

4 JUDGE STRICKLER: Thank you.

5 JUDGE FEDER: Now, if I understood
6 your testimony correctly, each sweep includes
7 about 100,000 homes?

8 THE WITNESS: That's correct.
9 Four independent samples of seven days each
10 during a month.

11 JUDGE FEDER: Okay. And then so
12 over the course of a year, we're talking
13 400,000 homes that are sampled?

14 THE WITNESS: That's correct. And
15 some additional within March and October.

16 JUDGE FEDER: And then, as part of
17 this process, you then excluded all those
18 samples that are in local markets, as opposed
19 to distant markets, and those samples that are
20 non-cable households?

21 THE WITNESS: Yes. And it's
22 important to keep in mind, just to clarify,

1 when we're talking about it, that this is done
2 for each station. So each station is
3 specifically identified as to what should be
4 the local counties, so it's not a global type
5 of definition. It's done going for this
6 station these are the counties that are local,
7 for this station those are the counties that
8 are local.

9 JUDGE FEDER: So for any given
10 station, you're obviously talking about much
11 fewer than 400,000 samples to start with. And
12 then that number of samples is declining as
13 you exclude essentially non-compensable
14 categories in the households that don't have
15 cable?

16 THE WITNESS: That's correct.

17 JUDGE FEDER: So is there anywhere
18 in the report that you produced that tells us
19 what the sample size is for the various sample
20 stations that are in this survey?

21 THE WITNESS: The answer to that
22 is, perhaps, slightly complicated because the

1 way that you described it is true, but you
2 would still be thinking, for purposes of how
3 you would examine the data, as the sample size
4 -- there are really two factors, sorry, in
5 terms of producing anything on relative
6 errors, for example. One is sample size, and
7 one is some form of correlation of viewing in
8 terms of who's doing all this viewing? Is it
9 the same people or different ones? Is it kind
10 of unique?

11 For a sample size purpose, the
12 actual sample size that you would be looking
13 at, despite the fact that you're applying
14 filters, is actually the 400,000 that's going
15 into the base because part of that estimate is
16 all of the people that can't view or be
17 included in that as a result of being local.
18 All of those people who, in fact, are non-
19 cable. They don't come out of that base for
20 estimating the size of the viewing population
21 of those distant cable folks. It all goes
22 into generating the percentages of everybody

1 who would have viewed certain viewing
2 entities.

3 So the base really is truly
4 everybody in the U.S. with that large a
5 sample. But you need that large because of
6 the filters to take it down.

7 Once you get into that spot, it
8 would be not an impossible analysis but a
9 difficult one because you would have to go
10 into a secondary step that would say let's
11 now, instead of just looking for viewing to a
12 given station during a given time period, what
13 we would have to do is start computing cable
14 coverage to go what are the cable systems for
15 which each of these stations is then available
16 and how many homes do we have within those
17 stations that would be considered distant?

18 It's a step that we don't actually
19 need to do to process the data as we do it.
20 And, therefore, to estimate it would be kind
21 of, would be a separate full-custom study to
22 produce it. And, again, quite frankly, it

1 wouldn't ultimately be the real key in terms
2 of sort of judging those sample sizes.

3 JUDGE FEDER: Is it possible that,
4 for some of these stations, after you apply
5 the filters, that there simply are no diary
6 measurements for those particular stations?

7 THE WITNESS: No. I mean, the
8 answer to that is that the sample sizes are
9 large enough that it would be virtually
10 impossible for any of those stations to not
11 have people who would be in a position of
12 being able to view that could have recorded
13 that viewing. The fact that they didn't is a
14 different issue, but it's not a case where,
15 for any of them, that people wouldn't have had
16 that ability. I mean, we measure all cable
17 systems across the U.S. You couldn't have any
18 kind of relatively large distribution of a
19 signal that, in fact, would not have the
20 capacity of being able to have somebody who
21 could have viewed it. It's a case of they
22 could have, but they didn't indicate it within

1 the diary.

2 JUDGE FEDER: Thank you.

3 JUDGE STRICKLER: How many
4 stations were metered? I mean, excuse me, how
5 many meters were out in public in the United
6 States in the period 2000 to 2003, if you
7 know?

8 THE WITNESS: I don't know off the
9 top of my head.

10 JUDGE STRICKLER: Not even
11 ballpark?

12 THE WITNESS: I mean, if I had to
13 guess, I'd put the number probably at that
14 point in time as somewhere in a five to ten
15 thousand kind of range maybe. It expanded
16 greatly into the mid 2000s with the advent of
17 the Local People Meter and a shift that we
18 made then in terms of how we accumulated
19 households both locally and nationally. But
20 the sample sizes were substantially lower at
21 the time of this analysis.

22 JUDGE STRICKLER: Thank you.

1 CHIEF JUDGE BARNETT: Just to ask
2 you to say this for the third time, you
3 distributed diaries to 100,000 households each
4 of the four weeks --

5 THE WITNESS: Twenty-five thousand
6 during each week of the four weeks, so it's
7 four independent samples of 25,000, roughly
8 25,000 each.

9 CHIEF JUDGE BARNETT: And they're
10 not the same over those four weeks?

11 THE WITNESS: That's correct. And
12 then as you go through the sweeps, those are
13 also not the same.

14 CHIEF JUDGE BARNETT: Not the same
15 between May and July?

16 THE WITNESS: That's correct.

17 CHIEF JUDGE BARNETT: Okay. Thank
18 you.

19 THE WITNESS: And that's an
20 important thing because if they were the same
21 homes then you'd run into situations of going
22 is there, that's where you get into that idea

1 of the number of unique people and whether
2 it's the same folks who were viewing or not.
3 The very fact that they're independent samples
4 means that the potential is there for
5 somebody, 8:00 on Monday with this particular
6 station, that there would be no viewing. On
7 the other hand, when you get into the
8 following week at 8:00 on Monday, there may
9 very well be because you've got an independent
10 sample now that could. And then the following
11 week there could be, which is, again, why you
12 want to accumulate over time to accumulate
13 those independent samples.

14 BY MR. OLANIRAN:

15 Q I just need to go back really
16 quickly to just one question. Judge Feder
17 asked you, I think he was referring to what
18 happens when you go through the process of
19 elimination, and I think you said that the
20 sample goes down. And I just want to be sure
21 that we're talking about the same thing. It's
22 the sample of the households, correct?

1 A That's correct.

2 Q This is a national sample of
3 households. And then there's a sample of
4 station that you've been asked to study by
5 MPAA, correct?

6 A That is correct.

7 Q And when you're going through your
8 elimination process, that sample of stations
9 does not shrink. It's the data, because of
10 the elimination, the data that's contributing
11 to your study that has been eliminated, not
12 the number of samples, though, right?

13 A That is correct.

14 Q And the national sample, the
15 sample of households, diary households, that
16 doesn't change either. It's a question of
17 whether or not there's reported or non-
18 reported viewing within that sample; is that
19 correct?

20 A And, you know, technically,
21 whether viewing by that household would be
22 compensable or not so that you're saying if it

1 wouldn't be, because it was local, then it is
2 really counting as a zero. If it wouldn't be
3 because it was non-cable or for whatever
4 reasons, it wouldn't be included and it would
5 be indicated again as zero.

6 Q Now, going back to the issue of
7 non-reported viewing, in your view, do the
8 instances of non-reported viewing, did they
9 invalidate the results of your study?

10 A No. They're not only consistent,
11 but it is given -- and I hate to keep going
12 back to it but it is something to keep in mind
13 again. The low levels of tuning at any given
14 point in time, that it is a virtual
15 statistical certainty that you would be having
16 those types of zero cells. So it's not only
17 that it invalidates or makes you feel that the
18 data set is bad, it is something that, in
19 fact, you know, can and should be expected
20 under the circumstances.

21 CHIEF JUDGE BARNETT: How much
22 more do you have, Mr. Olaniran?

1 MR. OLANIRAN: I have two more
2 questions.

3 CHIEF JUDGE BARNETT: All right.
4 Go ahead.

5 BY MR. OLANIRAN:

6 Q The other question I had was if
7 you looked at station X on a particular day at
8 a particular quarter hour and you looked at
9 all of the households contributing to viewing
10 on that station, and let's say they were all
11 zero, is there a way to tell whether or not
12 those households are watching -- actually, let
13 me strike that question but go back to the
14 same hypothetical. If you had station X, a
15 particular quarter hour on a particular day,
16 and let's say, for two households let's say
17 you had non-reported viewing to that station
18 for that particular quarter hour, would you
19 need to know whether or not, can you tell from
20 just that information whether those two
21 households were watching something else?

22 A No.

1 MR. OLANIRAN: Okay. No further
2 questions, your Honor.

3 CHIEF JUDGE BARNETT: Thank you.

4 It is 4:36. We will be at recess until 9:00
5 in the morning. Thank you all, and we will,
6 I will -- Judge Feder has all of his documents
7 on his iPad. Isn't he special? Judge
8 Strickler schlepped all of his over here, and
9 I schlepped mine over and left them in the
10 room. So I'll bring mind out tomorrow. We'll
11 be all set with regard to paper, and we'll see
12 you at 9:00 in the morning. Thank you.

13 (Whereupon, the foregoing matter
14 was concluded at 4:36 p.m.)
15
16
17
18
19
20
21
22

1 Q Okay. And also, if I took station
2 X and I added up all of the instances of non-
3 zero, of non-reported viewing, what could I
4 infer from the tabulation of just the zeros on
5 that station?

6 A The important thing to keep in
7 mind with this type of question is if you
8 think about my analogy of saying each quarter
9 hour is a sampling point, that it is, in fact,
10 important to include all of the sampling
11 points in whatever type of analysis you're
12 choosing to do, whether, again, by time period
13 or program or station or however you're adding
14 it up, fundamentally, going through and
15 picking sampling points based upon the data
16 piece that's in there is, in fact,
17 fundamentally, a wrong thing to do and one
18 that doesn't mean anything. You would expect
19 cells to have zeros, but to pick only those
20 cells that have zeros, it is not the way to
21 look at it. It has to be accumulated and
22 added together in order to have the validity.

2 9:03 A.M.
3 CHIEF JUDGE BARNETT: We are back
4 on the record in the matter of the
5 distribution of cable royalty funds for the
6 years 2000-2003, Phase II.
7 And Mr. Olaniran, had you
8 completed your examination of your client, of
9 your witness?
10 MR. OLANIRAN: Yes, Your Honor.
11 CHIEF JUDGE BARNETT: Okay, thank
12 you.
13 Mr. Boydston.
14 MR. BOYDSTON: Thank you, Your
15 Honor.
16 CROSS EXAMINATION
17 BY MR. BOYDSTON:
18 Q Good morning, Mr. Lindstrom.
19 A Good morning.
20 Q My name is Brian Boydston. I'm
21 the attorney for Independent Producers Group.
22 You've testified that you provided Nielsen

1 diary data to the MPAA in connection with this
 2 proceeding, correct?
 3 A That is correct.
 4 Q And that that information
 5 constituted diary information for the four
 6 sweeps weeks during each of the relevant four
 7 years, correct?
 8 A Including March and October in
 9 some instances as well.
 10 Q Understood, thank you. Now I just
 11 want to confirm, I think you may have
 12 mentioned in your direct testimony, but I
 13 don't know if it quite made this clear. It
 14 seems an obvious point, but these ratings
 15 data, they don't reflect actual viewing by the
 16 population that they're serving. They
 17 represent viewing based on discrete numbers of
 18 people within the population being surveyed,
 19 correct?
 20 A If I understand the question
 21 correctly, it is a sample that is being
 22 measured rather than the full census

1 population.
 2 Q And so for instance, when there's
 3 a diary entry for a particular program at a
 4 particular time, one diary entry may be
 5 extrapolated on to a number of additional
 6 households, correct?
 7 A That is correct.
 8 Q Sometimes maybe it could be as
 9 much as 10,000, maybe more, maybe less
 10 households?
 11 A Ten thousand would be high in
 12 terms of those weights, but it possibly could
 13 go that high. It's probably more in the range
 14 of a thousand for the most part.
 15 Q And I understand that you've
 16 appeared in these proceedings for quite some
 17 time, decades?
 18 A That's correct.
 19 Q And you appeared on behalf of the
 20 MPAA in the 1997 proceedings that took place
 21 in the Year 2001, correct?
 22 A That is correct.

1 Q Are you familiar with the
 2 September 2001 distribution order that came
 3 out of those 1997 proceedings?
 4 A I don't recall the details.
 5 Q Have you reviewed it at some time
 6 though?
 7 A I'm sure that I have, but I don't
 8 recall when I did though.
 9 Q Fair enough. Do you recall that
 10 in that decision on the '97 proceedings the
 11 CARP referenced a high incidence of zero
 12 viewing in the Nielsen diary data?
 13 A Yes, I do.
 14 Q And do you recall that in the '97
 15 proceedings it was found that the aggregate
 16 zero viewing equaled 73 percent of all major
 17 broadcasts?
 18 A I don't recall the details of it.
 19 Q Would that figure of 73 percent
 20 surprise you or does that seem out of whack?
 21 A No, it's actually very much in
 22 line that even with the people meter that

1 currently is the source of what's done for a
 2 \$70 billion advertising business, that if you
 3 dive into it that there's approximately 65
 4 percent of the quarter hours would, in fact,
 5 be zero viewing for stations. Now obviously,
 6 that's in direct relationship to the size of
 7 the audience to those stations, some more,
 8 some less. But that is not inconsistent with
 9 what's currently out there in the standard
 10 audience measurement.
 11 Q You mentioned, in your answer
 12 right now, you mentioned metered ratings,
 13 correct?
 14 A That is correct.
 15 Q And I assume you're talking on a
 16 national level in your previous comment?
 17 A Yes, I was.
 18 Q On a national level would one see
 19 that sort of incidence of zero viewing for
 20 diaries as opposed to metered ratings?
 21 A Again, it would be consistent
 22 across meters and diaries. It would not be

1 surprising to see those types of levels. And
2 again, in direct relationship to the size of
3 the station that's trying to be measured. And
4 we try and be very inclusive for all stations
5 and therefore there are a lot with very small
6 viewing levels.

7 Q From your testimony yesterday, my
8 recollection is that you were saying that the
9 diary ratings or the ratings derived from
10 diaries, there are many more diaries and much
11 more diary data that Nielsen collects than
12 metered data, correct?

13 A There are more sample households
14 that are being measured. The extent of the
15 data that's being collected, because the meter
16 is 365 days a year, is very extensive, so I
17 wouldn't phrase it that way. But there are
18 certainly much larger sample sizes with the
19 diary.

20 Q In terms of number of households
21 covered, my understanding from your testimony
22 was that the diaries are much greater than the

1 meters?

2 A That is correct.

3 Q On what kind of a scale?

4 A I don't know exactly what the
5 metered sample was at the time, but I would
6 estimate maybe 5,000 or 10,000 during that
7 period of time. Currently, right now,
8 nationally, it's 25,000. And the diary itself
9 is about 25,000 per week within independent
10 samples so that we're measuring about 400,000
11 plus households a year with the diary.

12 Q So at the time in question, 2002,
13 2003, your estimate, just refresh my
14 recollection, your estimate at that time is
15 that there must have been a couple hundred
16 thousand diary households and what did you
17 say, 25,000 meters?

18 A No, it's 25,000 now. It might be
19 5,000 or 10,000. I honestly don't recall.

20 Q So there could be as much as a 40
21 to 1 ratio during this time period of diaries
22 to meters or maybe greater?

1 A That's correct.

2 Q Okay. Now isn't it true that the
3 September 2001 order on the '97 proceedings
4 directed the MPAA to decrease the incidence of
5 zero viewing in its study if it was going to
6 use such Nielsen data in the future?

7 A I don't recall.

8 Q Let me ask you to take a look at
9 what's been marked as Exhibit 7 in the
10 document in front of you there which is the
11 testimony of Raul Galaz in rebuttal to the
12 direct statement of MPAA-represented program
13 suppliers and that's Exhibit 7 to the Galaz
14 testimony in rebuttal to the MPAA.

15 A Exhibit 7?

16 Q Yes. And you can go past that
17 page that just says Exhibit 7. I'll represent
18 to you that this is a printout of one of the
19 Nielsen data, raw data files that was provided
20 to IPG in this matter. And if you could just
21 look at the first page or so. Does this look
22 like, does the data that's represented here

1 look like Nielsen diary data to you?

2 A Yes, it does.

3 Q And my understanding is these are
4 supposed to be representing 16 weeks of
5 television viewing, correct?

6 A If it's 2003, I would -- I would
7 assume, but I'm not completely sure.

8 Q Okay, part of the reason for my
9 inquiry here is that in terms of -- well, do
10 you see -- it's about the fourth column over.
11 It's entitled zero viewing instances, no, no.
12 It's the next one, aggregate instances.

13 My understanding is those figures
14 under aggregate instances, the first of which
15 is 13,440, that these are the number of
16 quarter hour time periods measured in these
17 different entries. Is that correct?

18 A That would be my interpretation.

19 Q Now I'm going to have to do a
20 little math here because I want to try and
21 figure out how many quarter hours are in a
22 week. And -- excuse me, how many quarter-hour

1 time periods are in a 16-week sweeps sample.
 2 And my calculation is that there are 4 quarter
 3 hours in every hour, multiplied by 24 hours in
 4 a day, multiplied by 7 days in a week,
 5 multiplied by 16 weeks gives a product of
 6 10,752. And we can do it on our calculators.
 7 Does that sound right to you?

8 A The math as you were running
 9 through, I didn't follow and multiply it out
 10 to the 10,000.

11 Q Should we do that very quickly?
 12 Would you mind doing that very quickly just to
 13 confirm that? I can give you a paper and
 14 pencil or do you have the ability to do it in
 15 your head?

16 So it was 4 quarter hours times 24
 17 hours in a day times 7 days a week times 16
 18 weeks.

19 A Somewhere around 11,000 or so.

20 Q The figure I had was 10,752. Now
 21 as I look back at Exhibit 7, under the
 22 aggregate instances which is listing the

1 number of quarter hour time periods, what I
 2 see are numbers generally in excess of that,
 3 some close to double that or in fact, exactly
 4 double that such as the second entry at
 5 21,504. Now it would appear to me that that
 6 means that on that second entry of WTBS that
 7 appears on the first page of Exhibit 7 that
 8 that would mean that actually what was being
 9 presented here in this raw data was more than
 10 16 weeks of information, more like 32 weeks.
 11 Is that a reasonable conclusion?

12 A The aggregate number of quarter
 13 hours, yes.

14 Q And as I said if one looks down
 15 many of these, almost all of them seem to be
 16 in excess of 10,752. My conclusion from that
 17 was that while this data was aimed at
 18 providing 16 weeks of data, it actually
 19 provides a bit more than that. Is that a
 20 reasonable conclusion?

21 A It is including the additional
 22 measurement periods of March and October which

1 would end up adding a considerable degree of
 2 quarter hours to that.

3 Q Right. It just seems from the
 4 mathematical standpoint there may be some time
 5 even in addition to those two months, would
 6 you agree? Because two months would be an
 7 additional 8 weeks, because 8 plus 16 would be
 8 24. And as I say, the second entry represents
 9 32 weeks of quarter hour periods, so it seems
 10 that there must be some additional data coming
 11 into these beyond just the regular sweeps
 12 weeks, the additional two months of October
 13 and May. Do you know where that other time is
 14 coming from?

15 MR. OLANIRAN: Your Honor, I'd
 16 like to object to Mr. Boydston's line of
 17 questioning.
 18 Mr. Boydston is actually implying that this
 19 data that we're looking at is in fact the raw
 20 data that Nielsen provided to IPG. In fact,
 21 it is not. This is an analysis that was
 22 prepared, I suppose, by Mr. Galaz, or someone

1 at IPG. For the purpose of this proceeding,
 2 Nielsen does not, for example, if you look at
 3 the last column, does not do zero viewing
 4 instances in its raw data.

5 This is not the data or the format
 6 in which you will find the Nielsen data. So -
 7 -

8 MR. BOYDSTON: That contradicts
 9 his testimony so far. His testimony was that
 10 these numbers for minutes were what I asked
 11 him they are.

12 MR. OLANIRAN: These are not the
 13 raw data that was produced to IPG. You can
 14 direct the question to Mr. Lindstrom to see
 15 whether or not Nielsen calculates zero viewing
 16 instances. I'm pretty certain they don't.

17 MR. BOYDSTON: I haven't asked
 18 about that.

19 MR. OLANIRAN: You referred to
 20 these as raw data in your line of questioning
 21 and I just want to make sure we're clear about
 22 that.

1 CHIEF JUDGE BARNETT: The witness
2 has already accepted this and has answered
3 questions about it. You can cross examine,
4 Mr. Olaniran.

5 BY MR. BOYDSTON:

6 Q Do you know where these additional
7 minute quarter hour periods could have come
8 from? As I said, you clarified and you had
9 already testified that in addition to the 16
10 sweeps, there's oftentimes time for May and
11 October. But it seems like there's even more
12 in some of these entries and I'm just
13 wondering if you have knowledge as to where
14 the other minutes come from?

15 A Again, I'm not sure where all the
16 aggregates are being built up to, but there
17 are many instances where that could end up
18 occurring.

19 Q Okay. Have you performed an
20 analysis yourself in order to determine the
21 existence of zero viewing in the raw Nielsen
22 data?

1 A I personally have not.

2 Q Has someone at Nielsen done that
3 as far as you know?

4 A Not that I know of.

5 Q Do you know of anyone else who has
6 done that?

7 A Not in terms of specifically
8 looking at that aspect that I recall.

9 Q My follow-up questions were
10 because
11 -- and I asked you and you said "I personally
12 haven't" which implied to me that maybe you
13 knew that someone else had. That was all.
14 But you don't know of anyone else that has
15 done that?

16 A I can only answer for myself in
17 this case.

18 Q Okay. Is --

19 JUDGE STRICKLER: Excuse me,
20 counsel. I didn't mean to step on your words.
21 May I ask him a question to follow up?

22 MR. BOYDSTON: Absolutely.

1 JUDGE STRICKLER: One of your
2 answers before, Mr. Lindstrom, was that you
3 understood that there were other reasons why
4 the aggregates would total more than the
5 additional two months. Counsel didn't ask you
6 what those other instances would be that would
7 account for that. Can you tell us what those
8 other instances would be?

9 THE WITNESS: There could be
10 situations like with GN. GN, there's actually
11 two separate feeds that are going on, one of
12 which is the local GN. The other is the
13 satellite feed of GN which has in some cases
14 different programming. It's possible if
15 somebody were looking at the data, they would
16 aggregate up each signal individually for the
17 quarter hours and then put them together.

18 JUDGE STRICKLER: Sort of a double
19 count on the WGN numbers, is that what you're
20 saying?

21 THE WITNESS: Potentially that's
22 one way of thinking about it, but again, I'm

1 not sure what are the occurrences in terms of
2 how this is built up. What I had been
3 answering originally was going this looks to
4 be consistent with the type of data that would
5 come out from what we were producing, but I'm
6 not sure where the 21,000 directly were coming
7 from.

8 JUDGE STRICKLER: And you said
9 there were instances that you could imagine as
10 to why it would be that you have the aggregate
11 totalling more than the additional two months
12 and you just gave the WGN example. Any other
13 instances or is that all that you can recall?

14 THE WITNESS: That would be the
15 one that -- that type of situation would be
16 the one that would be most likely to come to
17 mine.

18 JUDGE STRICKLER: Anything else?

19 THE WITNESS: Not that I can think
20 offhand.

21 JUDGE STRICKLER: Thank you.

22 Please proceed.

1 MR. ROYDSTON: Thank you.
 2 BY MR. ROYDSTON:
 3 Q Have you reviewed the rebuttal
 4 testimony of Raul Galaz in this matter?
 5 A Very briefly.
 6 Q Have you reviewed the rebuttal
 7 testimony of Dr. Laura Robinson in this
 8 matter?
 9 A No, I haven't.
 10 Q Based upon your review of Mr.
 11 Galaz' rebuttal testimony, do you have any
 12 disagreement that for this time period, 2000,
 13 2003 the Nielsen diary data aggregate zero
 14 viewing was between 78 percent and 82 percent
 15 depending upon the year?
 16 A I have no reason to disbelieve
 17 that.
 18 Q Do you have any reason to disagree
 19 that the range of zero viewing for stations in
 20 the MPAA viewer study was between less than 1
 21 percent and 99.9 percent zero viewing
 22 instances?

1 A I have no reason to believe that
 2 would not be the case.
 3 Q Thank you. Now is it accurate
 4 that some of the station data that was
 5 provided by Nielsen to the MPAA included
 6 stations that showed 100 percent zero viewing
 7 for the selected stations?
 8 A I could not say one way or another
 9 for sure on that.
 10 Q Meaning you don't have any
 11 recollection as to whether that occurred?
 12 A I do not have a recollection as to
 13 that specific.
 14 Q Have you seen that instance before
 15 in Nielsen data?
 16 A I haven't looked for that
 17 specifically. It would not be, again,
 18 inconsistent if it were a station with very,
 19 very low viewing levels, again, keeping in
 20 mind that the base population that we're
 21 looking is somewhere in the neighborhood of
 22 100 million households. In many of these

1 instances, we could be looking for viewing
 2 that are at levels of a 1,000 during any given
 3 quarter hour. It takes a lot in order to find
 4 those which is why you need substantial sample
 5 sizes, but any given quarter hour only has
 6 25,000 as the base sample. That's why in
 7 order to analyze that data, it really is
 8 imperative to aggregate is across time. Zero
 9 viewing is the specific quarter hours for
 10 which the sample sizes would be relatively low
 11 comparatively. And it really is necessary to
 12 aggregate across.
 13 Q And the difficulty in doing that
 14 results in the incidence of zero viewing that
 15 we see, correct?
 16 A Because individual quarter hours
 17 will be going against approximately a 25,000
 18 sample size.
 19 Q Right, if it was a 25 million
 20 sample size, that would probably be a
 21 different story, correct?
 22 A Well, if it were two weeks, then

1 it would be 50,000; in 3 weeks, 75,000 and up
 2 to the 400,000 plus, it's just the individual
 3 quarter hours to look for zero viewing is
 4 again not the purposes for which the study was
 5 designed or terribly surprising when focusing
 6 on that micro level.
 7 Q And that's the issue is that when
 8 focusing on that micro level, this particular
 9 study has its limitations, correct?
 10 A If one were trying to decide on
 11 the audience for an individual quarter hour on
 12 a low-rated station, there would be high
 13 relative errors.
 14 Q Correct, which makes it kind of a
 15 tough yardstick to use for this, doesn't it?
 16 A No. Because the whole purpose is
 17 to aggregate programs across time. To
 18 aggregate across days on strip programming, to
 19 go across weeks and as those accumulate,
 20 you're accumulating sample sizes which is the
 21 way you eliminate a zero viewing issue. It's
 22 the way that it works even in the example of

1 the people meter that I discussed of going
2 becomes an acceptable measure because, in
3 fact, you aggregate across time.

4 Q Now the figures I mentioned a
5 minute ago, in the '97 proceedings, there were
6 73 percent zero viewing in the raw Nielsen
7 data and of these proceedings on these years
8 it's between 78 and 82. Based on those simple
9 numbers, it seems clear that in this study for
10 these years, the incidence of zero viewing is
11 certainly higher, isn't it? I mean it's 82
12 percent versus 73 percent on the high end,
13 correct?

14 A But at the same time I think it's
15 imperative to go. It's not 80 percent of the
16 programs, in fact, have zero viewing. And so
17 that all that that might tell you in terms of
18 a decline or an increase rather and the degree
19 of zero viewing would suggest that there is
20 probably more fragmentation in the marketplace
21 that would cause distant signals to perhaps
22 have slightly less viewing. That is really

1 the main conclusion that you can draw from
2 that type of data set.

3 JUDGE STRICKLER: I have a
4 question for you about the zero viewing
5 quarter hour segments. You said as the sample
6 gets larger, you tend to correct for that.
7 Does Nielsen know whether or not the quarter
8 hours for the survey for one week which is a
9 zero, whether or not the zero repeats for that
10 same quarter hour for that same low-rated show
11 in the next survey and then survey and the
12 next survey or are these zeros all across the
13 low-rated shows and you don't figure out which
14 is which?

15 THE WITNESS: No, well, we don't
16 take that step in the analysis. That's done
17 further down the line. But that's sort of the
18 way that this works is the idea that you may
19 have a zero in Week 1, but when you go to that
20 time period in that program in Week 2 and
21 you're adding them in together that you are
22 going to have a much greater likelihood that

1 you will find viewing in subsequent airings.
2 And we're not producing the data specifically
3 in the type of analysis that you're speaking
4 to other than the end product as I understand
5 it is ultimately an aggregation by program
6 across time which is where you do end up sort
7 of adding in the subsequent viewing. And you
8 would not have anywhere near 80 percent of the
9 programs with no viewing.

10 JUDGE STRICKLER: Yes, so when we
11 see 80 percent zero viewing, we're not saying
12 -- let me ask it this way, is that statistic
13 showing that a particular show, a low-rated
14 show, we'll call it Watching Paint Dry, a low-
15 rated show. It's not zero every time, every
16 quarter hour.

17 THE WITNESS: No.

18 JUDGE STRICKLER: Those 80 percent
19 zeros could be Watching Paint Dry, Watching
20 Grass Grow, two different shows.

21 THE WITNESS: Right. And if it
22 turned out that it was on five days a week and

1 three days nobody watched it, not nobody
2 watched it, but no viewing was recorded and in
3 the fourth and fifth day there was viewing
4 that was recorded, it would still show under
5 that scenario 65 percent zero viewing. But
6 the accumulated viewing across the five days
7 would be a fairly accurate or a reasonably
8 accurate reflection. And as you went across
9 weeks so that you have independent samples
10 adding to it, it will be a better and better
11 number the more weeks and sweeps that are
12 being combined.

13 BY MR. BOYDSTON:

14 Q Now isn't it true there are
15 instances of zero viewing and not just for
16 quote unquote small shows or small stations,
17 but even big stations as well, is it not true
18 that for instance WGN by far and away the
19 largest station that's distantly retransmitted
20 has what I would call anyway a high incidence
21 of zero viewing in excess of 50 percent.
22 Isn't that true?

1 A I don't know the specifics for GN
2 and there are two reasons why that could
3 happen. But first off, keep in mind as we've
4 tried to stress broadcast stations at this
5 point in time would almost be happy with one
6 and two rating levels. You're dealing with
7 small percentages and for cable viewing you're
8 dealing with tenths of a percent as your
9 typical rating level. So that even well
10 distributed, well viewed networks are likely
11 in the grand scheme of things to have
12 relatively low viewing levels at any given
13 point in time.

14 Q Isn't it true, you mentioned
15 earlier you said well, it's not like we have
16 80 percent of programs with zero viewing, do
17 you have an estimate as to what the percentage
18 of programs are out there that have zero
19 viewing instances?

20 A No, I do not.

21 MR. BOYDSTON: Your Honor, I'd
22 like to mark Exhibit 504. It's a one-page

1 document. They are sticking together.
2 (Whereupon, the above-referred to
3 document was marked as Exhibit 504
4 for identification.)

5 BY MR. BOYDSTON:

6 Q Now this is a document which I've
7 only marked at the moment. It hasn't been
8 admitted and I haven't moved for it to be
9 admitted just yet. I'll represent to you this
10 is a document that has been generated by IPG
11 based upon analysis of the raw Nielsen diary
12 data and it reflects here that for the Year
13 2000 out of 8,173 unique programs we have
14 incidents of aggregate zero viewing of 42.65
15 percent. Do you have any reason to believe
16 that that would be inaccurate?

17 A I have no reason to believe it is
18 accurate either. And that's not question it.
19 It's just simply I don't have the base
20 information to be able to say.

21 Q Okay.

22 JUDGE STRICKLER: Counsel, just so

1 you can clarify so I understand the questions
2 and the answers here. That final column,
3 percentage of programs with aggregate zero
4 viewing, does that mean as far as you're
5 representing percentage of programs with any
6 aggregate zero viewing or total aggregate zero
7 viewing?

8 MR. BOYDSTON: Any.

9 JUDGE STRICKLER: Thank you.

10 MR. BOYDSTON: Total is a story
11 for another day.

12 JUDGE STRICKLER: Fair enough.

13 BY MR. BOYDSTON:

14 Q Let me ask you to turn to Exhibit
15 8 in the document you have there in front of
16 you. I'm sorry, Your Honors, it's just the
17 next exhibit in that same document we were
18 looking at.

19 CHIEF JUDGE BARNETT: Exhibit 8 to
20 the Galaz rebuttal testimony to MPAA?

21 MR. BOYDSTON: And actually,
22 belatedly, I'd like to move admit Exhibit 7.

1 MR. OLANIRAN: Objection, Your
2 Honor, on the same basis that I made before.
3 Mr. Lindstrom cannot authenticate this
4 document and while he answered questions about
5 it, I think his answers were more in a general
6 form, not specific to the document.

7 MR. BOYDSTON: The witness
8 acknowledged that this appeared to be
9 information that did come straight from the
10 Nielsen raw data. That's the purpose for
11 which it's being admitted.

12 MR. OLANIRAN: Your Honor, this
13 information did not -- it may have come from
14 the Nielsen data, but this is not information
15 Nielsen prepared. The only information
16 Nielsen provided with respect to the diary is
17 the raw data. This is not the raw data.
18 Nielsen does not calculate zero viewing
19 instances and Mr. Lindstrom's testimony has
20 been very consistent with that.

21 I think you can attempt to put
22 this in with the witness that sponsored this,

1 but I'm quite sure that Mr. Nielsen did not
2 prepare this document.

3 CHIEF JUDGE BARNETT: The
4 objection is sustained. Exhibit 7 to the
5 rebuttal testimony is rejected.

6 MR. BOYDSTON: Not admitted.

7 CHIEF JUDGE BARNETT: Not
8 admitted.

9 (Laughter.)

10 MR. BOYDSTON: Thank you.

11 CHIEF JUDGE BARNETT: I know
12 you'll make another stab at it, Mr. Boydston.

13 MR. BOYDSTON: I appreciate that.
14 Thank you.

15 MR. HARRINGTON: Your Honor, if I
16 could be heard for a second?

17 CHIEF JUDGE BARNETT: You may.

18 MR. HARRINGTON: I note we didn't
19 state a position on this, but the fact is
20 we've never received this document. We
21 haven't received any of the proposed exhibits
22 that IPG has exchanged regarding MPAA. And if

1 we're going to have a meaningful involvement,
2 we would like to be provided with a copy of
3 the exhibits that are going to be proposed for
4 entry in this case.

5 MR. BOYDSTON: Your Honor, this is
6 not the case against SDC. I'm not talking to
7 an SDC witness.

8 CHIEF JUDGE BARNETT: Mr.
9 Boydston, I thought we had made it clear that
10 all documents were to be provided to all
11 parties and so to the extent that you have not
12 provided MPAA to Mr. Harrington or SDC
13 documents to Mr. Olaniran, you need to do
14 that.

15 MR. BOYDSTON: All right. I mean
16 the only reason we haven't is as I said --

17 CHIEF JUDGE BARNETT: I understand
18 your point, but you need to understand ours.

19 MR. BOYDSTON: Okay.

20 BY MR. BOYDSTON:
21 Q With regard to Exhibit 8, do you
22 recognize this exhibit as containing

1 information from the raw Nielsen data?

2 A I recognize that it contains data
3 that wouldn't have been there as well, given
4 some of my perhaps speculation on the last
5 one, I think I need to avoid this one. We
6 didn't do data that was connected with the
7 application of the program names.

8 Q Okay, are you referring to field
9 three there?

10 A Yes, which seems to be a key
11 component of the data set.

12 Q Is there anything else in this
13 that you would add to that field three in your
14 answer?

15 A I am not sure what the rest of the
16 fields are either, but I do know that, in
17 fact, the program name data we did not get
18 involved with.

19 Q Okay, the field at the far right,
20 do you have a recognition of what that is,
21 based upon what the raw Nielsen data is?

22 A I'm not sure offhand. I could

1 speculate.

2 Q What's your speculation?

3 A Actually, I'm not completely sure.

4 CHIEF JUDGE BARNETT: We're not
5 going to ask witnesses to speculate.

6 MR. BOYDSTON: He said I could
7 speculate. That's why I followed up.

8 CHIEF JUDGE BARNETT: Could, but
9 he's not allowed to.

10 MR. BOYDSTON: Fair enough.

11 BY MR. BOYDSTON:
12 Q Let me ask you to look back at
13 Exhibit 7 and do you see stations on the left
14 hand side of that document that based upon
15 your experience you would believe were
16 probably independent stations as opposed to
17 network stations?

18 A Yes.

19 Q And do you see that those
20 independent stations and I realize that this
21 is something that did not come from Nielsen,
22 but they show an incidence of zero viewing on

1 the far right hand corner, at least as
2 represented in this document?

3 A Yes.

4 Q Do you have any reason to believe
5 that there would be a difference between zero
6 viewing of an independent station and a
7 network station?

8 A There could be differences,
9 depending on how this was calculated.

10 Q Just based upon what you see here,
11 do you see that or do you believe that
12 network-affiliated stations have a higher
13 incidence of zero viewing than network
14 stations?

15 A I'm not familiar with all the
16 stations. I couldn't divvy them up in my
17 mind.

18 Q Okay, let me ask the question just
19 a little different way. In general, is it
20 your belief that network-affiliated stations
21 would have a different, fundamentally
22 different zero viewing incidents than network

1 stations?

2 A The main reason why there would be
3 a difference depending on how the calculations
4 were done or whether or not the quarter hours
5 with compensable programming were handled
6 before the analysis was done or not, so that
7 the network feeds would have been potentially
8 stricken which would end up with a zero
9 viewing cell.

10 We didn't do the program names
11 associated with that so those instances
12 should, in fact, come up with zeroes. I don't
13 know whether they were within this analysis.

14 The second thing is is that, and
15 it's a very broad type of statement and so it
16 is going to vary piece by piece within this is
17 that network programs will often have higher
18 ratings which, in fact, may or may not lead to
19 differences in the zero viewing cells, but
20 it's difficult to say. I don't think there's
21 -- you could necessarily make too general a
22 statement on that.

1 Q I don't know if it's in front of
2 you there or not, but I think I can ask a
3 question and you can answer it without it in
4 front of you. If not, let me know. What I'm
5 referring to is your statement that you talked
6 about yesterday and you provided several
7 changes in your statement, as of yesterday, do
8 you recall that?

9 A I do.

10 Q And particularly on page six of
11 your testimony, you changed the references a
12 couple of times from the MPAA analysis, or
13 excuse me, the Nielsen custom analysis to Dr.
14 Gray's custom analysis. Do you recall that?

15 A Yes, I do.

16 Q When you refer to Dr. Gray's
17 custom analysis, what exactly is it you're
18 referring to?

19 A I'm referring to an analysis
20 that's downstream from the work that Nielsen
21 did. We produced quarter hours, estimates of
22 quarter hours of viewing for distant cable

1 households among individual stations on a
2 quarter hour basis. And down the line from
3 that point in time, program names were affixed
4 to it and the analysis was completed.

5 And so it was a case of saying in
6 this case the analysis piece would have been
7 further down the line from the work that we
8 were producing.

9 Q So if you could be more specific,
10 what was the work that Dr. Gray did that you
11 are encompassing in your phrase, "Dr. Gray's
12 analysis"?

13 MR. OLANIRAN: Objection, Your
14 Honor. I think Mr. Lindstrom is not qualified
15 to testify what Dr. Gray did. If he wants to
16 know what Dr. Gray did he can ask him.

17 MR. BOYDSTON: He's changed his
18 analysis to say that what he's talking about
19 is Dr. Gray's analysis which certainly implies
20 that he knows something about Dr. Gray's
21 analysis, otherwise why would he say it?

22 CHIEF JUDGE BARNETT: I'll allow

1 the question. He used the terminology in his
2 testimony.

3 THE WITNESS: The piece that the
4 adjustment had been made for was the notation
5 regarding two aspects of zero viewing, one of
6 which was taking out, in fact, the broadcast
7 network; viewing quarter hours that would not
8 have been compensable. We are producing
9 viewing data for all stations for all quarter
10 hours without trying to program name, so that
11 step within the process to take out
12 noncompensable quarter hours would have been
13 done further on and would have been part of --
14 included within Dr. Gray's analysis. And the
15 same with GN, where comparisons were necessary
16 in order to determine which quarter hours
17 should be included or not having to do with
18 the comparison of the national satellite feed
19 versus the local feed and where there are
20 differences.

21 BY MR. BOYDSTON:
22 Q So are you saying that after

1 Nielsen provided the raw data to Dr. Gray
2 which included things like noncompensable
3 programming, network programming, if you will,
4 that after that, Dr. Gray removed that
5 noncompensable programming from the data set
6 you received from Nielsen and then did
7 something with it?

8 A We provided our data to the MPAA
9 which was then gone on to Dr. Gray, but it is,
10 in fact, my understanding that that was done
11 in between Nielsen's work on the estimates of
12 the audience and Dr. Gray's final analysis.

13 Q And how do you know that?

14 A It is my understanding that that
15 is part of Dr. Gray's analysis.

16 Q What's the basis for that
17 understanding?

18 A I cannot speak with full expertise
19 on the details of Dr. Gray's analysis, so --

20 Q Well, do you know if it was Dr.
21 Gray who did that or some other person?

22 A I only know that it was done

1 further downstream from the work that we were
2 doing.

3 Q And how do you know that?

4 A Because we didn't do it.

5 Q Well, how do you know it was done
6 in the first place then?

7 A It is my understanding that it's
8 done. I couldn't sit and tell you the details
9 of how I know that.

10 Q Well, you say that you know it,
11 something must have made you know it?

12 A I would say that -- I may have
13 overstepped my statement in too strong a way.
14 And in fact, I would requalify that as saying
15 I, in fact, have -- I have no positive
16 confirmation to say one way or another that it
17 was done. I only can speak to the data set
18 that we provided which is again, the estimates
19 of the audience on a distant cable basis on a
20 station by station.

21 Q I'm sorry, I beg your pardon. The
22 data set you produced did include

1 noncompensable programming, correct?

2 A It would because we wouldn't have
3 gone through to identify the program level
4 data. It has to be done once the program
5 schedules are affixed.

6 Q And noncompensable programming
7 includes, for instance, network programming,
8 correct?

9 A I'm probably best not commenting
10 on that because I didn't get involved with
11 that aspect of it.

12 Q Well, are you aware as to whether
13 or not network programming is compensable in
14 these matters?

15 A I am aware, but not to the extent
16 of being able to answer on details on it. To
17 a certain extent, you could almost go into a
18 speculation mode. It doesn't affect what we
19 produced and as I said, I may have made a
20 stronger statement before than perhaps I
21 should have.

22 Q Now you said yesterday in your

1 testimony that zero viewing is a misnomer in
2 the sense that when Nielsen data shows zero
3 viewing Nielsen isn't really saying no one is
4 watching, correct?

5 A Other than for analysis purposes
6 where we're putting numeric fields in, Nielsen
7 doesn't show zero viewing.

8 Q But I think your point was and
9 forgive me if I'm wrong, but your words
10 yesterday I believe were just because you have
11 something that shows no viewing under the
12 Nielsen data, doesn't mean that no one is
13 actually watching at that time, correct? It
14 just means that the Nielsen method did not
15 pick that up?

16 A That the levels would likely have
17 been too small to have found reported viewing.
18 Yes.

19 Q And again, this may be asking you
20 to be overstepping your bounds and if not, I'm
21 sure you'll avoid that. Isn't it the case
22 that MPAA study accords no value to programs

1 that have a zero viewing incidence?

2 A That's not true.

3 Q And why is that not true?

4 A Once again, it's important to keep
5 in mind sampling in the way that it works so
6 that during any individual quarter hour you
7 may or may not find viewing in the same way
8 that for any given respondent it might be a
9 yes or a no in terms of have they viewed. You
10 would expect that to occur. But it's only
11 once you only add up all of the aggravated
12 viewing that, in fact, your estimate is
13 accurate.

14 And so it's a situation that it
15 really is necessary to add up the viewing
16 across time.

17 Q Yes, but to the extent that the
18 MPAA study accords no royalty rights or no
19 right to actually get paid royalties out of
20 this proceeding to a program that shows up
21 with a zero viewing on the Nielsen data, is it
22 not true that zero viewing in the Nielsen data

1 translates to no value in these proceedings?

2 MR. OLANIRAN: Objection, Your
3 Honor. Mr. Lindstrom is not testifying what
4 MPAA's distribution methodology or what MPAA's
5 methodology is in this proceeding. He's
6 testifying to what Nielsen produced to MPAA.

7 CHIEF JUDGE BARNETT: Sustained.
8 And let's keep our objections to the statement
9 of the legal basis for the objection, please,
10 not a narrative. Objection sustained.

11 BY MR. BOYDSTON:

12 Q Do you have an understanding of
13 how the MPAA study accords shares of these
14 royalty pools to individual program suppliers?

15 A To the extent that my knowledge
16 goes and it is again and a step further
17 downstream than what we do, but it examines
18 programs and examines programs across time and
19 across stations in a very aggravated way.

20 And under that scenario, instances
21 with multiple stations and multiple time
22 periods coming up with zero viewing are going

1 to be certainly the exception to that rule.

2 It's why again you have to keep aggregating
3 and a zero for a given quarter hour, as we
4 keep going back to it, zero viewing for a
5 given quarter hour doesn't mean anything. It
6 is only in that aggregation. And to the best
7 of my knowledge of what the MPAA does, I think
8 it's a fair representation of the relative
9 amount of viewing going to those programmings
10 across times and station.

11 Q Do you think it's a fair and
12 relative representation if the MPAA
13 methodology accords no compensation whatsoever
14 for a program that, in fact, does have
15 viewership?

16 MR. OLANIRAN: Objection,
17 relevance, Your Honor.

18 CHIEF JUDGE BARNETT: Sustained.

19 THE WITNESS: Can you rephrase
20 that?

21 CHIEF JUDGE BARNETT: You don't
22 have to answer.

1 THE WITNESS: I'm sorry, I thought
2 you were saying go ahead with it.

3 CHIEF JUDGE BARNETT: I used to
4 confuse those two all the time myself.

5 (Laughter.)

6 BY MR. BOYDSTON:

7 Q Would you as an expert normally
8 provide relative error rates as part of your
9 report?

10 A It's actually a difficult question
11 to answer. It's something that will often be
12 provided if it's asked for in terms of
13 syndicated data. It's frequently done. In
14 situations like this one, relative errors are
15 exceedingly complicated because effectively
16 every single program depending on how it's
17 aggregated will have different relative
18 errors. I don't know whether it pays to go
19 into the reasons for that or whether you can
20 accept that as what the situation is, but as
21 a result, trying to calculate out relative
22 errors on a study like this that will

1 subsequently be aggregated at a later point is
2 exceedingly difficult and cumbersome. If we
3 had a set of numbers that we did, we could
4 produce it, something along these lines, very
5 hard. And they will differ all over the place
6 and need separate calculations for each.

7 JUDGE STRICKLER: Excuse me,
8 counsel. Can you define that term formally,
9 relative errors?

10 THE WITNESS: Relative error would
11 be the relationship of the standard error to
12 the number that's being measured. So if we
13 produced a 10 rating, for example, and it had
14 a standard error of 2.5 points, it would be a
15 25 percent relative error. And so it's a
16 gauge of how tight the fit will be. It's kind
17 of a direct reflection of standard error.

18 The reason why it differs is that
19 one of the key components in calculating
20 either standard error or relative error over
21 time is how much is coming from unique
22 individuals. So it's not just the sample

1 size. It's whether there's a correlation of
2 viewing between events. And so the net result
3 is each program will have different
4 correlations or each aggregation will have
5 different correlations and different sample
6 sizes, causing it to again be very difficult.

7 BY MR. BOYDSTON:

8 Q You've testified a number of times
9 in these proceedings. I understand going back
10 a significant amount of time.

11 MR. HARRINGTON: Asked and
12 answered, Your Honor.

13 MR. BOYDSTON: There's a little
14 more to it.

15 BY MR. BOYDSTON:

16 Q Have you ever testified on behalf
17 of Settling Devotional Claimants?

18 A I actually don't recall. I've
19 done so many of these. I don't remember as
20 people have gone in and out of these
21 situations. I'm also a little bit unclear on
22 exactly what the question is asking.

1 Q Sorry about that. What I was
2 asking is have you ever testified in these
3 proceedings or proceedings before the CARP or
4 before its predecessor the CRT on behalf of
5 Settling Devotional Claimants prior to now?

6 A Again, I can't remember off the
7 top of my head whether I have specifically
8 done it. I have certainly been cross examined
9 by the devotionals. I know that.

10 (Laughter.)

11 Q Have you testified on behalf of
12 anyone other than the MPAA in these
13 proceedings?

14 A Again, I don't recall. I have
15 done work for other claimants. I do not
16 recall whether I was specifically called for
17 those studies independent of the work that
18 I've done with the MPAA. But we are
19 fundamentally Nielsen is a fence-sitter,
20 although I'm testifying for the MPAA. I'm
21 here to testify about what we did and we can
22 and have done work for other claimant parties.

1 Q Nothing further.
 2 CHIEF JUDGE BARNETT: Mr.
 3 Harrington?
 4 MR. HARRINGTON: Yes, Your Honor,
 5 just one or two questions.
 6 CROSS EXAMINATION
 7 BY MR. HARRINGTON:
 8 Q Mr. Lindstrom, in your experience
 9 reviewing viewing data, have you found that
 10 viewing is constant across a 24-hour day or
 11 does it change from quarter hour to quarter
 12 hour? Let's assume national aggregate
 13 numbers.
 14 A Change in which way, if you could
 15 just --
 16 Q So do the same number of people
 17 watch television generally, all programs at
 18 say six in the morning or six in the
 19 afternoon?
 20 A No, it changes throughout the
 21 course of the day.
 22 Q It does. And are -- how would you

1 -- would you say that viewing during the hours
 2 of say 2 a.m. or 6 a.m. are relatively low as
 3 compared to other hours during the day?
 4 A They tend to be relatively low,
 5 yes.
 6 Q And based upon your experience in
 7 doing this for many years, am I correct that
 8 starting at the hour of 2 a.m. viewing is
 9 quite low and then at some point say at about
 10 5 o'clock it builds up again and that the
 11 lowest viewing level would be what, 2:30, 3:00
 12 o'clock in the morning?
 13 A It tends to be in that type of
 14 neighborhood, but I couldn't give you the
 15 specifics.
 16 Q Okay, so if someone took the
 17 viewing levels nationally at 1:30 a.m. and
 18 drew a linear interpolation and reduced it
 19 each quarter hour until, or half hour, until
 20 6:30 a.m., so that the lowest viewing levels
 21 are at 6 a.m., would that be a fair way to do
 22 that?

1 A I would tend not to do linear
 2 relationships in terms of television viewing
 3 overall.
 4 Q Thank you very much. That's all I
 5 have.
 6 CHIEF JUDGE BARNETT: Mr.
 7 Olaniran?
 8 REDIRECT EXAMINATION
 9 BY MR. OLANIRAN:
 10 Q Good morning, Mr. Lindstrom. Greg
 11 Olaniran for MPAA. I just have a couple of
 12 very quick questions.
 13 Just so we're clear, this zero
 14 viewing idea we're talking about, when you're
 15 looking at a particular station on a
 16 particular date at a particular quarter hour
 17 and the specific households that are viewing
 18 that station, is that your understanding of
 19 what the zero viewing instances are?
 20 A They're instances of particular
 21 stations, particular households, particular
 22 days and particular quarter hours, yes.

1 Q And you spoke --
 2 A And if I could add on, and
 3 particular weeks.
 4 Q Okay.
 5 A So that it's not an instance of
 6 Monday at 8 across all weeks. It's Monday at
 7 8 on February 2nd.
 8 Q Thank you. You spoke in terms of
 9 fragmentation as probably accounting for the
 10 difference between say the incidence of zero
 11 viewing in some prior years versus say when
 12 you compare those prior years to say the
 13 period from 2002 to 2003. What do you mean by
 14 fragmentation in the marketplace? Are you
 15 talking in terms of programming?
 16 A It was mainly meant to be a
 17 reflection of saying that television usage for
 18 individual stations has declined over time and
 19 has declined considerably for individual
 20 viewing sources. And part of the reason for
 21 that HUT levels are tending to be about the
 22 same meaning the number of people using

1 television is about the same, but the
2 individual stations have gone down. And the
3 most likely scenario for that is simply there
4 are more stations. Cable systems have more
5 channels. There are more channels that are
6 available. And so the viewing is getting
7 divided up to a greater extent. And so a
8 situation with more zero cells as one piece of
9 what could cause that would be simply saying
10 viewing is declining for individual stations
11 overall, so it's not surprising it would occur
12 here.

13 CHIEF JUDGE BARNETT: May I
14 inquire?

15 MR. OLANIRAN: Oh, sure.

16 CHIEF JUDGE BARNETT: Mr.
17 Lindstrom, is there any way that Nielsen
18 measures Netflix streaming or Hulu or any of
19 those other sources of TV light time?

20 THE WITNESS: We're doing that
21 now. That's all part of the way that the
22 measurement system has changed. It's actually

1 declines in traditional television usage.

2 But those are not -- they're
3 reflected in the numbers that we're producing,
4 but they're not included them if that makes
5 sense.

6 CHIEF JUDGE BARNETT: Okay.

7 THE WITNESS: They would impact,
8 you'd see those impacts, but not specifically
9 included.

10 CHIEF JUDGE BARNETT: Thank you.

11 BY MR. OLANIRAN:

12 Q Your general point seems to be
13 that in addition to more stations, let's say,
14 these additional media services are
15 necessarily competing with broadcast stations
16 and that could account for some of the lower
17 numbers for the broadcast stations. Is that
18 a fair statement?

19 A It's a fair statement that there's
20 been a considerable degree of competition that
21 has come on, you know, through the years and
22 to the extent that it was occurring during the

1 some of the streaming sources of video have
2 been causing the biggest headaches in the
3 business right now, but we have gotten to a
4 point at this point where we're now beginning
5 to include PC usage. We're beginning to
6 include on-demand. It doesn't have to be
7 viewed simultaneously. And our measuring
8 services like Netflix and Hulu to be able to
9 track. It's a very big component for the
10 industry, but also very hard as you can
11 imagine.

12 CHIEF JUDGE BARNETT: But for the
13 period relevant to this case, there was no
14 consideration of DVD usage? I guess that was
15 the in technology at that point or videotapes
16 or any other -- when the TV was on and the
17 source of the signal was something other than
18 cable or broadcast?

19 THE WITNESS: It would not be
20 included. So it's not part of the overall
21 television usage. If there were degrees of
22 more DVD viewing, it would end up showing

1 period of this study, I couldn't say, but it
2 has, in fact, been an ongoing change within
3 the marketplace since probably the '80s.

4 Q Thank you. No further questions,
5 Your Honor.

6 JUDGE FEDER: Going back to Judge
7 Barnett's question, similarly, is there
8 anything in these data that reflect DVR usage,
9 delayed viewing of broadcast programming using
10 a DVR?

11 THE WITNESS: DVRs at that point
12 in time were very small and wouldn't have been
13 a significant player. We would have included
14 videotaping, if there was playback, but it
15 would only be included if it had occurred
16 during the week in question. Remember,
17 somebody is only keeping this diary for a
18 week's time. So effectively, there would be
19 some degree of taping that would occur that
20 would not have been in here. I don't want to
21 say that it was reflecting all of that. I
22 think it's probably a more accurate way to

1 think about it as being live viewing.

2 JUDGE FEDER: Thank you.

3 CHIEF JUDGE BARNETT: Do the
4 questions from the bench raise questions for
5 counsel?

6 MR. BOYDSTON: Yes, but I also
7 have a question to follow up on the redirect.

8 CHIEF JUDGE BARNETT: All right.

9 RECROSS EXAMINATION

10 BY MR. BOYDSTON:

11 Q Mr. Lindstrom, I wanted to ask you
12 about fragmentation which Mr. Olaniran asked
13 you about. To lay a foundation for that
14 though I need to ask a question. I've known
15 Nielsen to be around for as long as I know,
16 but why don't you give me a better answer or
17 better information than that. How long has
18 Nielsen been doing this -- been in this
19 business of TV ratings?

20 A It goes back into the '50s and
21 they've been in the market research business
22 before that.

1 Q Okay, and when in the 1950s,
2 that's a whole decade, but to the extent we
3 can collectivize it, from what I know there
4 were three national networks, correct, and
5 then there were independent stations around
6 the country. Is that a fair explanation of
7 the TV landscape at that time?

8 A I couldn't tell you the exact
9 number of networks. They've kind of come and
10 gone and gone in and out of business, but it
11 certainly has been a reasonable definition of
12 what the marketplace looked like many years
13 ago.

14 Q Okay, and my questions on this are
15 certainly questions for an expert because this
16 is something that I don't think anyone else
17 here perhaps knows and that's why I'm asking
18 you. In terms of fragmentation, fragmentation
19 was there much fragmentation from say the dawn
20 of the TV era in the '50s to the 1960s or was
21 that fairly constant, if you know?

22 A Actually, could you restate that?

1 I'm sorry.

2 Q Sure. Were the number of TV
3 stations in the United States, did they
4 increase appreciably between the 1950s and the
5 1960s? I'll make it more specific, say
6 between 1965 and 1969? Was there a
7 significant increase in stations?

8 A I couldn't tell you.

9 Q At some point was there a
10 significant increase in stations over the
11 station landscape from the 1950s?

12 A Again, I am not an expert on
13 historical television. I've got a pretty good
14 idea on what was going on from '78 when I
15 joined Nielsen on, but prior to that I
16 couldn't answer definitively.

17 Q Was there an increase in TV
18 stations from say 1978 to 1990 that was
19 noticeable or significant?

20 A There would have been an increase
21 both in terms of stations and cable sources of
22 programming.

1 Q Do you have an estimate as to what
2 sort of percentage growth there was during
3 that time period?

4 A I couldn't tell you.

5 Q How about the difference in the
6 number of stations and cable systems or cable
7 channels rather from when you started in 1978
8 and say 2000, was there an appreciable change
9 or increase?

10 A There would be an appreciable
11 change, but I couldn't dimension the size of
12 it. Cable systems went from 20 channels being
13 a big one to 100 channels being a small one.
14 The distribution technologies and the
15 programming to fill it has grown extremely
16 rapidly.

17 Q And what I'm trying to get a
18 handle on is when that growth occurred. Your
19 testimony in response to Mr. Olaniran's
20 question was there's been a huge increase in
21 the number of stations and that's decreased
22 viewership on them all, correct? That was

1 your testimony to Mr. Olaniran's question,
 2 correct?
 3 A My answer to why you might find an
 4 increase in zero viewing was that there has
 5 been increases in fragmentation, but to the
 6 degree to be able to give specific growth
 7 numbers, I couldn't do offhand to say it
 8 occurred in 1988 or whatever the period of
 9 time was. It's just there has been a general
 10 flow from 1978 when I began working at
 11 Nielsen. There was three networks. The three
 12 network share was 90 and a program was
 13 canceled if it didn't have a 30 share. And
 14 nowadays if somebody got a 30 share, that
 15 would be a super event. And it has been a
 16 continuum based upon, as I said, ease of
 17 distribution, digital, as the technology
 18 simple growth in cable. Cable penetration has
 19 gone from 25 percent during that period of
 20 time up to 90, all of which leads to increases
 21 in channels. So it's not a clear cut case of
 22 going the number of broadcast stations has

1 increased. It's going at that point in time 25
 2 percent of people had increases in channels
 3 because of cable and now it's become virtually
 4 ubiquitous.
 5 So there's a lot of factors at
 6 play, but there's no question the average
 7 number of channels that people can receive has
 8 gone up and gone up considerably.
 9 Q And to that point you used a
 10 particular metric. You said when you started
 11 out if a network program didn't get a 30
 12 share, it might be canceled. How would you
 13 characterize that situation today? What's the
 14 -- I know it's a generalization, but how do
 15 you generalize that figure today? What does
 16 a network program have to get to avoid
 17 cancellation as a general matter?
 18 A Again, it varies all over the
 19 place, but for a variety of reasons. It is
 20 substantially lower than that. It's in the
 21 teens at this point in time, can still be
 22 considered a healthy number.

1 Q My follow up to Judge Feder's
 2 question was how -- he asked about DVR viewing
 3 and I was curious with regard to the Nielsen
 4 meter, how does a Nielsen meter, does a
 5 Nielsen meter detect and take note of and
 6 record a DVR event?
 7 A It does now. It didn't during the
 8 time in question in the early 20002.
 9 Q Thank you. Nothing further.
 10 CHIEF JUDGE BARNETT: Mr.
 11 Harrington?
 12 MR. HARRINGTON: Just one
 13 question?
 14 CHIEF JUDGE BARNETT: You may.
 15 RE CROSS EXAMINATION
 16 BY MR. HARRINGTON:
 17 Q Mr. Lindstrom, we've used a couple
 18 of different terms here. We talked about
 19 ratings and about shares and you talked about
 20 a 1 rating was good and now an 18 share is
 21 good. Could you explain for the record the
 22 difference between a rating point and share?

1 A Sure. A rating is a percentage of
 2 a universe that was watching something, so
 3 let's say that there's 100 million households
 4 in the United States as a very rough number.
 5 If 10 million were watching a particular
 6 programming during the average minute, it
 7 would be 10 million divided by 100 million or
 8 10 percent. That's a 10 rating. It's the
 9 percentage of the universe that would be
 10 viewing it.
 11 A share is really looked at -- and
 12 that's an absolute level. A share is a
 13 relative one in order to see how you're doing
 14 competitively. So taking that same example,
 15 if the percentage of people which is the HUT
 16 level, Households Using Television, I
 17 shouldn't say percentage of people, but
 18 percentage of households, was 50, 50 percent
 19 of them were viewing during the period in
 20 question, and you had 10 percent that were
 21 tuned to your channel, it's 10 divided by 50
 22 or 20 share. So in that scenario, you would

1 have a 10 rating and a 20 share.
 2 Q Thank you.
 3 CHIEF JUDGE BARNETT: Thank you,
 4 Mr. Lindstrom. You may be excused.
 5 THE WITNESS: Thank you.
 6 (The witness was excused.)
 7 CHIEF JUDGE BARNETT: Mr.
 8 Olaniran.
 9 MR. OLANIRAN: We will call Dr.
 10 Jeffrey Gray.
 11 WHEREUPON,
 12 DR. JEFFREY GRAY
 13 WAS CALLED FOR EXAMINATION BY COUNSEL FOR THE
 14 MOTION PICTURE ASSOCIATION OF AMERICA AND,
 15 HAVING FIRST BEEN DULY SWORN, WAS EXAMINED AND
 16 TESTIFIED AS FOLLOWS:
 17 MR. OLANIRAN: May I proceed, Your
 18 Honor?
 19 CHIEF JUDGE BARNETT: Yes, you
 20 may.
 21 MR. OLANIRAN: Thank you.
 22 DIRECT EXAMINATION

1 BY MR. OLANIRAN:
 2 Q Good morning, Dr. Gray. My name
 3 is Greg Olaniran and I'm counsel for MPAA.
 4 Would you please state your name for the
 5 record and spell it?
 6 A Yes, it's Jeffrey Gray, J-E-F-F-R-
 7 E-Y G-R-A-Y.
 8 Q And what is your educational
 9 background?
 10 A I have a Ph.D. in Economics from
 11 the University of Pennsylvania and also an
 12 undergraduate degree in Economics from the
 13 University of California at Santa Cruz.
 14 Q Where do you work?
 15 A I work at Deloitte Financial
 16 Advisory Services, LLP.
 17 Q And what position do you currently
 18 hold at Deloitte?
 19 A I'm a principal and also the
 20 national leader of their Economic and
 21 Statistical Consulting Group.
 22 Q And what are your responsibilities

1 in that position?
 2 A Well, I have various
 3 administrative responsibilities including
 4 hiring into the group, setting compensation,
 5 overseeing staffing levels, representing the
 6 group in leadership functions and meetings.
 7 But my primary responsibility really is client
 8 service which is providing economic and
 9 statistical consulting services to companies,
 10 government agencies and sometimes indirectly
 11 via law firms.
 12 Q And where were you prior to
 13 Deloitte?
 14 A Well, prior -- I should say I
 15 started at Deloitte in 2002, but then from
 16 2006 in the summer through 2009, I left
 17 Deloitte and was with Huron Consulting Group.
 18 Q Prior to your first stint at
 19 Deloitte, would you please provide with a
 20 sense of your work experience at all of the
 21 other places, where you worked over the last
 22 several years?

1 A Sure. I worked for both large and
 2 small economic consulting shops. I also spent
 3 a year at the White House, the President's
 4 Council of Economic Advisors.
 5 Q And describe briefly the subject
 6 matter of your specialty.
 7 A Sure. In general, I focus on
 8 understanding and studying markets, how prices
 9 and quantities are determined in those markets
 10 and how market imperfections or distortions
 11 affect those equilibrium prices and
 12 quantities. I would say my specialty is
 13 analyzing data associated with those markets,
 14 often large amounts of data, to draw
 15 conclusions regarding those alleged or actual
 16 imperfections and distortions.
 17 Q And what are the specific fields
 18 in terms of -- how would you define those
 19 different fields?
 20 A I would say economics, statistics,
 21 and econometrics.
 22 Q What is the distinction among --

1 how do you distinguish between -- among those
2 three fields?

3 A Good question. I would say
4 economics is the study of the sort of
5 production, allocation, and consumption of
6 goods and services, very broadly speaking.
7 Statistics, also broadly speaking,
8 is the study of the collection, analysis, and
9 the interpretation of data.

10 Econometrics is the intersection
11 of those two disciplines. It's the
12 application of statistical methods to economic
13 data to provide content to economic
14 relationships being studied.

15 Q And how long have you worked in
16 these fields?

17 A Approximately 25 years.

18 Q Have you taught also in these
19 fields?

20 A Yes.

21 Q And where did you teach?

22 A I taught at the University of

1 Illinois at Urbana-Champaign. I was a tenured
2 track assistant professor there. I also
3 taught while I was a grad student at the
4 University of Pennsylvania. I taught at the
5 University of Pennsylvania as well as co-
6 taught a course in the Business School there
7 called Wharton.

8 Q Are you published?

9 A Yes.

10 Q In what areas?

11 A I've been published in peer-
12 reviewed journals in the sort of general area
13 applied microeconomics with a special focus on
14 labor economics.

15 Q And have you served as a referee
16 for peer-reviewed journals?

17 A Yes. Throughout my career, I've
18 been asked to serve as a referee to judge the
19 appropriate use of economics and statistics
20 when people submit publications.

21 Q Do you have any experience in
22 media and entertainment industry?

1 A Some consulting experience. I've
2 done work on behalf of large metropolitan
3 newspapers. I was also engaged by outside
4 counsel for a performance rights organization,
5 also known as a PRO to assess the economic
6 value of a blanket license, giving certain
7 companies the right to perform music from the
8 PRO's library on their internet sites.

9 Q Have you done any work related to
10 cable television industry?

11 A Yes. I've also been engaged by
12 outside counsels for CSOs who have been
13 involved in I guess either negotiations and/or
14 contract disputes with basic cable channels
15 concerning the programming on those channels,
16 how that programming has changed over time,
17 and the associated viewership of those
18 programs and channels.

19 Q And have you previously testified
20 either before this body, the CARP, the CRT, or
21 any other Court or regulatory body?

22 A I have not testified before this

1 body, but I've testified before both
2 international and Federal Courts in the United
3 States, both written and orally.

4 MR. OLANIRAN: Your Honor, at this
5 point, I'd like to offer Dr. Gray as an expert
6 in the field of economics, statistics, and
7 econometrics?

8 MR. BOYDSTON: No objection.

9 MR. HARRINGTON: No objection.

10 CHIEF JUDGE BARNETT: Dr. Gray is
11 so qualified.

12 BY MR. OLANIRAN:

13 Q Dr. Gray, what were you asked to
14 do in this proceeding?

15 A Yes, I was asked to propose an
16 allocation methodology of the cable royalty
17 funds attributable to the program suppliers
18 category between 2000 and 2003, between IPG
19 represented claimants and MPAA represented
20 claimants.

21 I was also asked to review the
22 methodology proposed by IPG and its associated

CERTIFICATE OF SERVICE

I hereby certify that on this 9th day of May, 2014, a copy of the foregoing MPAA-represented Program Suppliers' Written Direct Statement, Volumes I and II, was hand-delivered by courier to the parties listed on the attached service list.
